(1:30).

There's a question here I don't like to answer but I will partially ...

Q: Could you talk a little about abortion?

K-Concerning abortion, (1:32). is what is done with man, it does with man, we never abort in space, we always find a ??

unless there is a danger to the mother. The mothers life is sacrosanct. The only abortion is when the mother psychologically and physically can't carry through.

Q: .. Two souls, how are they created?

K-

(1:34).

When the soul leaves the physicality ends ..

(1:36).

When we create souls we bring the best of the Universe,

(2:24). question about eating meat by aliens

(2:26). soul of animal >>>

(2:28).

WL- Even in Tibet they eat everything in this way ..

(2:30).

K- Have you ever had a guilty feeling that I am, made somebody to do wrong, or to committed a crime?

WL- Actually if you go wrong, be limited in some religion teaching, and then they said you'll be born as a guilty, you do this wrong, will do that, ?? will be guilty for that. Yeah, in the beginning I think I was entrapped in that kind of thing, but now I was more jumping out form that. because if you thin kin another way, because as you said, he need a needing ?? of ?? ears, to elevate the energy to became, in a more higher order. If I take a best wish and I give it back, then you don't feel guilty because you do things to help them, but one thing, is (2:32).

Q: Can you explain the concept of "purgatory" in the Universal Knowledge.

K- It comes from the understanding of purging, cleaning, in a way, it's part of the understanding of the Christianity and suffering, and they have created this condition, in the true essence, (3:14). it's part of lament. But with the knowledge you have today, do you think such a position exists. we elevate the soul, there is no need of purification , and going through the pain of it. Rick reads Wikipedia Purgatory.

... As usual we started a long path, road to be where we were supposed to be millions of years ago, and maybe this time it will make it easier. It's 333 KSW (:12). and its sum of 9, which itself could bring a lot, as usual, we don't read off the script, there is nothing planned, and we see what those who decide the future of humanity decide to deliver. As usual as you have seen, .. introduced new products, as we bring new T in. .. show the effect of new T. If it is not used it stays as theory on desk ..

(:36).

K- Thank you .. After betrayal by the Italian KF, we'll bring the KF back in ..

(:38). the man who learns from the mistakes of trusting humans ... not to be afraid of making mistakes ..

(:44). K- We see a lot of changes ...

(:56). .. or do we have to go through the process of understanding? In the coming weeks we start teaching you about .. 3 dimensional, non-tangible computers, line of communication. The .. prerequisite for it has been set. We'll introduce this T in a very soft way across the world. The present computers become obsolete, the present system controls become obsolete. (:58). I disclosed this T to Iranian Ministry of Defense University, in the past 48 hours. In response to the positive response to the Office of his Eminence Ayatollah K of Iran, in embracing the T, we release massive technologies, through 1 university as we see through the center of technologies dispenser. The T remote transmutation and transportation has been disclosed to the Iranian university in the past 48 hours. Non-tangible systems in a full control. It's for the universities and the heads of Iran how to disperse this T, across the planet on equal terms, but still stays open till all the KS of the KF. Non-tangible, 3 dimensional computer, working on what we promised has been setup ?? I said always, I receive, I give. .. knowledge at the edge of science will come in a very soft way in total understanding. We have disclosed to the Iranian officials transmutation of elements, and we have shown them. We have shown in a very detailed way, (1:00). how the next generation of technologies will come out of

KF, and needs to be shared. Understanding the knowledge is no good, comprehending and knowing what will bring will bring the change. Step by step I will release the most advanced technologies never seen by man. Some you could not even imagine it could exist. If UFOs were your dream, transmutation across the U and planet, will become your nightmare. This T as I wished, and I was assured that mankind will stay on track, has started ??? if you thought you were entangling with Gans's now you have to understand what these Gans's mean, and how they mean, and what they can do, and how they can be utilized, not only for peace, but for communication, transportation, and most of all unification with U Community and the rest of humanity. .. feeding

Do we find a position for physicians, when in fact your soul becomes your physician at the point of need. Don't forget I said, you are the last man standing, you are your physician. we are going through a transition between the man's knowledge, (1:06). and universal knowledge ..

I don't need a physical life .. we came to earth to enjoy the physical, but nothing but suffering.. man enjoys suffering ..

I have hidden many knowledge's without the KS even knowing in the product's you see. In time I will explain how, step by step. When a product is offered twice is because I see the bigger picture where it can be used. It's not that it is there just as a product. When we put something, it is a bigger structure plan .. and with it we elevate the soul, step by step,

understanding the true operation of the physical life ..

(1:10).

Maybe mankind is ready for the next shift, but it has to come through man, science and through the ethos. .. change the position of the STM and teaching the way we teach not how they taught ..

unification of all thoughts on the ethos of theology ..

Easier to get the Pope to teach the T under the ethos of One Nation, One Race, .. the understanding of man will be much more rapid. (1:12). We know what we do, and what is to come ... through already established systems which has taken thousands of years. Our Brazilian friends in asking a question, I felt the hammer, and I felt the nail, and I felt the pain going through the hand on the cross. I know the pain of mankind and I know we brought

conversion of energy to knowledge .. becomes the knowledge of the University, I made man so that he can love me ... the human race can give back to the Creator ..
(1:16). Every field you add up .. leads to thoughts and betterment,, passed on to your soul .. the love ..

add to the knowledge of the Creator .

(1:18).

We bring the knowledge of the Creator for man to put together new ways .

(1:20).

The Creator has decided to take shape on this planet ...

that the rest of the U learns from its purpose, from its love and beauty. Maybe, (1:32). today's teaching has brought you a bit closer to understand more. But you will not get systems, not for the time being, new technologies, not for the time being. If you remember we did a lot of theoretical teaching before we started showing how to make the reactors. Now we start teaching you how to get ready, to meet, to live, and work in the dimension of the universal strength and knowledge. And do not expect to have a reactor in hand and something to rotate. Expect to work through your soul, understand it, understand the operation of it, and trust it, then a new knowledge will appear. A knowledge of the U, and a knowledge of the souls. Maybe it will be the time to show something special, and maybe time to create that special condition. For sure, no time has been wasted every step ...

We put this dough in millions of years ago and now we open the oven to see how it tastes .

(1:34). .. Christ said, this is my blood, this is my body, and that bread becomes the body, and that blood becomes the love of man to give. That's why it is ?? in the dimension of physicality .. we hide knowledge in physicality ..

It's not all bad on this planet there is something good ..

(1:40). becomes a sanctuary for the U Community.

We have never broken a promise ..

(1:42). but not much left time. Because all the ..

Sometimes I think it was bet to hide man from the reality outside till he matures ..

(1:44).

One of the attributes of the Creator came from this planet, because He feel in love with this planet thousands of years ago ..

If you ask yourself why you have so many visitors, they come here to convert, to taste, to feel, to understand the essence of loving, while they know the Creator is here too. Maybe, the creation of man was not such a bad thing in the end, even though it was accidental.

Now you know, and as I said, we start teaching you the knowledge of the universe, as we start sharing this knowledge with the Iranian Defense University, in small steps at a time.

(1:46). Because you have to understand, they need to understand to defend it from any abuse. It wasn't coincidental that we ended up at that university, it was a purpose and a

choice that they defend the knowledge, for the humanity. As there are no more armies, that they defend it that it be used and shared correctly with the rest of the humanity, and maybe the Universal Community. Maybe it's time to contemplate, and move and understand, everything we do has a purpose even though it might not look, because the Master knows how to hide the secrets. .

(1:48).

Any questions?

(1:50). Q; When do we know our soul is speaking to elevate us? ..

K- Why do you have to hear your soul? Why do you have to have your soul? Why do you have to have your soul hear with your ear? (1:52). Why do you always have to hear something with your ears? Why don't you trust the emotion of the soul? Why do we have to always be in the dimension of physicality, I have to hear it, see it, to believe it. Aren't you here, aren't you hearing, aren't you learning, we teach you from inside out, but we made a voice to it that you believe it, now you have to find it.

Don't forget, with this dispensation of eternity, we have brought no prophet. We left it to you, according to the maturity of your soul, and your understanding to mature to the point of understanding the totality. As I said, we leave no prophets behind, because now you are the guide, you are the instructor of that physical dimension. (1:54). This is the problem, you got to learn, if you are here at this point and time, the central, what I call instruction, has already made his decision where you have to be, and why you are there. And that is your soul, you got to understand a very simple process, and the sooner mankind understand this, the faster we can take this next step.

Lineage of the soul (not reincarnation):

You have your physicality, and you have a soul, and this soul has an immediate souls which have lived, and lived with. And this soul at the same time, has the souls which lead to its creation, which drew the line to its creation, because these souls have to balance with all other souls. You have a short term responsibility and a long term responsibility to your physicality, and when you are born you fulfill both. It's not just your birth in this cycle, what your forefathers did has brought you here. Because what he did wrong or right has positioned you here, in every shape or form. Partially you are fulfilling the destiny of your physicality and the soul, but partially you are fulfilling the lineage, which comes to you to be in that position. (1:56). Even if you are a cleaner of a street, or even if you are a king and leader of a nation. If you follow the lineage, you might have been a king here, where your great grand children become a cleaner here, but the soul is the same. The dimension of the physicality has changed. And when we created the prophets we followed the same rule, that is why we know where, and who appears where. And in point, we give gifts for the others to be elevated too. In our work there is no accidental, we see the position and decide that both are served, the time and the place, and the lineage and the structure, the way we set up. This is how we can say, in such a time will

come such a prophet, because we have already decided lineage. We allow no interference from outside, from where we sit. At the same time we gift at points for others to be in the future, the creator lineage, at other positions of the U, and they take their positions. As they have learned and matured they take their positions. So the lineage and life on this planet through the physicality, does not end with this planet. And this is why in other teachings I have said, (1:58). you have to care for soul, what it does and what it will bring. Then you want to hear your soul, or do you want to see your soul?
Any other question?

Q: Lucas ... in past thousands and thousands of years, what you said about a few minutes ago, about the ?? we have in our planet. Why and what would be the purpose for the Creator only use our planet, if it is about to choose the prophets, why (2:00). .. How would it be possible to do in other planets in the whole Unicoe, would the prophets be sort of co-factor to the Creator, and that's why they always ?? here, there is some kind of interaction with the human kind .. ?? if we be a prophet ?? in a matter of love, be able to elevate, and be able to empathy .. in all the Unicoe, would be that the .. I way to see. .. Some members of your family were touched by the light of Bahaula, and now we know that was you. So it's an honor to question you personally, thank you.

K- Mankind needs time, and as I said in some other teachings, needs maturity otherwise you mess it up, you destroy it. .. (2:02). Why are UFOs more or less uniform, they don't all come from the same place. In a way, as the knowledge of the life reaches the point of maturity in the U they gradually shape to come to understand the best, the same as we done in the past years. But they have to gain an ethos, and many races never killed, never destroyed because they tap into U Community from the beginning, so it is easy share knowledge and bring them into uniformity that everybody enjoys. The U has a rule, it has a rulebook, it has a guidelines, and .. it's like .. European market, as you join in you all have to have the same standard, the same lay of the same roads, the same health system, and at least the same kind of protection. .. UFOs all use the same knowledge, the same T, because as the community achieved peace and equal share of knowledge, they each shared each race across this U has added something into it. It is not all made by one. (2:04). This is what mankind has to understand.

(2:12).

(2:14).

Q:

K- The problem is not a problem. It's a beauty. The problem is not for the Creator, it's for the man.

Q: But in my way of thinking, the most precious thing the UC is looking for the link to the Creator , the link is the essence of love ...

K- There is an old saying, you never see what you got because you are too busy looking over the others, what they have. And mankind has been too busy doing that .. Mankind has never looked inside to see what he's got ..

(2:16).

(2:26). video; moon lamp, Gans manufacture , (2:28). speaker lamp.

K- .. when you see these it shows all the dreams of man, to be able to fly, reach moon and have a clean planet. .. none of it is impossible. ?? world gone in this position ground itself into the ground, we take the ethos of keeping the planet clean and cleaning up the mess we ?? made up to thousands of years, and especially worse in the past couple of hundred years. (2:30). Then we have access and ?? knowledge what we have passed on to the Iranian Defense University, to make that UFO for humanity. To allow Iran to show the T they have, and maybe sooner than we all land on the moon, the moon of our dreams, not necessarily the moon of the earth. The U is full of moons, you choose. .. man's knowledge has reached to that point to ask and receive, and he has reached that point to be able to understand the totality. Maybe mankind in shorter time will reach ?? but to what extent, and what do we need to do to get to that point.

we have decided to bring that change and elevation ...

by converting such a rapid amount of energy to elevate the STM, the planet soul will change too. If you look at it in a simple way, you have the planet and the body of the man. (2:32). You have a disease anywhere in the body, we make you a patch and we let the fields go through to take that pain away, and to make ..

what have I given you, a change of physicality and a pain of the planet, to the patches, to the MaGrav systems, to the Gans units, and gradually we are coming (like patches around the planet), soon then you think, we will be there. But we needed the mankind to need it from his soul, not his physicality. His physicality for centuries, marched the streets, change governments. ... no one has sorted it because no one ever elevated this part (STM). (2:34). And with this understanding we elevate it ...

you need a lot more to change this one

you cannot take a horse to water and expecting it to drink ..

(2:36). So this is an opportunity for the man to elevate and .. satisfy that thirst for knowledge and peace. One thing is the Creator is not going to wait that long if there is no progress. Every man should know when to cut loose. And I don't think the Creator will be any different. Mankind has to move on. I was asked, would you move this planet to somewhere else with all its beauty? If we see the way it is, why not, if we see the progress and the love, why not. We created it, we control it, we maintain it.

Any other question?

Azar: When you explain about when the souls appear and each one has to ?? position, and we know (2:38). where the souls are according to the lineage. ?? then also we know when the Creator is going to bring a prophet. Say I change to this planet according to my lineage and if I go back to the analogy of the car and a driver, say I am supposed to go to this route, and I am supposed to exit 66, but then I don't go to 66 I go to 73, so my position changes, so does the position of everybody else changes, and also the position of the prophet at the time he is coming?

K- Depends on what is been agreed.

Q: So I went to a different exit, I messed up the whole plan, just like the, magnets 4 or 5 , change position .. I didn't fulfill my route, so it means I messed it up?

K- You are part of a structure like everybody else, we are all part of the same what I call package, .. so many that all needs to agree for that mess.

Q: So it means as the soul level I am coming all the souls. and I go to a different exit , the other souls understand?

K- The other souls are aware, they don't need to understand. (2:40). Awareness does not become an answer.

Q: .. a lady came, said her grandson acts like he has 3 to 5 souls from the past, he is so knowledgeable ... She was asking about reincarnation, if the soul keeps coming back. I said, I don't think we believe in that, Mr. Keshe says the same soul doesn't come back. Then perhaps the knowledge, because we know the lineage, the knowledge is carried in the RNA, the child remembers that knowledge. Am I correct?

K- Maybe. We cannot do, only the time and the place is decided.

E- Maybe I can try to answer Azar's question about taking different exits. It's interesting the analogy you made about driving instructors. .. (2:42).

.. instead of turning I went straight .. it actually took me to the path the other student driver had to take. And I knew that path, by going behind that ..

that mistake allowed me to do everything right to pass the examine. So in a way we can have an instruction and we take a turn or we don't, and if we are meant to reach a certain point we'll reach to that point. And maybe along the way if we don't listen to that instruction we can end up in some side-effects. In this case if I take a wrong turn something happens to the car, which means the STM given instruction to the STP, and yet the STP took a wrong turn, and damages the physicality. I believe that is what Mr. Keshe is trying to explain about the mismatch in the emotion, (2:44). between the STM and the STP that then reflects itself as a disease or a cancer inside the body of the man, that is the emotional cancer. But along the way, because you do not ...

Right now we are very scared about what the STM is instructing, because we can't hear it ...

Important is not to be afraid to take any turn, because in the end if one is to reach home, ?? or the other, that road will lead to home, it's just that it leads with a bit more complications along the way.

Q: I have one question, I want to connect this to something else Mr. Keshe in the past. (2:46). .. some men come to this planet, and when they leave .. they leave as a donkey, because they became even worse. .. Say I came to cleanup whatever my lineage did on this planet, yeah, and then I was supposed to go to a different path to cleanup, then I don't even cleanup but make it worse and leave. It means another from my lineage needs to come back and do the same, so that is my question, when you go in that direction, you go into the wrong exit, you are going to make more things complicated.

K- It's only more complicated for you. ... we also "jan" means life, it means I give you my life. .

(2:48).

(2:50).

(2:52).

.. But when you make that mistake deliberately when you have the option, you pay for it, by taking the time, by wasting the time, because there are people in the party waiting for you to arrive, you keep everyone waiting, and that stealing from the others is not allowed, when you are aware of it. If you are not aware of it, there is a reason for it. But if you are aware of it, deliberately take your time, what I call the French system. In France the later you go the more important you are, so they say diner is at 6 but in reality doesn't start until 9 o'clock because we know Mr. Franz doesn't turn up at ..

(2:54). So the food and everything else has to wait because of one selfish person.

The loss is yours ..

If in life we fall in love with the Creator, that is the destiny of the soul, no one can do anything about it, but if we fall in love to create the mayhem deliberate, then there is a punishment, in a way of spending the time on your own to learn to go around and come back to the same road and see if you make the same mistake, and take the same junction again to go out. Loving is an art, and mankind knows it by heart, because he created it in that heart because he taught to the soul to love. Souls give, but that is what they do to be in position, but now you give to a soul which is in love, god help the U everything else vibrates. Humanity with the next steps of development, (2:56). in science and technology will create that vibration throughout the U. .. it's like they are going to bring a new car and advertising ... the whole of U is waiting for it ..

In a way if we don't deliver on time the universe will start making a fake love, and that won't do. We give them all that they believe in true not the made up , and fake.

(2:58). Each one of plays a part in it

Mankind has to move ..

What a shame if we miss this bus. One thing, no promise has ever been broken ... we keep the promise... (3:00). Maybe you can hear it in the background ..

or would they celebrate when the Pope says, the Messiah has come.

(3:02).

Any other question?

Q: .. I am thinking of a driver who has an instructor, but the instructor doesn't take over when the accident happens, and the car moves and kills a lot of people, (3:04). every time it takes, it kills a lot of people as has been happening in the world, so in that case, what's ?? with the instructor, why doesn't the instructor intervene, ?/ in the killing?

K- Maybe there is a reason, maybe there is a purpose, maybe the soul that is there for the driver to learn something. Maybe there is a purpose to serve. I said that very recently, it's not being ruthless, it's being realistic, and understanding totality. If you look at the life we done, maybe we. I know there are a lot of hardships, a lot of deaths going on real or fake, or made up, or whatever, but part of it and some of it, by the souls who accepted the mission to be there, to move on, that with their presence we can change the society. All

deaths are not, especially on large scale as we have seen with Corona and the rest of it, it was made up, it was done, some people have an incentive to do it, but .. overall there is a plan for even those who made it up. .. it's not a sacrifice, it means the souls have matured. (3:06). No souls leaves its physicality if it has not matured its time. If accident, even that will mature the soul in time. So .. all the souls you see in different positions and times have a purpose.

A good example of one of these beautiful souls is Fabio. Fabio came to us in a beautiful way, and we appreciated his life .. and in that process with his death and with the accident, it changed the course of the KF for to be where it is now. Even though we went to Middle east, Africa, China, and we came back and with all the problems we had. If that accident wouldn't have happened, most probably we wouldn't be in the position we are .. (3:08). ..

(3:16).

Any other questions?

K- Why we don't release the KF virus report in the KF Journal, is because it's the first time we have been requested by the Iranian official, the university, it's the first time, this will bring the credibility of the rest of human race will listen.

Reading Farsi for me is an impossibility . (3:18). So when they wrote the paper they translated it to English ..

The only thing I haven't forgotten about Iran is how to love, the way we do, it fulfills to the point of demolishing ?? your ?? because sometimes we don't understand how can a man love so much. ...

Q: ... (3:20). ?? what do you mean by you are a temporary passenger, they put you down and somebody else gets in, what do you mean by that, about the car and instructor?

K- It's understanding about the time and position that you do not possess anything. If you think you are always the owner of that car and the only one who drives it, then it brings arrogance. So you always have to know, the soul moves in combination of the fields gives opportunity to other lives .

Q: You means the body is ?? improving?

K- It depends how you take it, it's according to your understanding.

Q: The whole thing is simple at the moment .. it changes .. In Koran it says if you are not doing what you are supposed to do. (3:22). then we change you with another people who loves God more then you do

God will change you and bring another people in your place ...

.. In Koran it says ..

(3:24).

Satan can deceive man until the Judgment Day .. only people he has no access to is sincere people ...

K- Thank you very much. One of the questions asked in the background, it is really interesting. . .what it brings to understand is, would the mankind evolve to the ultimate position of understanding his soul, (3:26). or would the mankind become aligned with

the physical soul, ?? knowing that every cell has a soul. And mankind soon will learn that it is within his knowledge of the soul and physicality to retract everything that he has created with him, if he decides to. What this means is that in fact, mankind will understand one point, and that is, physicality has a field dimension, and if the mankind is so attached to it, he can take it with him. .. as we said before when you ?? make the Gans's and put back in for the soul of the planet to elevate. You do the same. You can take with you the essence of your life if that is your ultimate goal. If that is what you want, if you are so attached to the physicality, (3:28). take it with you. If that gives you the freedom to your soul. Many times I watched people telling me, doctor has given me so many days and months to live, I want to live more, can you help me. In so many times I said, I don't want to stay here and suffer. Me, I want to go because I know what is on the other side of the wall. And what about what we know. I have changed many clothes over thousands of years, but the soul stays the same, the commitment is the same. And why doesn't man learn that? Why do humanity wants to stay more to suffer? Unless you understand the elevation, put it together, elevate it, and let's have a party somewhere else, without losing it. In so many ways, when you get to that point you see there is no physicality, you become light. Some people on this planet have learned this, they left no sign. (3:30). But in so many ways, they took everything with them. If the man is so greedy to have everything made with him, then we give him all the power to take all the gold in the atoms, ?? in the strength so when everything else. ??? have the strength to take everything with him. But I wonder if that man will be able to take the love, the emotion with him too? Or the desire of physicality is more than the emotion of physicality.

Any other question?

(3:32). Q: Spanish .. (3:34). .. He wants to know what is the objective of the MaGrav and all the teachings of the years?

K- You understand him to your understanding in Spanish, and explain to us, you'll be our teacher. ... (3:36) . J- I have explained that all these teachings are to get connection with our original soul, superior .

Q: He would like to know if ?? nine is the objective of the whole thing?

K- would you like to answer .

J- .. (3:38). The idea is that all of us are a part of this change, each one of us has to create a field .. to cover the whole of humanity .. we all have to be conscious that each one of us is a part of it, and we have to grow together. (3:40).

J- He wants to know how does the Silicone work and has does it relate to C14 .. all different energies of the original H .. (3:42).

K- Can we go to another question, thank you very much.

Q: from Brazil. about the Bible and fulfillment of the prophecies. when the Bible talks about return of the Messiah, is it about the Christ consciousness or about your call here on this earth. Can you give me a clue?

K- What was your question? \Q; You here on this earth doing your job. (3:44). to the mankind, as we can take it as the fulfillment of the prophecy in the Bible, Christ will return. .. Creator return.?

K- What was the purpose of it. What is the purpose of the Creator returning to the earth every time it becomes your time of Day of Judgment? Or is the prophecy hidden, in a

way, when you mature in soul. Is that the Day of Judgment, it means you have matured to the level of understanding of the prophet. A lot of people got matured in time by leaving the physicality, but in time if you mature to understand when you speak about the resurrection or return, now we showed you and have given you the knowledge. You can resurrect yourself, you can if you understand it, how to take over the soul, and it time need to return to physicality. We have shown Gans's and creation of matter. So if you have a desire for someone to be the return of Christ, so you say it is the time of maturity, okay yes I accept, but what happened now. Nothing happened to my soul, so he couldn't be. So the return and what you call maturity, comes to the STM, not the collective understanding of one. (3:46). Otherwise we have to bring billions of people, sitting, saying, oh it is time now, we sit and listen. How many want to go back to physicality, and how many want to stay in the soul. What your soul and physicality were aware of when you die by the old age and separation, now is given to your hand to decide. ?? everything correct to my soul, for my soul. YO cannot steal from your soul , and this is what everybody does, we sacrifice, especially in Christianity. The more you sacrifice, the more you suffer the closer you come to God. There is no word so much wrong then this ever brainwashed the man. When you steal form yourself, how can you have to give. I do everything for Him, he is whatever, the God, the Creator, and he dies, I don't want, I want to sacrifice. Especially what is traditional in Brazil, the more you sacrifice the more you see, the more you allow your soul to physically suffer, the lower you go. Who told you these things. How can you be richer when you steal from yourself. So is the time of the return of the Christ, the maturity of the STM? And does not need to be the ?? But if you want it, it satisfies you, and you think you can mature. Yes I am. (3:48). If that satisfies you, and you have a reason to mature, then my job is here to serve. I am. But what does it give you, with that word I tell you? As you don't see any change, because you haven't matured your soul to reality, it becomes resentment and lie. If you understand it, the true meaning of what is said, it's on you to educate yourself, to elevate your soul to the point of maturity. And that day will be the Day of Judgment , because you have judged yourself, and this beauty is that we have given this gift to everyone. So what do you think? Am I the return of Christ, do I fulfill all the prophecies of the past? Yes, I do, one by one. And if any are left up to now, bring it and show it. But does it make me the Christ? Or does it make me, for you to know, I know. But at the end, if you don't comprehend it, and you don't know how to reach your soul, (3:50). I cannot steal from the STP, because it is not mature enough to see its soul. Doesn't matter how much you want. It's doesn't matter how much you love a car, you don't enough money to pay for it, you still have some left to collect to come in to be able to buy. It's not by sacrifice, it's by understanding the knowledge and the truth. Otherwise you'll be going to everyone in the universe, have you seen God, how can I get to Him, can I pay you something, ?? ?? you give us your soul, we'll give it to you, and even if they show it to you, because you haven't learned it, it's no good. You bring all the Holy Books, I wrote them, and see if I haven't fulfilled every single one of them by now. I have. Does it make me God the Creator, or does it make me the passenger of U who have time and wasted time to stay on this planet to see if he can change this race. But I still live in a body of physicality, I still eat, fall in love, cry, and be ashamed to be a man, because that is part of the process. Otherwise I'll manifest as a light, you want a color, you want this, you want that, you can

have it. You wouldn't learn anything from it. (3:52). Mankind wouldn't learn anything from it.

Q:

Amazon chief dies of Covid-19. No world leader dies they pay ..
(3:54).

Any other question?

Q: When we learn to recognize our soul here in physicality and get used to living by it, will that experience of the soul be the same when we leave this physicality behind?

K- repeats. .. We have learned it, it's imprinted. And if you understand the emotion of a then you mature to be part of U Community, because then you live and speak by it. Many KS have a big dilemma, they believe, they have seen, they are searching for it, (3:56). and they say, when we believe it, accept it, now we have new kind of believers, nonbelievers, and then we have seen the power of Gans plasma saved us from Corona, but it doesn't take us to the Creator which is our soul, and beyond it. And we cannot do, we want to spend time in physicality, till we see the soul, till we understand the soul, until our soul tell us. How many times do you want to fail, and by failing stay more, and bring more suffering, and loose more. Or you understand you have to ?? leave the physical life as much as the emotional life and the soul life. So why do you make it difficult, you prefer the suffering, or at least make it easy for me. We cannot steal, and that emotion of stealing has ?? gimmick, and mankind has got used to stealing and find an excuse to steal from his soul, it doesn't matter what it is. Because the taste of physicality is more..

(3:58).

Our emotion is the finger print to our soul, this is why that fingerprint bring you punishment ..

(4:00). Never refuse a gift, because you are stealing from your soul, because there is a purpose in that gift otherwise it will not be given.

When you receive a gift with emotion, it has a soul ..

(4:02). there is a trick in that soap, a big trick, one say I explain.

Q: .. what is the meaning when we are all spraying the Gans water in the Cup of Life at the same time across the entire planet?

K- We extended this between what the Iranians started and the Brazilian, and around the world. Every Sunday at 12 o'clock CET, it doesn't matter what is yours around the world. (4:04). Is to allow the fields of this planet to come back into balance. Don't spray the Gans Water, just spray with the Gans that it lasts. And this will start a change we see the change, we know the change ,and as it becomes more and more, it will clean, it creates that dome of peace. Now we put fertilizers and everything else on this planet, now we bring Gans's ..

Please send all the videos to the Brazilian.

Please don't use the faces of children .. there can be some abuse, there are sick people in this world like the king of Belgium, and we have to protect him from doing a sin, not for us. (4:06).

When you spray it you create that link. ..

Q: Thank you ...

K- Thank you very much. Shall we call it a day, we passed your 4 hour limit. (4:08). Stay on the line 1 second. We have a gift for you, as you saw last week, we shared a picture with you that. There is an old saying, which says, .. the eagle has landed .. we would like to share with you .. what you have been waiting for .if we come to agreement with the Iranian government. The Eagle has landed. The Enhancement Unit is going through it's final process. It look beautiful and in essence carries the KFSSI.. (4:10). This is the beauty we have been waiting for, elevation f the STM ... we bring all the knowledge of the man from the time of creation of man on this planet, gathering of all knowledge on this planet. this unit will be seen for 100s 1000s of years to come

It's a Phoenix of the knowledge for the man ... (4:12).

Some of you will conceive in this system for the child of the future. ..

It's beautiful to see this and bring this into knowledge.

By the time this system is shown in Iran there will be no fear of Corona. (4:14).

K- Yes this is the actual system not a drawing anymore ... and you can walk in it in a very short time. .. (4:16).

K- Maybe this is a backdoor ...

(:12). ... as we develop new ways and things to do. One of the good news we have today is the final report for Corona to be released by the KF in conjunction with International Defense University of Iran, is completed. Accordingly as you all know we invested a huge amount of money and time into KF Global in US, stocks ??? , and by laws of stock market trading, on Monday or Tuesday we'll announce internationally backing, and backed fully by the Iran Defense university and the officials of Iran, confirming the ?? in Corona disease, this ?? out by Tuesday, and published in Iran .. accepted internationally. to curb Corona in the next 33 months ...

(:14). success rate of 95% .. national clinical trial .

(:30).

for the first time we put the physicality and the STP, (:32). and the Soul of the Creator (STC) with it, the soul ?? arrive is part of the STC, and in that sense it needs to be to start the new cycle. .. dimension of physicality,?? it will be completed . Man will never take arms, or kill or take another life when he understands the creation.

Man will fall in love with the creation and the Creator.

(:34).

(:52).

(:56).

understand why we call it enlightenment ...

(:58).

(1:14). As I said, enlightenment is through the STM not the physicality.

Any question?

Q; I wish K could talk to us detailed about detachment? (1:16). R- ... You were talking about enlightenment and how does detachment work (into the screen ..) ... ?

K- Do you know the story about the Rabbi and his flock. The rabbi on Saturday said, give everything, be detached, you don't need anything, there are people who are hungry. .. the wife goes homes, .. I didn't tell you to give to them. it is for them to give to us to hold. ?? Detachment , that is the beauty of it. The Rabbi wanted everybody to give as long it is given to him ... this is the problem with mankind ... (1:18). This wives saw the truth and in dimension of physicality. she elevated to give more ...

Detachment is not to give every thing away. It's to do the best .. to share the richness of it. The devotion and detachment comes by the understanding of the totality. not to be hypocrite.

(1:20).

Detachment

(1:42).

Any other question?

Q: If you are enlightened does the Gans light up?

K-

(1:48).

(1:52). Q: .. guy doesn't know what to say...

(1:58). K- Come back after some time. Do we have Rafael to translate to Portuguese.

Hello darling how are you?

R- ?? not so bad, thanks for asking.

K- Rafael would you like to translate will you ask him his question? (2:00).

Q: He had an experience with the Cup.

K- Can you speak louder please.

Q: ... When I woke up in the morning, I have a very intense dream, I had an interaction between the STP and the STM, (2:02). and I could remember ... color of the Cup for the STP it changed the color to white. I was wondering if it was a illusion or it really changed?

K- A lot of KS will go through this phase gradually that they want to distinguish is it their soul or the STP what they see. ... that's why we gave you the CM to practice and understand what you see and feel as emotion. You will start feeling and seeing and for you to start comprehending the difference. ..

(2:30).

(2:40).

Q: Can you expand on it a little you said that many souls were going to be re-visiting this planet ...? (2:42).

K- When you feel them, see them, then they explain themselves. ..

(2:44). .. Q; What is a guarantee of the purity of the founder doesn't change after the first generation ... let me explain, every religion changed ..?

K- We are not a religion, we are not a movement. Science ?? Christian, Moslem, Jew, Buddhist, switched the light which Tesla created, they all got the same benefit. The same with a car...

(2:46). .. the knowledge of the MaGrav, helping with the viruses will stay, it's not for mankind only, many races in the U.

My science comes from the Soul of the Creator, and goes back to Him when the man reaches the maturity of the time and the space ...

.. That comes up from upbringing in Paris revolutionaries ..

Q:

K-

(2:48). .. Q: How do guarantee they don't get into power , place of statue, keep that, lie and cheat, and forget the ethos of the first ones.

K- What do you mean?

Q: Every time they give a power to the man, .. then they become into lying and cheating with the power?

K- That is the bandwidth in so many ways, will be automatically as part of the structure of the elevation of the soul, will diminish. (2:50). Power, the essence of power is on the outer edges of the brain .. because that is what feeds the man, it is even lower then the ...

(2:52).

(2:54).

(2:58).

Any other question?

Q: Create different nucleus with love, different interaction within the Cup ?? (3:00).

.. depending on the alkalinity or acidity ..??

K- I don't understand the question. .. you got to make it short and sweet .

Q: There are some brother in space, are there different categories among them, and religious orders ... are there beings that help us ?

K- Why does mankind need help. (3:02). Mankind has the knowledge.

.. I don't understand this questions ..

go to another question.

Azar: Emotion is the communicator of the Soul ... at the same time we are told we should control it ...

Why the intensity of emotion can lead to enlightenment? (3:04). K- Repeat. .

Q:

K- Because you go to a different level of strength, Either one leads to a different strength of emotion ..

Q:

K- Anger is the physicality of the man ... I never seen in the U. ..

(3:06). when you don't see, when it is not part of you, you react to it ..
when you know your weakness you are strong with it. ..

Q; What about the intensity of love, if it becomes really high ?

K-

(3:08). .. I have seen many these, mother's jealousy of daughter for love of husband ..

Q; When someone falls in love is the STP ?? STM

K-

Q: Can both fall in love?

K- Yes

Q: How can you tell which one?

K- You will know in time ... you see loving is giving, giving everything for not to possess ..

(3:10).

If you fall in love with the soul you never ask you just follow.

(3:12). K- This is part of the biggest problems .. I have seen many cases in the KF.

(3:14).

(3:16). .

the first thing they should teach in the school is teach emotion, love and understanding, of human behavior. (3:18).

(3:20).

No more questions. Shall we call it a day. .. if we learn by the STM, ..
what is learned by physicality stays behind .

Next week will be a celebration for offering an alternative, not the only alternative, for Corona to the world. We ask our team, Global to be prepared, ?? international support for the Iranian government. ...

.. (2:08). .. so Corona is teaching ...

K- No, I know nothing about it, but many geniuses in the world.

Q: .. imagine how many other things will be discovered ...

(teachings here >>>>)

K- As you say, the second virus that is coming. We have seen the one, two cases in Iran, from the time of notification to the ambulance to the hospital the patient has died... the second part of the implications of this T becomes essential., (2:10).

we don't have time to detect ..

Corona took intelligence from the memory bank of our cells, from ?? of ourselves. and mutated intelligence of ourselves, to it. (2:12).

some places they are feeling its strength when they walk ...

did it lock into DNA to human DNA ..

every cell of man carries full genetic information .. in calcified, it picked up in few seconds ..

.. now it doesn't mutated it becomes us .. mutated created its own fields it's own without dimensions ,, traveling as a soul .. (2:14).

this little chap has visited all our organs and taken a copy .. (2:18). would it somewhere down the line manifest itself as a human representation of energy?

Q: I remember you saying that even if someone has the panda virus and they recover it they could get it again and again mutation ?

K- Yes, I think we need to. but it is something we are going to live with ..

according to WHO statistics 95% success (2:20).

95% with a natural product, because the Gans are a natural product, they are a copy of our body, so they are one of us. (2:22).

Q:

K- How would you like to deal with these souls.

Q: brought to

K- We, I think people trying to create control, and structure of monarchy and the rest of it, they developed this virus, and to all the knowledge and assumption they had, they would control it, they will do it. and they will understand it, and they had a control in every shape and form. (2:24). the only thing they didn't compute was that a knowledge like this would appear, and this becoming a fear, becomes a bank of knowledge for us.

we are disposable packs of energy ..

(2:26).

(2:28).

Q: I don't know if it is propaganda from other networks, but the numbers are inflated coming out of Iran?

K- we have a problem, this is the second cycle, not the first. ?? coming out of the office of the president of Iran, has brought this about. And we will soon correct it, in the next few days. By next week this time, the key people who are blocking this T and other T, to save people, will be opened up to Iranian people .. the Ministry of Iran took the people to ransom .. stem cell... answer was zero, wouldn't even get 40% success...

(2:30).

they thought they would make millions out of it.

.. now we can disclose more to you because we have everything in hand. The mayors have themselves and families are using the Gans ..

(2:32).

K- They want to control through the vaccinations. They are carrying out the plan of the Illuminati's, it's not their agenda. So their pay masters. I have seen documents, warrants, for many of the WHO arrests. Most of the WHO top guys are under observation. They just waiting. You have to understand, when a chief of police, or judge wants to issue the warrants, Bill Gates is there. How many billions do you want, we have been through this.

(2:34).

Q: .. Dr. Fauci says there will be a second and third wave coming in December ?

K- We already have it in Iran. We have already faced the second phase, we already have the

we come up with a new mixture ..

(2:36).

.. Just be patient, maybe by Tuesday One Nation will release new information ..

K- How does it look from you . Golden Age of Gans , what feedback do you get?

..

Q: We are getting mixed response, some are for the so called, leading experts, and CDC, and WHO and to follow their vaccination ?? (2:38). .. when we listen it to being

Thank you very much for all your work Golden age has arrived.

Q; I am from Iran. can you explain about negative Inertia .. (3:24).

K- I never heard of negative mass .. negative Inertia ..

They call Anti-gravity ..

R- Perhaps you could define Inertia. ?

K- The Inertia is the MG field so the matter state. Gravity and M fields, is the interaction of the fields of the planetary system, from the center. When the Inertia and G fields interact, (3:26). lead to creation of matter state. We see the sun, what we see on the surface of the sun, is when the matter Inertia, MG field of the H can accumulate and interact with the M field of the center of the sun, and those 2 interact fields, it's the same as what we see as a light on Earth. That's why the stars shine, that's the only reason they shine. The MG from the center which is plasmatic, which is total mass, which the Inertia .. if you understand the copy of it, what we call the STP, Inertia is the STP of the planet. And MG field from the center of the planet is the soul of it, the interaction of the 2 create manifestation of the ?? visualization of the entity. As simple as that. When the fields are at the strength of manifestation at any dimension, we call it Inertia.

Q: ..

(3:28).

K- Two things do you see it in your eye, or does anybody else but you see it? Does anybody else in the room confirms what you have seen. This is one question. If you get 10 people and they all see the flashing light, that is a different thing, But if you see the flashing lights, that's a different thing. Because if we see, this is the property of some of

the MaGrav Systems when they see interact with some of the Star Formation, we have seen this a long time ago. You see we don't teach everything, when you come to it, that's why I can answer you immediately, Because we have done a lot of knowledge I don't disclose, you are not ready for it. But there are 2 things, do you see this

(3:30).

(3:32).

(3:34). K- Or put the photon papers, capture with ..

A new machine to measure the fields of the PI for the frit time..

(3:36).

(3:38). We have moved into a new state of science that motors won't work.
the motors are there as a backup .

each system has a soul of the creation ...
total collective knowledge, 20 years of research sits in the Enhancement Unit, when you enter it will touch your soul , emotion .

(3:40). the people you hate, you'll become the loves ..
if I can unite a family, a nation, humanity, it's the way I set it up.
this unit carries the soul of being, it's alive, created with life ..

Any other question?

Q:

(3:42).

.. how fast you could make this available for other viruses?

K - it depends how you interact with other viruses .

It's not that every virus is bad, we need energy packs ..

(3:44). your lymph is an energy pack ..

.. it has to be

If one nation go .. I'll make sure that nation doesn't go anywhere. Don't forget I haven't shown all the cards in my pocket yet. You play games I'll lock you down ..

I'll make America a land lock nation that nobody can move in or out of it. .. just by your emotion .. (3:46).

(3:48).

One of the KS who received the suit, do we have the pictures.

Ella- We have some on the list ..

Shows photo of Gans suit ..

(3:50). This kind of clothing .. is for everyday use.. if you continuously use, you balance the fields ..

Why these have no one to take a proper picture of it ..

(3:52).

.. the world leaders have become district managers of their state ..

many will look into the KF for solutions ..

(3:54) . not if, once our negotiation .. we'll release publications ..

we'll hold on to it for a little longer if everlasting peace will prevail ..

(3:55). Bye for now.

(:03).

(:28).

.. Any questions?

.. We have seen in some parts of the world where fathers are killing their sons, (:32). and mothers their daughters, out of nowhere. And then we see the process of Corona. We have seen a number of these in the past few weeks. If it goes in that way we have to be open and understand it. We do not stop the teaching, we do not stop the teaching, but as usual we have to give the warning as we did in advance with the others. As we have seen. we have been correct. The WHO announced they see it as environmental. As we said

weeks ago that it is in the environment. What we see is the development of new systems and how fast we can go through this development. ...

(:34).

Q: Using Gans in (swimming) pool ..

(:54).

K- if you remember I tried this 2 - 3 years ago in Nigeria, (:56). building pools, and embedding different Gans's in the walls of the pools, in Nigeria. What will be interesting is how it will effect people with diseases .

Q: ..

K- Do you put any additives to keep this pool clean?

Q:

(:58).

K- . how behavior changes .. It's a large scale totality work. .. It will be interesting, (1:08). . if there are environmental people around, ask them if they see any difference, changes. Fishermen can better fish, or there is no fish.

Wan Lynn (WL); ... I found one of the plants I put in there to grow better. very fast grow a lot of roots ..

(1:10).

(1:12).

K- .. these are plants that have not received any water for nearly 5 months. It's this plant, (shows picture), usually they die .. but they have not. This is Aloe Vera, hasn't been watered for 5 months, but it actually has grown more. but the environment is full of Gans.

(1:14).

In so many ways we see plants survive. What is interesting, if you look at the front they have even given shoots ... without any water. This is what we se, environmentally we can create a condition that plants survive..

(1:16).

Q: I didn't watch the temperature.

K- It's not the temperature, it's the feel in the environment.

Q: I am not objective, the whole property is Gans. Gans everywhere ... can't tell the difference. (1:18).

K- When you come to the property from the outside?

Q: I just can't say. .. when I go in the pool I am completely balancing, restored .. it's instant, right there.

K- Thank you very much .. we learn from the expansion of the knowledge.. we are always KS.

Are there any other questions.

Q: .. you always say when you setup .. (1:20). negative to the Nano coat. ??

K- We ask them to change it. .. The reason we put the negative on Nano is that we pull the energy from the environment to create the condition of circulation.

Q: Since I work with the Gans's .. the place I live I don't get much sun, can we create a sun environment.?

K- Sun what? (Sun environment). I was discussing this yesterday, maybe that is why you are here. There is a part of the T which I do not teach, because the knowledge is not there, and collectively. .. we have never had the reason to discuss it. (1:22). That is the creation of the plasmatic rays, and .. it's a ray of the sun, creating an interaction of the fields which is beneficial to the body , plants... this T at the moment is close to the man .. very direct way on the development of the STM, what does this mean, .. is that the way we use laser beams, we have a T which .. cannot be opened to mankind, primarily due to the behavior of the man. in that process we create fields , convert the fields to rays, and convert rays in conversions ? inertial state, rays or Gans, or matter state, on earth condition , not through the plasma, we find the process of the rays of the sun, (1:24). when they come to the inertia of the ?? earth and matter state, they convert to the energy to matter state. There is a process which we can do the fields of the plasma, this is one of the ways that you can literally target viruses, if you want to do it that way, we target .. that the PI receives overwhelming energy that it has no other option then to divide its power. or in deep space you want to cut through fields. It's a knowledge we don't see nay reason to share with mankind at this moment in time. Until mankind moves from this behavior of killing, because this very powerful tool, extremely powerful. If you use the correct way, you can elevate the souls. If it used the wrong way, as it is plasmatic in strength, can open up the soul, which means you become fragments of fields. You create a condition that the fields of the PI from this position, to this position, spacing of gap, different behavior, different structure. (1:26). You can create condition of the fields to behave like the rays , but at the spectrum, specifically at the planned need, or the persons needs. It's in construction and its behavior .. like fields, but in more homogeneous of the same, not the spectrum of the same. These rays are extensively used for certain purposes in the space. at this moment in time part of the knowledge hidden form mankind.

K- You can create fields of energies which the plant takes it as the sun rays, as the light.

Q: .. John showed us the plan .. without water ... plant made a new leaf.

K- You can do it. you create an environment, (1:28). the plant tunes into it. There is a trick in these plants which I showed .. when the plants where watered, all of them sit in an extra pot. Most of them, .. because Gans water was put in the past and now dried out, they have some residuals of Gans, that ?? the plant continuously create that condition that

the moisture continuously comes in to the plant. .. plants sit in a double cup, because now you have a double Gans system. create Gans water, this attracts the AA from the space, this is how these plants were fed .. the secret is in double layering, the soil is like dry rock. You cannot .. but as the Gans's have been put in over time, they have ?? sifted into layers of different strength , and as they create an environment, and in a way, around them, between the cups, (1:30). they absorb protein to the leaves. Those proteins according to what nature needs, uses. it's impossibility to break these soils in these plants. It's so hard, but it has survived. Orchids have gone through the full cycle of flowering, and a winter time ..

Q: If we use SF , 4 balls, can it effect that way.?

K- Yes, but I advise you, .. we went and took some pictures .. of the ?? tree in Austria. it's amazing what we see with these ?? trees . (1:32). was that we planted SF, when we go .. at of 35 ?? trees, we observed only 3 ..

(1:34). planting the cores under the ground. .. embedding, and in standing 1 above .. we can attract all the protein we need to the trees. Which means in desert areas we don't need to cultivate water, we can just grow. By going underground through certain steps .. we create a dome .. we can just grow vegetation.. we bring the strength below level, not on the surface, this allows .. we can bring and introduce new condition environment. we can enhance in areas that allows this to take shape.. to create that dome. (1:36). in the process we can allow the rains to be there ...

this gives us a facility to be able to observe changes, to be collective as a greenhouse effect. one of the reasons we see these green, the house is literally saturated with Gans's. In totality everything is inside it, it takes what it needs. No doors have been opened, ?? closed. temperature has been kept at about 3 to 5 degrees. .. they can survive like this for years... the other 2 are very much water dependent. but the beauty of it is the way they thrive. (1:38). We have those who are in single pots, they have not survived, next to each other. 5 cm away .. single pots have not survived. .. This brings a very beautiful idea, where we say, if you are traveling too much, don't keep plants because they die. Now with this, it becomes a myth. Because you can leave your plants they'll survive. ..

Q: Thank you sir, always an honor.

K- Thank you . we are waiting for the pictures to be put up ... This is the picture of the ?? Kir tree you see. (1:40). .. These are the pots, and you can see how tall it's grown. .. this tree...

(1:42). .. of the 35 trees only 3 have picked up .. it means this environment is not for this plant. .. this one grows 10 to 12 meters in Middle east...

(1:44). Q: for some months we had Gans balls near the big Ki ?? trees
Are there any other questions?

Q: .. back to the creatures, you said the virus is now going to take a manifestation of physicality. K- possibly, yeah. Q: that physicality has a very aware intelligence. if that is so would that creature to go to the universe? Would it not just leave the planet, take another dimension?

K- Do you go somewhere is the land of plenty to starve? It, by error, by mistake, by delivery, by whatever, has found the best place to survive and nourish.

Q: If it is soul, (1:46). the ultimate goal of the soul is to go back to the Creator, so would, it's a creature of the Creator, so would it not be at some point go back?

K- It depends like us, we stayed here a long time and we go in ?? But the reality is this entity can survive, much longer than mankind, because he has an energy environment, he doesn't have a depletion of the physicality at the moment.

Q: So if that intelligence is going to be superior to mankind ..

K- Not necessarily. It has the power to convert. Is it more intelligence, we don't know until we see it. But physicality of this virus, because it's the first time we have seen, ?? plasmatic conversion is inevitable. Is inevitable.

Q: so that being wants to replicate, wants form, like all beings once they start interacting with their environment it wants to multiple itself? (1:48). ..

K- Yes, what we have seen, it can mutate, it can change and convert rapidly, it has taken over this planet from Africa to Siberia, to Brazil Amazons .. in less than 6 months. and it is completely .. they said when the summer comes it will go. .. it has gotten worse. So we have let it free, and if anybody tells there is a vaccination for it, and immunization for it. Show me. .. the virus has intelligence. and he is rapidly growing, how .. those who thought they brought it in, will have a field day, they can control it. But it has run out of control in every dimension. (1:50). This breed of Coronavirus has a long history in the universe, and we are aware of it. We know it. In time if mankind becomes good enough at it, you can reclaim the earth back. But .. it needs the whole of humanity to get together to be able to do it. .. we have requested to go to this planet, ?? to develop the space ?? soul, and what we call the opening of the spans of universe to mankind. We have made an official offer to the Iranian national defense university for full collaboration .. for the first phase of development of space reactors, for deep space travel. This offer was made yesterday to the Iranian officials, and with this we extend to all the nations. It's time has come to work in that direction .. to the Americans .. (1:52).

in due course when they agree ..

We have entered in what we said to expand the horizon enter space.. we'll bring scientists from all over the world... elevation of the soul, mankind will find his salvation from this situation. This needs a lot of understanding, end of misdeeds by governments and

if you read the message that was put out today by Veterans.. read it, it is strategically worded..

(1:54). .. Israelis have claimed they have damaged 2 advanced reactor sites development, not anything else, in Iran in the past 2 weeks. We close our eyes to this behavior, as we are much more generous, forgiving in Iran ..

We have extended specifically this peace.. the same offer to Israel ..

.. this comes out of the greatness of Iran .. to open the spans of the U in collaboration I will traveling back to Iran to head this development. in the next 2 weeks we start the development of this process

(1:56). ..

and a joint combination of travel and life in deep space, will be started in Iran. ..

.. we do not hit back, invite back their childish behavior.

in the deep space we don't need nuclear T. plasma T opens up

when the Enhancement Units are complete in the next few days, then we travel back to Iran..

(1:58). We head Iran in the deep space travel beyond the imagination of man, we invite all the nations.

As I said in the One planet .. on Tuesday, in the coming days we start the writing of the Book number 9, which is the soul, which will complete the STM, and will follow with the 9 books which come to understanding the soul of the universe, understand of the work of the soul in the universal dimension, and by Book 9 to lead mankind in understanding of his Creator. And this is one of the reasons I step down in ?? (2:00). ?/ KF. As for me opening of the space in both dimensions of the soul and the physicality. And then at the same time when the STM enters the UC its like an infant, it needs to be taught. the teaching of the soul, as we call the books of the universe, will be totally in a ?? neutral way and shape. We write it with the pen of the soul. and we start that teaching. SO be ready, hopefully for the next few months to start learning more about life in the deep space, as we develop new T and tools for travel in the universities of Tehran, in that process we invite all of you scientists to join us. Not necessarily to Iran, but collectively to share knowledge without boundaries that we can move as one race, it doesn't matter where we are. .. the time has come for mankind to move, and as I promised , with 9 months left to achieve it, we start the whole process. Once the EU is complete and we sign it over, we go into a rapid development, to put all the scientists around the world in a beautiful city of Tehran. (2:02). And eventually we'll see what comes, man to travel in deep space, disarmament, total equality of all races, and as One Race. Mankind will have a new life to be busy with, then being busy with .. killing. We have no choice as we see the beautiful flag of Iran .. red . white peace growth greenery .. this is how the flag of Iran was set ..

(2:04). .. development of the new memory banks with response times millions of times faster than present computers, is essential part of development to new T.. we make sure this stays open to all nationalities. Many of you have been waiting for the conference in Tehran, soon this conference will take place. As we go through the final phases of Corona ...

we will deliver T never seen by man, we'll deliver T that eradicates the need for food in the next few months with collaboration with Iran scientist and the rest.. Iran the center of new knowledge.

(2:06).

Any questions?

Q: What exactly is the soul, and what is an energy packet?

K- Soul is a collection of fields which has order, exist, has a management, as you call it. Energy packs are food that are available to be consumed if need be. Usually are collection of the spectrums of the same. (2:08). .. it's a full, full explanatory. How can you it explain it much simpler and easier.

R- In regards to the Coronavirus, it's an energy packet, so to some it would seem like, it would be taking away their energy, but to others it's a means of food. converted .it all depends how you look at it and process it.

K- It's .. do we have a need for it. Is there a need for ?? by our soul. If we are afraid to be eaten by the lions and the other animals, the beauty of it is, in the space nobody eats our soul and the freedom of passage. (2:10).

Q: What changes for mankind in such a short time, and what changes for visitors who stay here forever, now?

K- Not much changes, you got to adapt to a new T, the way we adapted to cars, computers in the past centuries. This is another step but a higher order of understanding.

Q: in light of all this, what are our options, list them. ?

K- we don't have options, we deal with this before. but we are aware of

(2:12). Q; .. I think what you just showed about the plants that don't need any water, is a good indicator with child born in EU ...

(2:14).

K-

these machines become incubators .. when they come out have they learned enough to eat from the U , not food for the U ..

(2:16).

(2:22).

(2:48).

Any questions?

There is a beautiful picture that has a lot of meaning for me. .. it is promised. .. (2:50). we will bring it to that point. they say people of the same mind, which their ideas flow at the same time. .. in understanding the totality of the knowledge, the way we do, it brings me to a very interesting point. People of the similar mind, school of thoughts always get together ...

(shows picture of Ayatollah K) and in Farsi says one thing .. "We'll make Iran the bedrock of knowledge."

(2:52). .. Now you have to join us if you are of the same ethos ...

Any questions?

Q: What fields does Aloe Vera have to stop muscle spasms. ?

K- Go and ask him, you know the soul of plants .. The human body, plants, or animal kingdom all are made of the same fields in different composition. And when you find, (2:54). the one that matches. ?? operation of the other, you can use it to enhance what is the weakness, and that is all. Or in the process of transfer it changes to what the other needs. The ?? lived, Aloe Vera by it for centuries, from eating it, to wash with it, ..

(3:04).

(3:06). when you receive the vaccination, the Corona has changed , what is the vaccination. I just sold you a dead duck.

.. Gates has to be arrested as fast as possible, and .. the organization has to be brought to a halt, and all the finances they used in creating this, pedophiles and Microsoft to create this mayhem, and once we take the head of the snake in our hand, we can control the rest of the ?? ... now maybe for the first time you understand why they went for KF this way, to kill and try to discredit, because in the bigger plan they knew it was the only T that could stop their plans. And unfortunately it has backfired on the,

. we gave them 14 days which is what we said, the law of the universe. (3:08).

(3:10). .. now they are battling with the third cycle. The third cycle will come out with mental diseases, and that will be very hard to put back into position. ?? mental conditions will become part ?? ?? will spend time to look after.

Any other question?

Q: What condition do we need to create to transform this physical experience to a plasmatic one, (3:12). similar to the resurrection body of Christ, or Babaji, or ?? please teach us?

K- What do you want me to teach you? What is your expectation? ... (3:14).

Q: Guatua ... thank you ..

Q: Was P Trump's response in a letter, if so can we get a copy and use it in the press in the coming USA election?

K- No, he never puts things in ?? I don't think he is educated to write. We have been told to be prepared to move to Washington, ?? advisors, to be prepared for negotiations. We negotiate with opposition, as much as those who are in power. In the next few hours, or days, if Trump keeps to this stand, KF will negotiate with the opposition. ?? Truly the time for him is over, because incompetence in protecting a nation. Asks for removal from office. Holding vital information that can save thousands of lives daily, by the president, makes his position, unattainable. (3:16). And now we have put it in public. Today it's 10 days since he received the document without a response, makes his position already unattainable. Self-centered interests overrides the national interests. If you are American, Canadian, or anywhere in the world, release the link to Veteran's Now ?? to show the incompetence of a president. Self-interests above national ... the only thing Gates structure was not expecting was such a breakthrough in knowledge and technology. As you read we are inviting American doctors and scientists to come to Tehran. We have not said we done it, we invite world scientists to come to Tehran. If you have access to your presidents, PM, give them that and put them in touch with KF. If you call the ambassadors it will be denied, because .. from now on we take possession of delivery of the technology, and it's part of the work. (3:18). Call your ambassadors, .. president. .. if you go through the Iranian ambassadors there will be no response. President Rohanni is in the pocket of the Americans, and he has already been looked after well by the Gates Foundation. If you are sick like president of Senegal, get in touch with KF we'll put him through ...

We know there are people who tried to get in touch with the president of Brazil, he is confirmed to have. We need to think what is going to happen this year to the opening of the UN, nobody there to unite, they are all hiding in their offices. (3:20).
Any other question.

Q: How does parental separation effect the child's trust?

K- Is it done by your government compulsory? Or is due to your failure. Children should not be separated from their parents under no circumstances. What I think that we will see in the long run, we will see, (3:22). growth in misconduct. if the children are taken, and there is a certain concern in the background, many of these children will not be returned back to their parents, and many of them will be abused in that process. There is a huge concern on this international, that children should never be separation from their parents.

Q; Dan is clarifying, it's the divorce of the parents, they get separated?

K- It's the same, it's all the same. .. we have seen this in many, many occasions. We've seen it.. even in divorced cases children should stay with at least 1 parent, and they have to be monitored, all the time, it doesn't matter which parents hold. And should not be, .. psychologically it is ?? available , cannot repair these kind of damages, especially when it is done directly by the parents themselves. (3:24). Preconditioned separation by preplanned, by any parents, is a criminal act. It's not justifiable. You cannot justify such a thing. It should not happen but it happens, in so many ways, we see it, on a continuous basis, and unfortunately, every effort should be made for it not to happen, but some parents do it, on prearranged organized for their own benefit. ... Separation by the parents by pre-clandestine, (3:26). plans for the benefit of one parent, we have seen a lot of it, we have seen a lot of it, and what I have seen, is the biggest crime a mother can do to this child, or the father. Secondly, when the other parties come into their lives ??

Any other question? Have you received the links Rick... (3:28).

Any other question.

Q: then the AA that form in the containers... of the Cup 1 can be eaten?

K- Why do you want to get fat. In a very ?? last week, one of the KS have done. Some of the KS do everything they use their own body as a guinea pig, but that is their prerogative.

R- .. dipping your finger in the AA, (3:30). and touching it to your tongue. I have actually tried that and it is quite amazing the response .. made me feel like I had a large protein meal ... seemed to last for a day or two.. (too much potency there) .

K- There are a lot of things we don't teach.

R- ..

K- Maybe one day. when we mature, we don't teach a lot of things because the knowledge is so vast and once we get all the governments working together .then we can release massive amounts of knowledge... plus what the man adds to it. and it will be beautiful to see it, (3:32). how we'll add to it.

any thing else.

Q: Are the Americans using advanced T to spread the Corona?

K- I don't know, go and ask them.

the beauty with it at the moment, I think if we give this report to the American opposition, they will slaughter the White House. And how many of you want to get rid of the Trumpy, or you want to trump him out of the office. (3:34).

R- A comment came out from Elon Musk Space X , and Tesla. stock has skyrocketed. ... ? more then Toyota... he says the long term goal of my stock is to help make life multi-planetary to ensure its continuance, and the massive capital needs are in 10 to 20 years, by then Tesla's goal of accelerating sustainable energy and autonomy will be mostly accomplished. ... I wondered what you thought of all that? he is still sending rockets off.

K- That's all he has, I think we have shown him ?? what to do with it before. If he does it right we support him. I think in the coming weeks, (3:36). when we unravel the new generations of the power supplies .. of voltage which can be converted to what it needs to be. will bring electrical cars into fronts very rapidly. We will see the new evolution in technology.

R- That is the missing link Elon would need for outstanding success beyond the batteries that are in the cars now.

K- .. it should have been done a long time ago. And ... what is, we have to work collectively as human race. in the end we need their cars, we need everything else. .. we will we have to be on 2 ends of ??? side.

Any other question.

(3:38). .. shows document from U Council to eradicate Covid-19 to Western Australia ... response from Minister of Health. .. (3:40).

K- I think we advised Doug to send a copy of what we sent to the American government to his government, and if they appoint minister of directly to the government. We will not give outside the government, we have a security reason why..

(3:42). if they assure that this paper doesn't go out, but stay within the government we'll immediately give it

we invite them to come to Iran, The Iranians will pay for your officials to come to Iran to test ..

(3:44). Organize your ministers, I am available 24 hours .. your team comes to Iran for 3 to 5 days to see... you have to come to the center of knowledge to see.

I advise Americans to get in touch with the opposition, they can send American doctors to Iran...

We pay for it, and help the nations ..

.. we would like to invite the Brazilian president to Iran and Senegal

(3:46).

Q: .. KF in Brazil is offering to clean a hospital, ?? is there any direction you would like to give to us KS?

K- In Brazil they have bought the basic system and arrived, we had an official meeting with the hospital a couple of days ago, now they have to go and get some clarification in the hospital, and the KS have with the collectively with Raphael are gathering Gans's in one station to give to the hospital, we have given, are taking to the hospital that in 14 days we'll clean out the hospital, and we'll start cleaning from outside, all viruses, and this is what we are waiting for them to clarify, in the next few days. and we start, It's in a

major city in the country. And it's a charity organization, they do it freely, they have 90 patients in hospital, and 10 in intensive, and hundreds outside. and we have gone outside, now the equipment is in Brazil, arrived in Brasilia, or not in .. (3:48). I'll show you, we are not hiding anything, our openness is our strength. The shipment to Brazil was done a couple of weeks ago .. through customs .. (picture of what was shipped to Brazil)

system and water system, you can buy it and donate to your government.

we have a good base support in Brazil, and the Brazilians have responded to this.

Because this group has 8 hospitals, once we start with the first one, the other 7 will come into operation, as they told us from the beginning. .. it's beautiful to be there to see it..

(3:50). As I said to the officials of the hospitals, I stay with them the first 2 - 3 days, the way I stayed with Iran, until they get going and can train the other doctors. and then they can put the doctors to the other hospital. We can save thousands of lives in Brazil the way we done in Europe. and then they can structure it across Brazil,, so they all don't need to go to this hospital .. we need a big base first.

The biggest problem will come when the Europeans on the 15th try to open flights and if they don't hide an duck like Indian Airlines, to show how many people die on board the planes, then in Europe nobody will fly, and we are back into square 1. worse then square 1.

the problem with this is when you have no protection, you mutate it. (3:52).

any other question?

.. we cannot stop, we always have rest, somewhere in the body stops.

Thank you very much for today.

We hopefully manage to succeed, and with this and in that process we'll be able to enjoy the fruit of our work as the team of KF worldwide. I think it is a time for it, to start. for us to benefit as a human race what we have done in developing. (3:54).

when I see on CNN I believe it, and the other thing is, CNN is not the world.

It has been accepted by the head of security in US Embassy in Austria ..

I have done my part, now it is your part.

I hope when we meet next time there will be much better news then today.

KEY-PHRASES:

SUMMARY:

ENGLISH TRANSCRIPTION:

(:06). K- ... I hope we can learn more and in the process of learning more, we share more, and maybe become a point, a breakthrough for someone, somewhere. In one .. we have been there to teach and serve, I said, that is all we can do because those people who you thought were just nothing, they were there as KS now through their teaching, what you thought, they have saved many lives, through Corona. It's not that we put money to the KF or back the F with different things, all the teachings, all the little courses you do, or go around and teach people, that is serving. We all serve in different ways. And mankind in this moment in time needs more serving than actually he needs anything else. .. We see second round of Corona, (:08) hitting much harder, and the lives taken by this virus, is become more or less impossible to stop by the present world of medicine. We hear LA has come in second lockdown. ..

.. it's so frightening it puts shivers on my back, even the knowledge I have, how to control this, what we call, dragon. The new version .. what we call mutations of this virus is extremely drastic, it cannot be kept out, and cannot be hidden .. as KF has always warned in advance, we see the appropriate, until the government decides to release the totality of the report. In this report I have stated categorically, that we have seen through Corona, father's killing their daughters, brothers, their sisters. People are committing crime in a state that the mind is not ready. (:10). These people have to be excused, as it is not murder, but the course of action of the illness, which no one has control. If we carry on ignoring this, many of us will be imprisoned for what things we never had a clue about, as Corona has created a condition of short-circuit in the emotion and physicality of the man. The international law, and the governmental law, and .. the direction of criminality has to be ready to put aside any crimes on the basis of Corona, as people have no control. We have seen this in Iran and China and what I call, the law enforcement has to stand firm in, "no crime is done." And if it can be proven that the crime is due to Corona, not by default, by fact, there should be no crime. It's not that you are a state of not knowing what to do, or you are doing, is in fact what it has shown, short-circuited in the brain. We are not giving carte blanche for people to do crime, but man has to be correct in conduct, and put everything correct in the beginning. We see other factors which is coming forth through Corona, we are holding back until we discuss this with international governments and away from criminal organizations like Gates. We have seen new elevations, what we call, (:12). deviation, but with a side-effect which is absolutely criminal. I ask for the arrest of Gates and his team, internationally. This request will be put along with nations which we collaborate with, because this is a genocide, what we see we cannot even talk about. People close to me, and the head of the KF are aware of it, but it is painful even to think of it. Some of the KF teams are working in the background to get results. It was expected, but if what we see in the masses, are appearing, mankind is heading for doomsday. The reality is, we are working on it, new procedures have been put in position, doctors are adopting it, and going ahead with applying it. And when we see the results we have to report back. I wish one thing, Gates would have never been born. That blood has to be stopped. Not by anything else, but by elevation of the soul. The pain it will bring will last mankind, if mankind lasts that long. Generations to come, if generations can be there to come. For this reason, as we were aware of things happening

in the background, we override a new fundamental system, to override Corona, and match Corona, as we say, step by step. Today, (:14). I release a new structure for a third Cup. This is a Cup of Soul, and its effect needs to be there, to overcome, to be able to carry man through this time. To what effect you will be using it, is very much in the hand of how you see, as those who are effected. The Cup of Soul has a direction and dimension into operating in the STM through the STP, to the physical body of the man. We had to introduce this as we see no other way, we see no other what I call, option left to mankind, except moving to the level that the Corona works. And in that process handle it with care. ?? at the same time making sure man does not become insane. We elevate the STM to become the defender of his own physicality. And in so many ways, many sorrows will be created if we do not stop this. What is important to understand, is, it interfered in our structure at the energy level, and it locked itself to our physicality, we started with physicality, and we went for the structure of physicality. Now we handle it with its own soul, with its own energy, and this is the breakthrough through the science, never been taught, and in so many ways, we have to teach it. I have no option. (:16). As the Iranian community say, you have taken all the hopes from us, but in fact, we gave you the chance and hope to survive. In so many ways, we open the door to a new science, to something you knew, but you never thought. And it has to be done in that way, and it has to be done in the dimension of the STM to understand the elevation of his soul, which can stand the elevation of the STP, and the physicality of man in all dimensions of the existence, from emotion to it's energy level. Many of you who have been around the F you are fully aware the way I work. Simplicity of teaching is the key to understanding, and simplicity of understanding is to, in fact, comprehend.

Cup of Soul Teaching:

The new Cup is from the comprehension of the structure of the man. (there is a small problem .. K has bad cold ...) What I want you to do is listen very carefully, This is Cup #3, the Cup of Soul. What you need to do, very simple. Two Nano (N) coated ... (:18). You have 3 N coated wires (left side is flat, middle is coiled, right side is coiled). All 3 of Zn, you connect all 3 together, with this you connect {to the second Cup} -- or the first Cup, in all 3 cases, ... In the first Cup and second Cup you have N coated Cu (middle coil), then you have , and you have ... the Zn, and you have your N coated, and Cu rod. You connect all 3 N lines together, and as before you connect the others which are not N coated together. The Gans's produced in this part (Cup 3) will be at the energy level of the Soul of the Man (STM). Now you connect with Cup 1, which carries the Soul of Physicality (STP) to the STM, and with Cup 2 you connect to the physicality of the man. Where I make it very clear that you all know what it is. Zn N (in Cup 3), Zn N, Zn N, this is Cu N (Cup 1), this is your Cu, and this is your Cu, and this is your Zn.

With this new Cup, the Cup of Soul, you match the energy levels of the Corona on the strength of the emotion of the man, (:22). that does not allow the conversion (?? of the Corona to Ca matter state). In this process, we create energy at the strength of the field of the physicality of the man. This ?? light ?? off and run the 3. ?? around the Cup of Man. ?? can't take Gans's from it, but produce the 3 Cups ??? (R- Mr. Keshe you are breaking up ..) whatever you make. R- . repeat that last sentence ...

In this process you always use Zn from what I call, Cup 3, what we call Cup 3, (:24). whatever you collect from it. Do not look for matter state in Cup 3 as such. You are used to seeing physicality, but if you get physical Gans, it is no problem. If you get, what we call, "Energy Gans", you just take from the bottom. This area (bottom of Cup 3) you collect from. Do not forget, the process of connection is as before (?? with Cup 1 and 2), you never change the process, which means to make it very clear for you. This way, these 2 connect (Cup 3: flat N Zn on left :connects to: coiled N Zn on right) this one come here. And a third line (jumper wire) connects the 2 (together). But when you connect to the Cup #2, you connect as a totality, or to Cup 1.

So in that process, from now on, you always use Cup 3, at least 20% of your mixtures, 20 to 40%, and then the other 2. For this you rub on your head, on the body with your hand. You make a mixture in a bottle, (or) in a ball, then you take it in your hands and you wash your face, you wash your body, you wash your every organ. You have to understand, the STM exists in every cell of the man. (:26). In so many ways, you elevate the soul, that the soul looks after the physicality. And in that process, then you add Cup 1 and Cup 2, depending on where is, where you connect the soul to the physical dimension of that position. There is no other way to battle this things this way. You can put it in the sprays and spray it around, you can put it in the balls and leave it around the house. But you have to be careful, you have to be careful, elevation of the soul, is cornerstones of the existence. And you have to understand what that means, 2 spiral and 1 flat, if you have a piece of Zn, cut in 3 strips, twist 2, and leave 1 flat, and spiral the 2. This is the new entry for you, there is a new way to learn, and with this process we have, as I said we have no choice. (:28). All have to be N coated, all have to be understood the way it's processed. Try to stay your salinity (NaCl), and round about 10 to 15%. Now we are not looking for the physical Gans, we are looking for the energy of the Gans. In some of the cases, you might see that one of the coils will vibrate, it oscillates, it's no problem. You might see new colors of Gans's as the soul manifests itself in the new dimension of physicality.

If you want to make the STP you follow the same. You take 3 N coated Cu (flat, coil, coil), with this the STP, you release a lot of pain, suffering, but it will be in a local, in that dimension. With the Cup of Soul, it's the STM which overloads the STP, and the physicality of the man. Don't forget Zn is around 65, (:30). and Cu around 60 - 62. In these ways we give the man a chance. A chance to be able to encapsulate Corona, by weakness in the strength, forces the energies of Corona to interact direct, and as you have seen, we will see the further development. In these Cups always, always look for energy, and the energy, the right energy, is sitting somewhere, just under the center, somewhere here (Cup of Soul, under middle N coil). This will bring you a lot of new understanding, you will feel the condition of the existence, and in so many ways, becomes a magic. You can use it on your animals, you can use it on your loved ones, you can use it on the trees and plants. Many of you will hear the noise, many of you will hear the soul. Many of you will understand the operation between the physicality and the soul. (:32). You will see rapid development, you will see eradication of many diseases, you will see painless life, and you'll feel the love of the Creator.

We have taken man today to new understanding of the new levels in the height of understanding the creation. We take man from the dimension of his physicality, to the dimension of his soul, its strength, its beauty and its effort. Last week I told you I would teach you something new, and the head of KF reminded me this time, don't forget you made a promise, you have to make it. I fulfill my promise. From now on man will look into new dimension in elevation in the STM directly by the man himself, if, if he is correct in conduct. And at the same time, (:34). through the understanding this new process, maybe, maybe mankind will elevate himself to new dimensions.

In so many ways, if you understand this, you come to a new point, and if you could translate this to a new understanding, this is Book #9. And if you understood the totality, ??? to the Book #1, in the universal order of the soul, the creation of the soul in the dimensions of the universe. Because when you die, in the physicality, in the dimension of soul, leaves the dimension of physicality, enters this point. Now we need to take you through this process to understand the Creator. In a way, we have given you a hand up to move from the dimension of the STM to the dimension of the Soul of the Universal Community. This is where the transition comes, this is where the beauty comes, this is where we fulfill our promise. The Day of Judgment, the ?? of the STM to the understanding of the operation of his own soul.

I am the Creator, in the dimension of the physicality of the man.

In that process for the first time we welcome you to the Universal Community. We close the door on the STM, (:36). and we open the door to the Soul of the UC where the physical existence is not an option. And through the same process we'll take you to understand the Soul of your Creator, how He was created, where He came from, and how he has become the creator of all. I promised when the glory of the technology appears, one shall not be there. And in that process mankind will understand in totality what it means to fulfill the promise of the past thousands of years. The Day of Judgment is not the day where you stand, the Day of Judgment is when can transmute and go through the transformation of the STM to the Soul of the UC, which creates the life of ?? set to the Creator. And this is a gift, it's such a beautiful day, with a new love, a new care, a new understanding of the creation. I always said, (:38). when I am fulfilled with the love of the creation, I create. In so many ways, understand this because in the coming time you will understand more about the process of the creation, and you need this as the basis of understanding of the totality.

As we always said, we come to taste the beauty of this planet, to feel the love in the dimension of physicality, that with it, we can elevate man to the dimension of the love of the Creator. And as we have fulfilled in all dimensions, it's time to elevate the man. In so many ways, in the coming days and weeks you will see the beginning of the new changes. As we have elevated, and as you start using these technology, in a true essence of its knowledge, and not the fear of the demise of the man. But as I always said, understand the process of the creation. Understand the love of the Creator, and you will find the path to Him. (:40). Try to understand the way mankind will proceed from now on, will be one way, and one way only, through the STM. And then if man would like to

see life in the dimension of physicality, it's his choice, be it at birth, be it at given life, be it in transition from one dimension to another. The process of teaching in elevation of the STM, completes itself today. Now the process is not to elevate the soul to overcome the physicality for it to survive longer, as with the teaching of today there shall be no death. The dimension of physical death is in the hand of the man himself. This is the secret of life, everlasting life. Many of you make it by the desire to have that, and many of you will fail, that desire is not in truth to serve humanity, but for the ego of the man. The completion of the closure of the past, was completed this morning. The early hours of this morning. And with it came the release of the ?? this morning. We close the door to the past, and we open the door to the future, for the humanity to understand the elevation of his soul. (:42). Nothing in my cycle is coincidental. And nothing in this cycle will come by chance. When mankind finds the true love, mankind has elevated to the dimension of the Soul of the Creator. We came here to find, and we found, we came here to elevate and we have elevated. Now it's for you, in to decide in what dimension you want to exist. There should be no fear of Corona, if you have managed to crown your head with the STM, the true existence, the true essence of creation. When I am given love, I shower love back on humanity. And you are washed away today, if you understand. There is a point while you understand this, while you start seeing the results of this, while you start seeing changes that you could not imagine, then we start the process. You got to understand, whatever is created, is below what we have created. We know how to handle it, (:44). from cronies, to Corona, does not make any difference. Any questions?

Q: .. when you refer to 3/21/21 you talk as you are running against time. Is this a ?? and why?

K- 21 - 21 which is March 21, is the beginning of spring, the beginning of life. A new life will start on that day as we promised. A new life for mankind, a new life for understanding of totality, and In so many ways, in the next few months mankind will mature so fast that, we pass everything mankind has known for millions of years to gather to his knowledge. It will be the beginning of new understanding. As I said before, around that time I move from the KF, (:46). and go back into teaching and research direct, and development that releases pain and suffering on this planet, and ?? . As the new head of the KF she has been battling to get it right, now she has to battle it to have it right.

one is responsible for STM, and one for the STP ..

(:48).

you humans occupy the surface of this planet, this virus even touched those above, innocent, we could not stand it anymore. With this new this new process we encircle the whole planet, as life on this planet in every shape and form is dependent on the AA. In this process and the new teaching, (:50). that is to come will take you through the threshold in entering the UC as a soul of the planet. A soul of a child, that child is the human race. The next few months we rush you through as much as possible.

we'll see the end of kingship, the end of what we call enforcer societies, we'll see society transition, where what mayhem we saw in some nations will become part of the structure of the change, permanent change for humanity.

we put out the hand of peace to the American administration today. Defy us, we'll wipe you out through your soul. Not a bullet, we enter into your creation. By the request of the Iranian government, we put the hand of peace to all the nations as of today. (:52). The instructions are clear .. through the teachings of today we start the process of world peace we have the tools we showed the tools, and you will do it, not us.

In the corridors of powers there is a lot of discussion, what are we going to do, we lost everything. My advice to the Rothschild's family, in direct contact with the KF, .. for us to meet with the masters, the response is yes. We meet with you on one condition, total disarmament of Rothschild's operation. Everything has to be equal, and the highest priest of the Rothschild's family has one choice, abide and work through us, those who brought you will not be able to operate anymore. Your grand masters, have no grand?? In your direct contact with the KF, and your request to meet the KF management, (:54). will meet you in Austria or Germany. Go through our channels and we will meet with you, on our ground, our terms.

Any other question?

Q: ..)not clear) is this next Protocol with the Zn, is it for when somebody gets the Corona, or just do it for prevention. The 2nd question is we drink from the Cup 1, can we drink from the Zn Cup, and 3rd, when we make the physicality Cup with Cu do you connect it anywhere, or just connect it as one and connect it to a Cu. (:56).

K- You can drink from 3 Cups, and you'll find out, that you don't look for the dimension of physicality, Cup 1, 2 ,or 3 collected the same as in the processes of the past, and the present which it adds. You have to understand the 3, or Cup #3, you get 1 line connected to the others, from all 3 when you have connected, from the central common line. When you have the line from here and from here connected, then you have a line from here to here, and you put a ?? to connect, your line of connection comes from here to your other Cup.

Q: . with the Zn Cup we need ...

K- It's not a Zn Cup, it's a Cup of Soul.

Q: When you want to drink from it, because there is no Gans, ..

K- You might produce some Gans. you are going to the dimension of physicality, just do as we said, make it first, do it first, and then talk.

Q: .. there are a few cases in New York that I have seen, (:58). there are children 12 - 14 years old ... they have tested been tested, they have antibodies, but don't have any symptoms, ... what is the future of these kids who go to this ?? and show antibodies, but no symptoms, does this mean they are immune to the Corona, and are safe in the future, or they are going to develop cancer... ?

K- What we see, Corona is dividing itself to different sections, 0 to pre-birth . ??

9 to 14 / 55 . teenagers to adults . adults to 55 years... they all can get common denominator one, but each one we see now, separate effected ...

(1:00) .

(1:02).

Q: the teenager in this group are immune >> ?

K- They are not immune, you are using wrong terminology. They are going through a process of transition, growth, and active cells, and that active cells choose ?? energy of Corona.

... we see this group will never produce children .. we see in several countries ..

(1:04). we see men who never produce sperm.

R- (interrupts) a new report in Canada, , under 40 years ..

K- I am going to repeat so it is clearly understood. We see infertility with the sperms, with no life, which means those who are infected will never reproduce. This is a crime Gates has done. Now you understand. We request all the governments to do a sperm test and egg test on all those who have been infected, between 3 to 6 months after their infection. This is a birth control. We have seen it in 6 nations for the past 6 weeks. Lost of libido, and at the same time zero sperm count. We have never seen this. Those who are effected, first was reported in Iran, (1:06). first was reported in China, now we can report it ..

Birth control through the backdoor. I will take revenge on Gates and his ?? plans. It's the first time we disclose this, and it is becoming a pain in the whole structure of the work.

We reported multiple menstruation, Now we see infertility. ..

I didn't want to disclose this but

this is the prime reason I released Cup #3 today. (1:08). Most of men, who are infected by Corona will never reproduce, the same with woman. We have given new procedures to be adopted by a number of countries and doctors, and the only solution we see is the use of Cup 3. The infertility is 100%, which means not even a single sperm ..

Cup of Man, and Cup of Soul,

try to make love as much as you can that it can be defeated. If you have a partner stay with him close, and take him through Cup #1 and #2, and then take him through Cup of Soul. The STM or STP, this will bring a lot of problems. for men or women who will think that their partners have lost interest in them, and it will bring new social structure problem. It's not that your partner is not interested in you, (1:10). it's not that your partner is having an affair, the truth is Corona has killed everything, emotion and physicality. The direction for man is non-

stand with you partners ..

first this and then the cancer

take baths ..

do not let your partners down because you have let yourself down. In these teachings we have to tell the truth ..

(1:12).

.. that the social structure does not get damaged. (1:14). This thing appeared about 8 - 9 months ago and then in Iran. ..

doctors started testing about 4 weeks ago. zero sperm count. .. calcification has solidified the sperms ..

We are here together to change it ..

(1:16).

Q: . the physical Cup and ???

K- You decide.

Any other question?

K- We to understand a lot more about this, we wanted to hold it back to the time when we are ready, but as I teach, we get reports coming. .. (1:18).

we need to understand the totality of the process, this is crucial and this will bring a massive social structure damage to humanity, if a large number of people get effected by this, the population will drop quite drastically. When you see 3 million men in US effected, there will be 3 million incompetent men. Those who cannot reproduce, are all men, and this is what was one of our main concern, we run a test in Ghana in a very effective way, when we heard this developing .. our team in Ghana used the T to overcome this ..

for sure you will see this problem across the planet. The rise in this, especially in teenage gap

(1:20). this will become a social problem when your partner is not there, you look for satisfaction, you do a crime, you commit a sin, and that has to be stopped. Our responsibility is that man cannot do wrong by choice of his own. This will create a lot of problems in the structure, especially in the young adults, who are hoping to become fathers and mothers and it is not there. Partners who suddenly have a husband but not a man. Men who have a wife, but just a cook in the kitchen and a cleaner. And if you are lucky you already have 1 child. This is going to become a huge problem more than the Corona for the human race. When we need to run into this trap, out of this trap, (1:22). and get it sorted as soon as possible.

Q: the zinc plates available to us, especially here in Kenya is from the ?? Zn battery, when we cut that in 3 pieces, (do) we have enough, is that long enough to make it into a spiral?

K- You can, we have to live with what you have. ..

Q: How do I make a spiral? (1:24).

K- Just twist it as much as you can. Q: many times, not just once?

K- Just twist it.

Q: Can we use rainwater?

K- You can use anything.

Q: Can you explain black Nitrogen into Phosphorus?

K- What ..

Q: If we use a battery for the 3rd Cup , the negative should be connected to the Nano wires, is this correct?

K- Yes, always do.

Q: with Cup 3 do we make plasma water and use that?

K- test it, you never tested it, see what you get first.

Q: Do we continue with the prevention protocol of Cup 1 and 2?

K- Yes you cannot stop.

Q: Any hints for the coating process for the Cup 3 Zn? (1:26). only chemical pure NaOH?

K- It doesn't matter how .. pure NaOH, yeah ..

Whatever you choose, whatever you are comfortable with, as long as you create a light coating.

R- Would a fire coating work on that?

K- It depends how good you are at it. What do you want to set on fire ..

R- ... people can report their progress

Q: Can we use the Zn where it was coated, in the Cup 1 for example?

K- I don't know, did you Nano coat it, or was it just because it changed color, you thought it is coated?

Q: How far apart should the 3 Cups be?

K- It depends, how far apart is your head from your heart?

Q: With the Cups can you reverse the infertility?

K- The infertility at the moment is done through a different process. We ?? check. ?? have any of you who were hit by Corona have had that problem, and can be open enough to tell us. .. (1:28).

Q: .. I have the Man's Cup .. 3 months, I feel something has changed inside me. It's like the decisions are made by my part of the soul, kind of with the physical part ??

K- I don't know .

R- they felt something changed inside them how decisions are made by the soul ?

K- Yes we have had this report with many people. Partners see the change, understand and ... people who observe you, they see the change. (1:30).

Q: recently scientists by simulation of solar system have determined that a 9th planet has to be outside the SS for it to be stable, do you agree with that discovery?

K- I put a pass on that.

Q: This last Cup must be separated some distance from the Cup of Man

K- We just answered that one.

Q: Do only humans reproduce this way, or do other beings in the U multiply by division?

K- Enter your soul in the dimension and you'll answer your question . (1:32).

Q: What do we do with Corona cancer patients with red spots or wounds, how can we help them?

K- The process is in the Protocol which has been released. You need to .. the Corona, ... has created a calcification, usually in a twin set. When you put a Gans 1 and 2 mixture. because it has a soul and whatever, you bring the new fields in, but this has become solid .. that's why you see that wound, the redness you see, like putting a salt on a wound. It has created a Ca in between the layers of the skin, and this Ca is literally by moving damaging the cells around it, so what you see is the redness. (1:34). So your main problem is this Ca, which has become a grain of salt in between the 3 layers of the skin. Usually it is, to be correct, in the middle layer, so you see the redness on the top. What you need to do is to open this, this needs to be opened. To be taken out of the matter state. And for that reason you need to have Cup 1 plus Cup 2, if you want to add Cup of the Soul, Soul of Physicality, and Mg. You can add it, as ... into a cream, and allow it to

be over the wound. This will open up the Ca, back to energy, and you'll have a few days you see the redness, because the wound is already there, but you have taken the seed of the salt out of the layers of the skin. The best thing is to use a cream, natural cream to keep it there, normal cream. But the secret to it is the Mg. But you have lymph system, you need to use Cup 1, because skin is part of your emotion, part of the brain. You need to have Cup 2 because this effect of the muscles underneath (the skin), (1:36). have the direct effect on its creation, and at the same time you handle it through the soul with both the Cups. So you need to add the Mg to open it up, and the redness, it takes 2 or 3 days and it will go away, and you will not have the cancer cells afterwards.

This is how you handle it.

We don't recommend using oil on the skin because it traps it in ..

just on the redness part you open it up. You see the change within the first 24 hours .. we have many photos .. the faster you get rid of the red spots, the less possibility you'll have cancer in the future. ?/ end of the cycle (1:38). 28 days then you'll have a bigger problem in the second cycle ..

plays a video KF products .. (1:43: 40)

K- .. we have to understand that new changes will bring a lot of positive moves. (1:44). I am sure we will find solutions for these problems .. But we have to head for the space T as fast as possible. That by achieving space travel through the soul or by the dimension of physicality, man in time will find a new dimension that he can survive. Mankind has to find peace. close the door to animosities, otherwise he will doom himself to non-existence.

It's very hard for people to put their past aside and see the bright future.

.. I voice my opinion.. there is a huge problem with our operation in Iran, and the Iranian officials in the Ministry of Health. As we have received talks of, they want to take major shareholding in KF , in Iran to control, now the T has proven to be correct. Or we be threatened, or ransom has been requested. KF under no circumstances will relent to these kind of pressures. We stay loyal to the Iranian government and to the Iranian nation, and any pressure by any minister, be it Minister of the Health, people, their front lines, (1:46). or as their cronies, are ?? KF is an international organization, not an Iranian dominated position by those in the Ministry of Health who have kept the papers away from signing, until they get a share in the Foundation. This is the responsibility of the Iranian leadership to see through and correct very rapidly. People are dying in and around Iran and outside due to a ransom we have received, or an attempt to take ransom from us. KF has never paid, will never pay ransom. It is the responsibility of Ayatollah K to see it through, to clarify it. We only deal with the .. and the Defense University for the spread and development and acknowledgement of the T. We will release the name of those in the government who have pressurized or tried to pressurize, in partnership with KF of Iran, that they will sign the paper ..

.. and if this carries on we'll go open international with their name.

(1:48).

.. with the White House, Trump has directly refused to negotiate with MT Keshe. ?? my respond is very simple you will not be in that office much longer sir. I always ??? We back Pamela Harris as the Vice President of the US, to be the first black woman as president of US. (1:50). We hope the presidential candidates will choose her as we put a lot of trust in her. Any other offer as mixed female is welcome by the KF. We prepare the lady as VP to become the president to be Miss Harris, and if accepted by the nomination we back . We deal directly with government

(1:52).

(1:58).

Any other question? (2:00).

Q:

(2:06).

cut ...

(2:08).

(2:10).

(2:14). Any other questions?

Q: what happens by connecting Zn Nano and Cu Nano in a single Cup?

K- Advised not to do. Not to do. .. This is the only way we can get you safe home.

R- safe home??

K- Our home and our target is reaching the soul of the Creator. There is one thing you'll understand as we go through, is that life becomes eternal. There is no more, "fountain of Youth." It's a fountain of life. Physical age can be changed in the snap of a finger, but what will be its purpose. If I would have walked the earth in the physical dimension, you would have seen, (2:16). shriveled skins ?? on the ground as the age is beyond the comprehension of the man. Mankind can change itself and physicality to a dimension of the physical appearance, so what you have been looking for, for eternal life, eternal youth, is in the hand of the man. But age brings maturity, not the look. Try to understand what is on the table, and try to understand how everything can be changed in a very simple way. Those of you who make these Cups and thinking you'll cheat time, you'll find you see nothing in the Cup. As you have cheated yourself out of it. Those of you who make these Cups to serve, you'll find out you achieve more than you bargained for. So just understand, just understand that is all.

Any other question?

Q: What do .. Bill and Melinda Gates have in the light of the Creator?

(2:18). K-

We don't have much to say to these people.

R- .. what do all kind of expressions that we humans consider evil .. what place does that have in the big picture... why do we need this. why does the creation need this?

K- What do you mean?

R- we have the light of the love of the Creator .. well in that sense there is no darkness... what's the point of having darkness, is it just to show the light? (2:20). to show the accent for it?

K- You know I was thinking about this last night. and the night before. Driving late in the forests and streets and , we don't see anything. we need the full beam to see the road. And animals just walk around and see everything. I switched the light off. I don't see much.. it brought me a beautifully understanding. who is really blind and who is in darkness ...

Human race has misunderstood its own weakness, who is really living in the dark, is it our soul or physicality? Or have we chosen the STP to dictate to us what to do , to expect ..
(2:22).

Any other question

(2:24). Q: In 254 KSW you talked about ?? N coating, free plasma, skin of the sheep is outside the physicality, and then inside out is the STM, when the s encapsulates the physicality, it can travel the span of the universe. .. why this analogy, are you trying to say if I make my skin inside out, is the soul encapsulating physicality, is that ??

K- No. I don't explain anything if you haven't dealt with a sheepskin the way I have, I look at it a different way. When you look at it, the wool on the skin of the sheep, it looks like the rays of the Sun, each one radiates outward. That's what it meant. One of my businesses was wool of sheep, and when you look at it, it brings a lot of understanding of the reality. (2:26). .. when it's a skin it's all one, you don't see anything, when you turn it the other way, you see a lot of rays. And at the same time, do the fields come from inside out, and then become one. Because you can't say which end, which part of the position of the skin, that's what it meant. I know you have been asking this question, what is the sheep .. that's all it is, you look at each hair as one ray. then you understand.

Q: So when our soul encapsulates our physicality, it means, it goes, it has to open from some place. Where does it open?

K- From the soul. You have to understand a simple thing, there is no difference between the STM and STP of the man, and the physicality. It is only strength dependent, it's the same ray. That's your problem. It's like having a car with a full tank at the beginning of leaving a city, and you drive to another town, and you check the oil it's half full and check the other one, and it's totally full, sorry empty. At that end, at the time of the transition when you started with a full tank, until you stop with an empty tank, that's the point where you actually manifest yourself in the physical dimension. The rest of it is just a ray going through. (2:28). And if you can understand this, then you can understand more about the creation. It hasn't changed the car, it's just the energy in the tank has changed. You have less fuel.

Q: .. ?? third eye. ..

K- I don't know these things, I don't know the Third Eye. that's your.

Q: So press on your forehead and press on the back of the neck.

K- That's your dimension, not mine. How you create it.

Q: So what are the signs that you know you are on that direction?

K- You will know it will come to you. You will see it, this is a question a lot of KS ask. How do I know, I haven't seen it, I cannot believe, it's not mine. Where is my soul, until I don't see something I don't believe in it. So that is your problem, That shows 2 things, 1 is the lack of understanding of totality, secondly, trusting one self's existence. And then if you do the 2 you walk. And this is exactly .. where the clergy has used the man to their benefit. As I said, what is the difference between the office worker and the clergy? One works in the office, and the other one works on the brain. (2:30). In a way, your brain, your emotion is their office.

Any other question?

Q: Could I go back to your drawing, you showed the Zn and Cu Cup, you said something Zn 65% and Cu 60.

K- No, it's the atomic mass, or weight or what we call plasma field strength of it. We use scientific terms because we say Cu is 60, to 63, Zn is 63 to 67 or 68. And then for energy mass, for the lighter ones you take up to 50%, for heavier ones up to 20%.

Q: .. if I can't produce any Gans ? ..

K- Can we see what you get and talk next week about it. You will understand. (2:32).

You got to realize, don't look into the Cup, look what the Cup can do, and secondly the interaction of the fields of the Cup which counts with its atmospheric condition, We have chosen 3 parallel plates but different positioning. And that positioning will create a lot of new positioning, especially how big a distance between the plates or each element. how ?? is the liquid. There is a reason I taught this, and in the future as you test and you come you come up with the answers, or what you see, then we teach you.

This is the first time we are sending you away to create fields, but you have to understand what those fields are, humble enough you receive, arrogant enough you give.

Any other question.

Q: Will the Cup 3 help those who are suffering from .. behavioral issues as you described as the third phase?

K- you let me know. (2:34).

R- I thought that was part of why you were releasing Cup 3?

K- Yes, but we'll see. You see, you lot want everything chewed swallowed and just get the energy. Now chew a little and swallow and see what you get from it.

Q: Do we also collect AA if produced by Cup of Soul (CL)?

K- If you like, why not.

Q: Should we use Epsom salt to get more Mg.

K- All that depends on you.

Q: Does Cup 3 create reversal of Corona.

K- You'll see. Why do you look for reversal, why don't you look for inclusion. You know you are all like a frightened chickens, you are looking for how to survive. I have given you the secret of life. When you have the secret of life, wherever you are, you know how to. When you don't every virus is deadly and dangerous. (2:36).

Any other question. I think today's teaching, for those who understood, will bring you a massive change. And those of you who are still in entanglement of life, you will see not much with it.

Q: Will the reproduction of animals be effected the way you spoke of before, and plants?

K- yes, yes, 100%.

Q: So we can expect to see that in the coming weeks and months?

K- Yes, shortage of harvest, if it goes that way, and increase and decrease in certain ??

It's inevitable, there are certain things which come with this, we cannot change it. Are we ?? done, we are nearly 2. 5hours.

R- you need to get some rest. (2:38).

K- No we are okay, it's just I think people are snookered with a lot of things and we have to concentrate on what is ahead of us, and what is to come. The EU will be shown on the 2nd of August, in one form or another. if we can do it, it is our target. As the Corona doesn't allow a lot of people to travel around the world our target is to show the EU if our team is ready to show it. .. we will hope to have the Iranian ambassador present in this presentation ... and hopefully we'll invite the American ambassador to be present. We try to use the presentation of the 2 units, (2:40). will bring with it, the position for governments to understand the change. and give us a chance to bring nations together, our debate is how fast we can ... at the same time transfer knowledge to other nations .. We see big problems with nations getting hit back again with a second round. Will create another massive unemployment.

if the old knowledge could have handled Corona, we should not be in this position as we are. As we introduce new T, we should be able to guide and to bring the process into close.

the medical mafia in Iran has blocked it.

(2:42). this is the whole process to change the greed of the man ..

I never ask for what I cannot have, because I access the whole thing .

why am I using the Cups. what am I prepared to give to elevate more. What we will as changed will be very radical ..

guide it that we don't make the mistake of the past.

Man has to have to right to new T, (2:44). without working for it, without sacrificing his youth and life for it. This will take a lot time to understand, this will create a lot of mayhem. But we see 50 to 60 million Americans are home with no jobs. The nation still runs, except one guy, Blondie in the office, he doesn't know where to go, like a headless chicken. The rest of the people are sitting at home. Why don't we see riots and breaking into shops, nowhere in the world except in the US. Because the true animals have not tamed yet. And in that essence what does this T can bring, bring forward? No need for light, heating, no need for anything , because you can literally supply the whole thing out of a bucket.

The whole process . now with the introduction of these new Cups. if you all understand this and if you all follow it, the way it has to work, none of you need to be feed. I tell you 99% of you will not see it. None of you will ever age. (2:46). But you have to know how to trigger it, and that is the problem. Try to understand what the Cup does, then what is in the Cup. .. Those who say, why doesn't the Cup do this or that .. please walk away from the KF, please switch the teaching off and never come back. But if you go there to see

what it gives you in the essence of creation, you got ?? soul, stay around, because it means you are ready to elevate. there to understand, it's not pen and pencil anymore.

Another question or shall we call it a day.

K- Hi Jalal have you managed to help the people?

Q: This is why I ask (2:48). at least give the person who wants to get help

K- you shocked someone.

Q: You know in Sweden everything is private, you cannot enter their private life. I called the woman in the morning, she said she had no idea what I am talking about.

..

K- Does she have Corona or not?

Q: .. ??? (2:50). she has little signs of it, it's not critical..

K- What is the position of Corona in Sweden?

Q: .. they do not care about Corona, they do not act as there is a Corona. only the government gives them the choice to act as they like. only 1.5 meter distance. .. from numbers... there are a lot of old people who have died .in that 6 months, there are really a lot of them. They kept them in that house and didn't have any care to clean everything. .. every one who is ill will stay there, he will not go to the hospital, (2:52). he will stay there (in nursing home), because they know he will die.

K- In the old people's home you mean?

Q; yes..

K- We had a report up to 700 people a day. This is a huge. .. the way the government is seeing ...

Q: People who come from other countries .. will suffer a lot from that.

Q: Azar .. I am sorry for what happened.

K- This request came form Iranian support team

Q:

(2:54).

K- For those of you who are setting up these channels of assistance, you go astray .. waste time... but as the request comes we respond ..

the total number of groups have exceeded 100,000 .. and we don't make a difference between them. ..

we have 66 volunteers across Iran .

(2:56).

.. We do not look at borders .. at the moment 5,000 people are getting help ..

If in other countries you do this, make sure you do it properly, we don't just put it under the carpet , takes a lot of energy. .. (2:58).

If we could set up in other countries like in Iran, in Brazil

if we get this through in Iran .. change of ministers in health, and president ...

If we (3:00).

We need to get . we see in Brazil started with small interviews .

Americans are scared of going out, because of KF, and people have listened to the thieves of Baghdad in Belgium, the king and his cronies ...

Just don't waste time for team in Iran ..

Any other questions? (3:02).

K- Did you manage to get through to the people at the radio station.
there is a big problem in CA with internet. it was difficult to get in touch with Armand .

Q; .. I have been having trouble trying ... (3:04). to convince other people. Is there a way you can .. how did you convince people about plasma. ??

K- You see, let me explain something to you very easy. Till 2012, we had an interview with a station this week and we start opening people's eyes to it. Until 2012 KF was well covered by .. media, magazines, articles were appearing about the KF on a regular basis. We were gathering momentum is a very good way. From summer of 2012 when the king of Belgium wanted the T, we wouldn't give it to him, everything was taken off, even Wikipedia of the KF, has been deleted. What their idea was, we've been told, we'll wipe you off the Internet, you will not exist. That's the dream of a criminal king of Belgium,. .

(3:10).

(3:12).

(3:14). Q: .. many people loosing jobs all around the world, sitting down with many skills. I would ... that the KF has already offered jobs if the government accepts. ..

K- No, no, no, no, ... very wrong. . what you got to do, what you got to say, the new technology will bring new jobs, because the

nations will go for new ways. (3:16). The problem is a lot of people have lost their jobs, shopkeepers we have no option, because the old has failed.

We are there to deliver more and more technologies.

Any other question?

Q: .. if we can bring the same situation in US and Europe. there is a huge difference between the mentality of

K- It's back you have no backing. .. the situation in Iran when it is repeated has to be backed by the governments. When the situation in Iran is repeated it has to be backed by the governments, with the support of the KF.

who you talk to doesn't count, we don't call and talk about who you know, invited ... The whole thing is that we look at the breakthrough through the governments that it becomes a national job. We are with governments they are ready to go, they are just waiting for this report, to be established and published that they can have. In that process we need to establish a link between the governments, individuals don't count. KS that understand the T are there to go on the national TV and radio, and whatever and teach, and don't

become, what I call the minute that got exposure they think they are god. That's all that needs to be done. (3:20). For 3 weeks I have been battling with a bunch of thugs in Iran's Health Ministry. And it has to be sorted. We hope that Ayatollah has managed to curb these, what I call terrorists, Mafias in the Ministry of Health. .. individual responsible for these, because it's their own hospitals which are using it. Deny access to proven technology by the Iranian government is a criminal offense. The thing is, if it was not working why do they want 50% of the shares, because they know it is working. They have offered \$10.5 million bribe to our people. You don't offer a bribe if you don't have it in your hand. We'll see how it will go, then it will become a national teaching ...

If I could release communications you would see how correct I am. I would like to send a message to someone very direct ... (3:22). They see the new technology as a danger into their life, the message comes from ??dear Rothschild's, my Foundation does not need to meet your Grand Master. In your message, I have your phone number brother, so you could easily communicate with the Grand Master. KF speaks to the Rothschild's family and Grand Master on one basis, this is the third time you tried to establish link with us it, in a simple way, it's there, Rothschild. We accept talking with you on the grounds that the present position you have taken worldwide has to cease. And we meet on the ground that works for the benefit of humanity, not on thugery and stealing from humanity. and if you are a spokesman for your family, or empire of your family, and you live in California, contact me direct, we can always talk face to face with your masters. And let's see how we can sort out this mess you and your family has created. Thank you very much. And let's see if we can talk on a direct basis with your Grand Master, (3:24). and see how things will go. Unless a fake name and telephone number, and everything else has been used, which is very unusual for people to play these games.

I would like to read you the text sent to us. It's very interesting I think. This is ?? from Phil. While many of our operations require anonymity to protect members, it is best that we provide understanding between us and the people we are charged with protecting. And they are recruiting members. And it is interesting, as I said to you, that we are creating problems for those who think they can protect humanity. And in his communication ?? our team asked him, what level are you in this organization. His answer is, an active member of the first order of the organization. We are an elite and selected organization of people, (3:26). from all walks of life, including politicians, artists, singers, etc. Our organization unites background people to live a prosperous life by bringing people together, and working for, what they call, the path of right mortality, the desire or ?? deser. And this time, as the contact is so direct by the Rothschild's family, we answer you direct. The only person who decides the communication with the KF is speaking, then the KF management team will talk to you. You can reach me directly, instead of going through the back doors and Mr. Rothschild's might speak to us, we talk because we can curb everything your descendants have built on, in a stroke of a pen. And if you ask your, what you call, your Grand Masters, they know how grand I am in serving it out.

Thank you very much for today, and we have all the children, and all the world leaders in one ?? to celebrate the freedom of man from the possession of physicality.

Thank you very much Rick. (3:28).

Caroline no longer with the KF, satanic cult attack on KF

KEY-PHRASES:

SUMMARY:

ENGLISH TRANSCRIPTION:

Caroline and Satanic Cult "Seven Sisters":

(:06). .. KF is a place of knowledge, education, and many other things. Over the past more or less 7 years, has brought us from every corner of this T, space, medical, energy, development, and launch of new products. As you remember some 3 - 4 years ago plus, through the people who were abusing KF, "sisters," we battled with Sterling, to stop pedophiles using and accessing members of the KF. The reason I bring this one up is that we have been hit by another system again. This has been brought in deliberately to damage especially the ladies of the KF, that they destroy the KF structure from the family side. Some of you might have received, (and allow it to be shared please), .. something like this, ... (:08). some of you must have, or your wives have received such a text email.

It says, " .. the times are difficult right now .. I am doing a sister check-in. Showing support for one another .. I need SEVEN women to post, not share, this message to show you are always there if someone needs to talk. I'm pretty sure I know who will. Say done on my post! Love all of my Sisters."

This "sisters" is a group of satanic and they have used and brought a lot of damage to KF. And now they are moving into the KF supporters and they are families. They bring women into prostitution and the rest of it. Satanic rituals, lights and stones and the rest of it. Be careful and be aware! Make sure if you receive such a thing, you delete it, because it most probably comes with a Trojan, that it will sit on your communications to find out your weaknesses, and your family, and then they ruin your family. They are, they call themselves sisters, there is no sisterhood, these are a bunch of American, Philipinos, who use this T to siphon your bank accounts, your life. And they are using connections of the KF, because they have infiltrated right at the top of the KF. And this "sister" business we heard at the end of the Dubai conference. And we were watching it, it disappeared somewhere, and as you know Carolina De Roosa has left the KF totally, and been divorced for misconduct. (:10). And to this effect we are warning all of you. and if it comes under any name, any cover, delete it, make sure it is not there. It's this group, which they call themselves sisters and it says, "just post," which means they intrude into your computer system. You receive it worldwide, inform, if you have sent it to somebody else, you thought it was coming from somebody right at the top of KF. This is a setup for your divorce, bank account, and ?? and the rest of it. This is a highly organized satanic organization. Do not worry if your wives end up with everything, could not imagine your wives could do. There is no sisterhood. Sisterhood of damage and destruction. They are using KF, highest level people that they think it is coming through. We advise you strongly to keep away from this "Seven Sisters." Seven sister, is what we know as a pyramid, built up, they take all the KF with them. They are structured that way. And those who bring more people elevate right to the top, and as you know who is doing it, under the name of the KF, has reached the top of the pinnacle and they went to damage last week, effectively, the KF we stopped the procedure, we blocked as much as we could. We informed the KF different programs to watch, and if it comes from Carolina, make sure this is a death sentence for your life, marriage, and everything else which goes with it. These are worse than Sterling, you have nothing left, children on the street, marriages broken. (:12). There is no sisterhood. They are only after one thing, your lives to be destroyed and call themselves sisters.

It's the responsibility of me, as the founder of the KF, and I have informed the head of the KF, about this. We have gone out as much as we could to protect the KF KS worldwide, of this atrocity. You get it, delete it, block it, make sure there is nothing left on your computer, and anybody you brought a sister, you brought a sister of misery into their lives. I lived with it for 4 years. It came to an end with the divorce of Carolina, she accepted outright, without discussion last Monday. This group destroys your life. Misconduct in every shape or form. It is my responsibility as I teach you about the good things, as we saw with the Sterling, teach you about the bad things too. I heard this sister business, when I could not attend the Dubai conference, and she landed in my car, and calling people sisters. They talk about the stones, gems, and everything else. But unfortunately, maybe fortunately for the KF, we have managed to uproot it from the KF. Caroline De Roosa is not my wife anymore, and has been divorced due to gross misconduct, and is to do with this organization, and other things is set around this in a pattern of life. We knew the way they set it up they were going to merge, this is the emergence of worse than another Sterling structure. It is important for all of us to

understand this, because to protect the KF and humanity is my duty. (:14). It's why they came in, and infiltrated right at the top. We watched them disappear, while actually they learned to hide in different names and everything else. This is one of the reasons why Jackie as head of the education KF immediately after Rome conference was dismissed, due to the same process, the same organization, the same things. Protect you families, wives, daughter, and anybody who calls themselves sisters. Sisters do not wreck lives. On the other this is my job, I have fulfilled my job to inform you, it's your job to go across Internet and fulfill this. Do not pass on to 7, this is the worse pyramid ever made, into your bank account, into your lives, and they put your wife on the street for anything they want. Talk about love, stones, and light. Be very careful, extremely careful. Seven Sisters of misery.

Release of Report:

On the other hand KF due to its progressive developments, and as we said we will publish the report on KF today. It will not be released on KF website as most of the operators of the FB, Youtube, and the others, anything to do with Corona, will delete, or do this, or something else to it. The report which is in the form of Plasma Times Special Edition, will be released sometime today on a specific link, which the webmaster will let you have. You can read it. It is still getting added on. (:16). It's a live report, we add to as it is increased, even since it is been released, 2 or 3 more new conditions has been seen.

New Mutations of Corona:

One of the worse ones we see, especially with women, is what we call, bladder infection and bleeding. We reported this, it is written in the report, but we have seen drastic cases of it in the past 24 - 48 hours. Be aware of it, you feel, even with men, you want to go to toilet, you have a burning feeling, and you see blood. This is important for all of you to protect yourself. We have seen the womb infection increasing rapidly. We have seen men especially complaining of the hip muscle tissues, and not being able to walk. These all need the Gans protocol which is coming into operation and released today. We see massive increase in the brain stroke, that what we call Corona in the brain, can lead to other problems, as we say, cancer. We still keeping an eye. We have 3 cases around the world we are watching. One of the most important points we have seen and will be added to the KF protocols in the coming days, as we can add to, is men infertility, they have no libido, the have no interest for sex, same with the women, then it starts creating a lot of problem. We have found a solution for it, the initial test tells us we could be 100% correct. We have had a recovery within 12 hours, and both the husband and wife are very happy with what they received back. We are waiting for the test results on 100%, (:18). 100% death rate of the sperm count in men. Tests are in progress, we report accordingly through the KF for this reason. Those of you who have been hit by this Corona, lack of interest in the partners, go to the KF website in the next 48 hours, now we have the results, we can publish it, on how to overcome it, and get your family back together again. It is part of our work, this is part of what the KF stands for. As you know KF is developing rapidly into the international structure of the Corona. What we are interested in, is to know if the people who have lost 100% of the sperm, is it due to injection, or is it

due to Corona. We are asking a number of our teams around the world to do random sperm tests, and those who have been hit in certain states, that populations have been injected. To see if injection is the cause of 100% death (of sperms) or is it the Corona. With this we'll release more information as it comes.

Ayatollah of Iran Supports Release of Technology:

On the same basis, as you know we have received solid support from his Eminence Ayatollah K of Iran, in developing this T for humanity. In a protocol which is to be released by the KF internationally. ..

(:22). I have offered to return to Iran for the development of the space program ..

(:24).

SOUL TEACHING :

What we try to do is to extend the understanding of the knowledge, extend the understanding of the systems, understand the extent of the damages that can be done by this system. We have 2 choices, as I said before, we go through the system of flight or we go through the system of what we call, the soul. As those of you who were present in the past couple of days teaching, the Book of Soul, has started to be written. The first chapters sections of it have been written on a joint soul basis, and this will bring new dimensions to humanity, starting from how to teach your children about the soul. In a way to let them to understand, and start the ethos of the work -- a life on the correct manner, where man shall not commit any crime. This part of the book has been written by the soul which has been with us for a long time, and has accepted ?? and place. And there is not anyone better than a woman who received a gift to write it. The process has started the first chapters are written, and in that process while we bring the new ethos. We write the new book, we teach the now way that the man does not to rely on education of what we call, math and physics, but never understand his own structure of life. On the completion of this book we bring about a new teaching, a new dimension, a new way that whatever knowledge is in the Universe, as much as it can be understood by the soul, and the dimension of the soul, can be shared. Knowledge to be transferred in essence to the STM, that in that process anyone can understand, any language, any ?/ to the correct conduct of the STM, at the point of receiving it.

In this process we will write the Protocol, (:28). the way man has to develop his children, from the time of birth, and even within the womb of the mother. Man to nourish to reach the ultimate goal of reaching the soul of the Creator. My work has a very clear understanding, in English we call it a soul, in English we call it a sun, the STM is the Sun of the man, it's where the life starts. Where the man shines, becomes one. I am sorry, I have a very bad cold for 2 - 3 weeks, and we try not to intrude with it, to find out exactly how it comes and what it is.

You got understand, if you are going to create a new race, we have to write a new book, a new way, a new understanding, a new comprehension of creation. And it needs a woman to be able to, through her own instinct, through her own understanding to write this part. The part of educating a soul, is the responsibility of man, and the point of inception, not 9 months or 10 years later. The understanding of the totality of the knowledge of the soul is key for man, (:30). to break into space. It's the key for man to be able to travel the span of the Universe, zero time, zero space. The understanding of the STM has to be the totality of the creation and the Creator. And as I said, the Sun and the Soul is the same. And if we put limitation on the ?? lives of a star, of a Sun, then we can put limitation on the life of the STM, which is a Sun itself. The difference between the Sun is the interaction with its environment, in the galaxy it creates moons and planets. The Sun of the man, the Soul of the man, in interaction with the environment of its fields, it creates the physicality of the man. There is no difference. If mankind understands this, mankind has evolved to the next step to understand the totality of the creation and the Creator.

In a way, if we can add to the fields of the Sun, in a different way the Sun will shine much brighter. So shall be when we add energy and fields to the STM, that it shines more and it breaks the barrier, (:32). to elevate the physicality. We show you both ways, with the creation of the dimension of the new soul, and the birth of the new child in the dimension of the new understanding, man and the Universe will learn to be able to live in both dimensions, as some races of the Creator have achieved, very elite. Most of the time they spend their time in a physical condition or in the dimension of the soul. Now we get opportunity to understand, to be able to live in both dimensions.

In so many ways, the new structure of the culture will change a lot of things, in the past we believed in unity of one God, one Creator, and to be alone. How come the man could love and have a partner, but the love of the Creator could not be shared. This will bring a change, the total understanding of the teaching. In time we'll go into more depth in understanding and the progress development of the soul, and understanding of the evolution in what was brought to man as a knowledge ??

In so many ways, mankind and the whole of humanity, and whole of the Universe and Unicose, moves to one level. As we try to create One Nation on this planet, we create One Race across the Unicose. Which means does not matter where you've been in the Universe, you are understood. There is no misunderstanding, and this was needed to stop any wars and conflicts, in the coming time, in the process of the creation of the new dimension. Mankind needs to evolve very rapidly, (:34). and we hope this evolving will be reached in a very short time. One of the keys for holding this back was the situation which I explained to you from the beginning, in this teaching. The most important key which was stopping the releasing of knowledge, for the protection of the man, has left the Foundation, and now the F is free to grow with love, with care, with kindness, and with sharing knowledge. Not using the knowledge to damage and harm, under the cover of a sisterhood. In so many ways, we unite, not only mankind, we unite the Soul of the Planet, and in the teaching of today you'll understand this very, very clearly. And then we unite the Unicose. This was the purpose and the Creator ?? could not find any place more

beautiful than planet Earth, to take home, to share, to lead to creation of new life, in the new cycle in the race of the Unicose.

In so many ways, we have to understand, in any case we need to understand, in any case we have no choice but to progress. We need to be at the realm of understanding and not power. We share with the truth, and the dimensions of sharing the totality of the knowledge. Those of you who are interested in physical travel because then there is a purpose for you to exist, we have as we told you, given you the space program. Where you can get on something and occupy your soul for a time being, (:36). Have a chat, have a view, on the rest of it, live in the dimension of the STM. For those who are physical, as the old song says, "let's get physical" we go back into understanding the totality of the combined system of flight and life. Not life in the dimension of the man, but life in the dimension of the Universe and Unicose.

In this process we extend the knowledge, we bring the knowledge to its ultimate goal. And In so many ways, we extend our love and kindness, and In so many ways, we extend our knowledge to humanity. The space program which is part of the Iranian national program now, as we have offered, with the close collaboration with Iran National Defense University, will bring into operation the totality of the physical flight. We gifted and developed this T in a way in 2008 in Iran, and now the totality will be gifted to the nation of man on this planet, as One Nation, One Planet, from the area of Iran, what we know the old Persia. We move from nationalism to singlism to totality of human race, and as the ?? grounds has always been the ?? of the promise. As all the religions of the world started with Mithraism and Zoroasterism, we end the same place. (:38). I have requested from the Iranian government to make all facilities for me to return and I have even requested where I want to live. We'll make human race to shine.

Most of you who were with me during the development phase of the gas reactors, which we did initially in the Insano, we will develop this T to its ultimate goal, and then we'll understand why we achieved 129 Tesla. Then we understand how we achieved that, and we use that for what we call, space travel. Many of the KS who were originally with the gas plasma T, you will return, and the scientists from the Iranian universities and the rest of the world are invited. In this process with the permission of the Iranian leadership, we invite from NASA, Russian and Chinese Space agency, and ?? what we ?? and what we announce CIRBU will establish in Iran within the next few weeks. Which is the combination of the Iran, India, China, US, Brazil space program. CIRBU will be launched in a massive way with the support and the knowledge of the Tehran and as One Nation OPOR, the development of the Star Formation for sustaining life will be extended, and in today's teaching, (:40). we'll extend on the understanding of the last week as we open the structure of what we call, Cup of Soul. Many of you know about the CS and the Iranian scientists of the Iranian team were very fast to develop it. And what did we see?

In a CS as we showed you last week, you all brought in a new dimension , a new understanding, a CM was taught much before that. And in that process what we saw in the CM was the delivery and the development of what we call, a structure, and

understanding of the totality and the science. What we need to do is to go more in depth about the Cup of Life (CL) and the Cup of Man (CM), and in understanding more in how we can utilize the original Cup, which was made and gifted to the Chinese nation as One Cup, One Life. (:42). In this process of teaching, many of you have made Cup of Life 1 and 2, which is the backbone of saving tens of thousands of lives in Iran, and now it has proven by one of the leading universities and medical hospitals in Iran to be correct.

This process was and is and will be officially released for use across Iran, and then be taken across the world, national governments. This process will not be easy, but delivering the Cup of Life was one of the cornerstones of stopping Corona, as we see in Iran. Now the same thing is happening across the planet, different nations are using it. The Chinese government has extensively, is using it, for what they call, the control of the Corona. We have offered the same to European and American government, and they are waiting for confirmation of the Iranian universities and hospitals for implication. Four million people in America are contaminated with Corona this week, and as we have announced many, many times that if it gets (figures) released by governments, are not real, much more. And we saw the Iranian president Ayatollah Rohanni of Iran in past days announced, Iran has in excess of 25 million, (:44). contaminated people with Corona, and will build up to 35 million in coming weeks. The reason for this announcement is very simple, at the cellular level, contamination is that, that's what we said, in Wuhan City, what is happening in China and in Iran. But what they are trying to control is the statistic on the number of tests done. Over a million Iranians have used the KF One Cup One Life and they never went to the hospital to become part of the statistic. For this reason we see, as we discussed with our team in Iran, the position of A Rohanni is very clear. Opening a new door, and with it the announcement of the discovery of the KF T, not only to return back, the nation back to itself, but be prepared for the extension of the new evolution. What this means, Iran is fully contaminated, half of the population carries Corona. Most probably the same as we announced with the Chinese, and the same as we have seen with other countries. A lot of Corona cases is covered under the heart attack, internal bleeding, and everything else. Because this way they can stop the ??

The teaching of today is divided, in 2 parts, around about 11:45 we'll stop teaching and a discussion starts among the KS. Around about 11 , 11:05, (:46). we come back in and we start the teaching about the whole structure of the Cup of Soul (CS). Why we taught you, and how, what we teach, what we explain in the first part becomes crucial for us in the second part. What we see is the next step in the damage limitation of the Corona. We have seen the shortage of electronics and hardware across western world, due to lack of shipment and production in China. As I said, the lack of products, is as many people have died in China. We know why, it doesn't matter what governments try to cover, we are at the edge of it. Many of you ordered the pads, .. have been waiting for the pads to arrive. We were supposed to receive the pads you ordered about the 7th of February. .. we received the last bunch last Friday, 6 months late. The company which produces for us, with number of 100 plus workers, had only 10 turn up for work. And in every means and shapes they are trying to cover their orders. We see the same things across other section in KF China. Therefore, China has been (hit) much harder then in public, as we said. We

see the lack of products. As the head of KF said, it's not just that, shops are not importing, because there are no customers. And at the same time, (:48). there are no much money.

(:50). I am pushing through rapidly. We have lost Spring and Summer seasons, most of the nations no one was there to plow the land or field. We see this as part of those who were sitting there October, November the shortages coming in, governments trying to stay in power .. we control nations through food.

IMF has been replaced, World Bank has been replaced by ?? and health protection. I see the same hand over of power when we corner you. ..

(:52).

Silently the British monarchy handed over to Vatican.

Nations to be handed over

When I walked through the shops, there will be a shortage of food.

.. For this reason I brought in CS. (:54). ... we bring to the teaching One Drop, One Life. which means mankind will be gradually moved out of the shackles of food, and energy control. We are leading the T into feeding nations. One Drop, One Life, which means you have enough ...

(:56) . For the first time we set out the structure of the Soul of the Planet.

which means you will use the energies available to feed the soul, or if need be through physicality. The new knowledge which will be released today will cover the totality of the structure. .. where mankind will start living independent of planet earth. independent of what they were planning to bring into operation.

that what is planned to enslave human race will

(:58).

(1:04).

.. For the first time you see an empty Cup. (1:06). Do you believe there is something in the Cup ..

You have to know the totality of the knowledge of the Cups. (1:08).

How, when they want to control, you feed yourself through the dimension of soul to the physicality. The process has to be understood fully, not half. Do not start deviation, like you did with the other Cups, cause mayhem. This we ask you to stick to strictly close.

Don't add to what you don't understand.

(1:10).

The knowledge of what you transfer by your emotion through the Cups .. We saw Alex do this some years ago.

(1:12).

Those of you who make the correct ..

where you can understand the totality without going anywhere ..

CS and Cup of Universe can allow you to learn languages in a rapid way. You carry emotion, and every emotion has a strength .. the way we set

Many of you walked away from Corona, and many of you will walk away from what is planned, and this is the only way that we can change. This is the only way mankind can put in hand the totality of the knowledge for himself, the planets, animal kingdom, the life we have shown above us on this planet. (1:14).

discussion lead by Rick.

please follow very closely what is going to taught, don't deviate ..

Are there any questions?

R- .. could you please talk about the creation of the soul? (1:16).

K- Creation of the soul is discussed and getting written in the book ..

this is the part which is getting written from the soul which is accepted as a woman, and in a very fine, step by step .. as I said before ...

(1:18).

you have been making Gans for over 10 years, how come the first time it's empty ..

we have to bring the teachings ahead by 2 years, because I saw the criminality written all over when I walked into the shops. and I went from one shop to another. (1:20). It's a big plan. If you listen to the President of Ghana's speech ..

(1:22). I am co-writing part of it, but most of my job has been taught in the past 2 years, and bless his soul, Sandor has collected most of it. .. the other part will be added . .

Q: Where can we get the physical book?

K- most probably have to be produced outside ..

(1:24).

Any other question?

John: AZ, give us another week to show what we have in AZ

K- KF AZ will be a blueprint for all the KF centers around the world .

(1:26).

J- The Gans of I know it contains a lot of isotopes, is that too strong for the human body?

K-

(1:28).

K- Stay there John, don't go away. you have done a lot of work over the years explain to us ...

J-

(1:30).

(1:32).

K- How did you set up the reactors.

J-

(1:34).

(1:36). K- You did some tests a couple of years ago, where in discussion where you understood the soul. because you came very near to it, because you saw the I as the energy of the soul.

J-

(1:38).

K- I think when it came to . the second part I have to move to another location ..

(1:40). real structure of the CM, CL, CS, CE and CU. and with we cut out a lot of problems for humanity to control .

we gave it to the governments for the past 14 days and they haven't done much.
you have to protect yourself and families .

(1:42).

Give me 15 minutes, we have to relocate .

(1:43). Videos (1:51).

Cycle of Creation video ... (2:09).

K- .. as part of the teaching we started last week.... (2:10). We go to a very in-depth understanding of the Cups. I draw it in a way that has to be done. . try to explain a lot of things. What will be interesting is how you follow. We started with Cup of Live, ..

Then Cup #2, Cu, N coated and non-N coated .

Then we taught you Cup of Soul. (2:12). with Zn .. Then we showed you the Cup of (Cu, N, Cu, flat)

What we always said, is we connect the 2 outside, and the inside ..

(2:14).

(2:16).

The 5th Cup, the MG field of this planet is based on Fe. So we need Fe.

(2:18).

These have to be stacked up exactly as it is .
(5th Cup) Cu, Fe (middle), and you have the Zn,
Notice how the plates are positioned like the backbone, spine ..

(2:20). you will not produce the same Gans .. colors will changed ..
according to the love of man for the love of his Creator ..
Gravity > Inertia > Physicality > Soul of Physicality > Soul of the Man. A replication
of the totality of the life of the man.

(2:22).

(2:26).

Use this knowledge to overcome disease,

(2:28).

(2:30).
Maybe we have entered to new dimension of knowledge for the mankind ..

Man has to do 2 things, transfer knowledge unconditional, without hesitation

(2:32).

(2:34).
K- .. Let's look at what was taught last week. We came to the Cup of the Soul.. .

(2:36).

(2:38).

(2::46).
In the future man will computerize this things

J- going back to Cup 5, it was N coated Zn, N Cu, and another N Cu or chicken wire N coated.

K- No, no, no,... Cu, Zn , and Fe, Fe sits in the center because on the MG field, (2:50).
of this planet, Fe is the M field ?? nominator. But the beauty of it, if you haven't
understood, in the last Cup, is ... if you notice in the last Cup, here, you have a
combination of the matter of matter state, and the combination of the liquid state, and the
.. gaseous state, all 3 together, it's the closest replication to the structure of the Soul of the
Planet.

Q; Would N coated chicken wire work?

K- No, you already have a Zn, chicken , Cu on the other side. You already have a Zn plate in there.

Q: When you talk about the drops, are you putting a drop of the material on your tongue?

K- Yes, you can do, but prefer you to do the Gans of it, the Water of it. But you have to understand what you are mixing, it's not you are going to get the food, it will touch your emotion. It will effect your emotion in respect to many things, in a positive way. Some of you will get high on it, because it is so much. You will be enlightened to the new dimension of the knowledge and technologies which is within the ?? bandwidth of the man's soul of understanding. And it walks you, in talking the truth. And in a way, putting yourself in a lot of problem. But this time good problems, solving a lot of things. (2:52). Man with this will enlighten to a new knowledge and T, for those who understand the totality. As I said, now you understand, what I said, in the other part, where many of you will claim you are everything, which you are not, and just because you received a little knowledge.

J- But last week you talked about using 20 to 40% CS in a mixture, are you now mixing these together?

K- Of course, why do you think I am teaching you this way John.

J- Do you have any idea what the mixture should be if the first one is 20 ..

K- Would you like me to come and ?? feed you ??

J- ??

K- The beauty of the man is his curiosity and adventure to understand new developing.

Any other question?

In the coming teachings I'll teach you have to use the soul to create flight. I'll teach you how to use the soul to create combination of freedom of the STM from dimension of physicality, and return back to physicality. This is part of the teaching which will come with the new life. To be able to be in both dimensions, but to be aware of both, not hidden from the other, (2:54). as you go to sleep and travel with the soul, and when you are in physicality you don't see the soul, and in the soul you don't see the physicality. The new process is to bring everything into order. This is not just for the humanity, we are teaching the Unicose. The soul of the knowledge is shared, not the word of.

Q: .. it was before the break, john asked you about using the iodine in the matter state, you said, you are using in the emotion level, and you can go to the soul level. And what you explained just now in the second picture, in the CS how to interact in the soul level because you are working with the fields. My question at that time was, which one you ..

K- we are giving you a drum call.

Q: ... which interaction gave you 62 and which interaction gave you 68, and I think you just ?? clear just now in the teaching.

K- This is a combination, that's what I said, if the KS understand the T, numbers and things don't ?? count, it's the essence you have to understand. (2:56).

Q: I think this teaching is a gift.

K- For those who understand, yes.

The process as you see in both pictures, comes in the new book in details. In a way, if you understand what we did in this part, should answer you what we developed and explained in book #8, where did the M fields come from?

Q: .. is Mr. Keshe there?

K- Yes, I am always there, call my name, think of my soul , I will be there.

Q: When we use the waters, (2:58). it should be cleaned from the salt, all the time?

K- There is very big question, How are you going to clean the Cup #1?

In the coming teachings, we'll teach you, now that we have to stage a new ?? play a little bit, is to show you how to transfer your soul. It's needed, because those of you who take to the depth of the Universe, needs assurance that the soul arrives at the point of destination, so you'll be able to make a copy of your soul, that when you arrives, you can understand both dimensions. That will be the breakthrough. That will be where for example, you sit in London and the uncle have a party in New York, you can be there at the same time to enjoy both. Replication of the STM will be the cornerstones of the travel of the future. You know when you go for ultrasound for the child testing in the womb of the mother, we put the ultrasound on with some gel and we see the heartbeat, and the leg and arm of the baby. Now within the structure of the understanding, you should be able to see your soul. See how little it is, or how big it is, it doesn't matter what it sits on, under pressure fields of ?? its Universe, or what we call ??? (3:00).

Any other question.

Azar: .. I am a little bit confused .. if you look at the second and third Cup you only connected the N coated one to the main connection, not the other one.

K- No, because the dimension of physicality, they are matter state.

A: So it doesn't have to be connected.. on Cup #5 we have Zn, Fe, Cu, and all of them are N coated, or just the Cu?

K- N coated.

Q: And Fe is the pure Fe ???

K- It doesn't matter your soul will decide.

A: because I have pure Fe, and galvanized Fe.

K- Never use galvanized .. (3:02).

(3:12).

you're a physical being what are you going to do with the time ..

a prerequisite to accept the World Peace Treaty through the STM not the pen of physicality. If you still have that intention and thing, then you'll have a big, big, .. problem, you'll not achieve it.

We in the next few minutes will release the front page of the report. (3:14). on Corona trials in Iran. The full text will be on websites ..

this paper as of now becomes the property of the national, international KF.

shows the page of KF Plasma Times, report ... (3:16). (3:17: 44) What we will see is thanks to many works of KF KS across Iran, leading scientists in Iran ... we have thanked all those who we know ... (3:18). This is a report by a nation, not an organization ...

as we move from nationalism to One Nation.
in a very short time you'll receive another report . space development .

(3:20). we have a strange situation with several governments, they will loose their position ..

This is a call for peace from the Ayatollah K of Iran to the American nation . I have been asked by the Iranian nation, (3:22). and the Iranian leadership to release this in public. This is a message from the Iranian government, not A Rohanni, but the Iranian leadership under the banner of the Ayatollah K. I asked it to be specifically signed ...

calling for peace, and releasing this T to every person in the world. ..

(3:24). Text of document on the screen .Rick reads

(3:28).

K- This is a delivery of the message from the Iranian leadership to the world leaders. In the coming days, the application of the KF T will become the cornerstones of the Iranian ?? apparatus. But we will see through this T and disease, virus, mankind will find a peace dividend, mankind will find solace. and maybe we create new conditions, not to live to work, but to work to live. to enjoy the new developments. I salute the world leaders who take the banner of peace, and hope the Iranian leadership will take this message in a direct way to every ambassador ..

(3:30).

Washington sits silently on it. the American leadership will have to respond now that this paper is released ...

(3:32).

Any other questions.

(3:34). Armand: Mr. Keshe .. the lines you connected, is it with N coated wire, we can connect without N coated?

K- You can connect . if you are connecting all the wires ?? using N coating then you don't have conversion. and you'll find out, sooner or later they'll all be N coated by the plasma way.

R- People are asking whether to use the Zn wire or Cu?

A: No, Cu

R- Cu, it's always Cu for the connections.

K- It's the first time we hear Armand after a long, long time. How are you keeping up?

A; Very good now., why we have to put a flat plate?

K- the flat plate has a reason, it creates a barrier field force, otherwise your system will run out of control.

A: Okay.

R- It would be like a reflector of the fields.?

K- No, it's the limitation of the fields. Don't forget when you put so many plates, and so many coils, these plates in the total structure will behave as a coil anyway. (3:36).

because each one becomes like 1 turn. It's like, you'll be using a composite material, not the single Cu, you have a material which has a Zn, Cu, and Fe in it. Some alloy, but an alloy in the plasmatic field. In each of these Cups, there are millions and millions of these combinations. In some of them you produce from H to Cu, to Zn, and in some of them you produce Plutonium and Uranium fields.

A: There is no Fe wire exists, it's all galvanized.

K- There is an Fe exists, what are you talking about, Armand. .. well buy a piece of Fe, don't buy a steel. Look for old nails, go around America, the ones which are about 200 years ago. Everywhere, there is Fe everywhere you can buy.

A; It doesn't have to be coiled, yes?

K- It's preferred to be coiled, yes, it has to be coiled, especially the earth has to be coiled, because that bring combination of fields, this is the reason we use coils.

A: Any suggestions we can clean up the galvanized mesh ..

K- You don't use galvanized.

A- I know, anyway to clean it up.

K- No, because when you use galvanized, there is still some other residue which goes inside, or interferes with the field strength of the Fe. (3:38).

K- It's the method which galvanization is done, actually they use ?? current, magnetic fields, so they create a condition of fields position.

A; thank you

K- Give my regards to Sara and family, thank you for being there.

Any other question... we are approaching the 4 hour limit.

I think today's teaching is a watershed in the world of science and T, in the world of medicine, in the world of application of fields of the Universe , and as I said, today is a wonderful day to be 20th of July, and this is a gift for someone very, very special in my life. As I said, birthday today. (3:40).

Q: the Cup 3 and 4, is that all Cu?

K- Cup #4 is total Cu, and they are all Cu, only Cup #2 carries the Zn.

Q: What is the idea behind physicality and Inertia? I'm still a little confused on this?

K- If you go back on teachings .. Inertia is the matter state MG fields, and G.. and M fields, what we call MaGrav, is attributable to the interaction of the fields of the elements with the center core of the planet. .. One is the surface interaction, and one is the center interaction.

(3:42). We need a Portuguese translator.

Rafael translates.

Q: the setup, the Cup 2 and 3, you have the Cup of Man there, or is the Cup 1 and 2, as you taught us?

K- Repeat .

Q: .. because the CM has a difference, you have the flat metals there, and .. so in this setup you put the flat or the coils, as you put in the drawings?

K- Yes, there is a reason we do it that way. And we keep it that way. (3:44).

Q: So this means I need to make a new Cup now, not use the ones that I made already, is that correct.?

K- .. Yes, if it is made with the same soul, why not.

Q: .. can he put it vertical or horizontal position?

K- We just already answered that one.

Q: If he can use the CM to put inside there, or to use the Cup 1 or 2? (3:46).

K- That's their own decision.

Spanish translator needed : (3:48).

Q: Does the Cup of Inertia goes n covered (coated)? (3:50).

K- Yes, of course, anything to do with magnetic and not a matter state.

Q: .. you explained how to N coat the nucleus of the Caroline Core, is this in any way joins to the concept of the C of the position of the C, through the Al..

K- What do you mean, I don't understand.

Q:

K- What do you mean?

Q: If he could create different interactions to the level of the nucleus? (3:52).

K- I don't understand or what the question is.

(3:54).

make it clear for next time

come back next week with,, and we'll respond ..

K- Thank you very much for today. As we have said, we have opened doors, your eyes to new dimensions and as I have been responsible, and am responsible for all the events within the KF, what happens, I advise KF KS internationally please, not to run into problems with what has been setup through Caroline. (3:56). I request you to block, total, because these people are ruthless and they will go for everything. I advise the Golden Age of Gans to block and delete. These are important because these groups, wherever they are on, they operate, they are ruthless and relentless on all of us. Our love stays the same, but protection of the KF KS and their families are paramount to us. This is what we'll see, through different ways, they'll come in, and they'll use different opportunities to destroy families, to destroy life's. Sweet talks saturated with poison. Sisterhood of death. It is important for me, as founder of the KF, as the way I [protect and teach, protect all of you when it happens within us. And I advise all the KS, please protect yourselves from the sweet talks, as what these sisters will bring as a poison to all of us, has brought to my family. On the other hand, I hope you enjoy the new knowledge released today, and I hope you understand the gravity of the science and T delivered today. For the first time we brought the STM, the emotion of the man, and the physicality of the man, as ?? process that never been done before, and can save every dimension, for the first time, whatever you decide, which ever, has both physicality, emotion, and the soul with it, (3:58). Never been disclosed, never been understood, in a simple way, you all understand, use it to create peace, knowledge, condition for understanding for humanity, and share these, especially the report from the Iranian leadership across the world, plus the report. Now the newspaper is published, is copyrighted KF which is all of us, released to share it, and let governments do it. We are not asking for any funding, we are not asking any money for research, we all have paid with our lives for this ?? There

is nothing higher than the price of a life of a man, the freedom of his soul. Thank you very much for today

Cup of Plants released,
Solution for Coronavirus Report read,
ISBN official scientific journal number,
Iran publishes Books - new technology is what was promised in Koran

KEY-PHRASES:

ISBN number making Plasma Times an official scientific journal, Iran attempts to bring highly influential people to takeover the KF -- will be headed by Knowledge Seekers who devote their lives to the new Knowledge and keep the ethos, Enhancement unit will be shown in Austria end of August/September, Mr. Keshe will return to Iran, Iran publishes Books censors say new technology is what was promised in Koran 20 references, Book 9 will be written by 3 people,
Warned officials we will start seeing the first cancers in less than 6 months, Mr. Keshe has 3 years study in metallurgy,

Questions about the 5 Cups,
Cycle of Creation video,
Before the umbilical cord we were free and fed by the energies in the womb of the mother, And then with the breast feeding we were made a sucker and taker of energy, STM was created at inception,
Man can live in the environment of the Universe without ever killing, One Drop One Life,
Teaching of Cup of Soul of the plants, breaking up Earth doesn't want to let the man go, Repeating the teaching of CS of plants,
Don't need to kill the plants man stands between 5 Cups and Cup of Soul of Plants and absorbs energy transferring, Have to learn how to receive, Need to ask permission from the plants to receive,

Knowledge is now complete we don't need Mr. Keshe planned to takeover the KF,

Humbleness,

Some people say when I teach I insult them -you insult your self by not understanding what was taught so you find my word as an excuse to cover your weakness, In Universe don't wait 9 months to see the creation of the soul happens instantaneous,
Q: Does the size of the containers matter for the realization of the 5 Cups?
K- Um .. no, but the further distance you are there is more possibility of producing more.

SUMMARY:

ENGLISH TRANSCRIPTION:

(:06).

KF has ISBN for KF Plasma Times journal .
without peer review.
Peer review by public..

(:08).

(:10).

We refused to accept people from outside into the structure, that they do anything, as they do not understand the knowledge. We have the same situation in Iran, they tried to bring highly influential people to head the KF, to break open in Iran. And I explained very clearly to a number of people, that the KF has to run by KS, we devote our lives to bring what we believe in. Then we don't need to bring somebody in from outside who has no understanding of the F, the work, and the ethos.

(:12).

EU Shown in Austria, Linz in August, (27th or First Thursday of Sept)

(:16).

AZ; 10 units in Far east on an Island; center in Linz; rest of applications in China and Iran; (:18). A 10 unit center in Canada; 10 unite center in Brasilia,
try to keep that the knowledge stays open across this planet.
knowledge can't be replicated. you'll see part of power generators, Plasma Enhancement for illnesses...
We'll celebrate the new T among ourselves ..

(:20). This way we keep to our promise, we are behind because of the situation in China.
.. Talk that a 10 unit center in Holland.

Sometime in September after opening, I will return to Iran.

We have undertaken to show the first flight by latest next March. (:22).

The book is being published in Iran by 11 AM.

(:26).

In Iran you have to have a permit to publish by the government.

This book has already been accepted by the government.

(:28).

The people who check the book, who know the Koran inside and out, and they have found a lot of parallels in this book and what has been promised in Koran. And they requested that, this page be added to the book.

Man will take knowledge of the space ...

They will complete the others, in coming months... he says there are 20 references in Koran to your work, and there is more.

The language is written, is irrelevant, the essence of the knowledge which is transferred is important. (:30).

correct to the, what we call, final time, final destination. As you know the Book #9 will be written by 3 people, as you are aware Ella, the head of the KF worldwide, except China, has started writing the first part. My teachings over the past year, and addition teachings will be added to this book, and the third which is the society, what we call, collective understanding of society of the human race, part of the soul of the book will be written by the second half of what we call, total Administration of the KF, Wang Lyn. Hopefully in the next 6 , 9 months will be released ..

and we'll close the book, to start the book of Universal knowledge ...

.. that started with the Book of Soul, what we call, the Cup of Soul, about 2 weeks ago.

Teaching:

Last week we showed you the Cup, in a way, the creation essence of the man. In the 2nd part of teaching today we'll unravel a new knowledge, , and put an end to killing animals and destroying vertical people. (:32). In a way we teach you a new knowledge, you received last week with the 5 Cups. ..

will complete the 3 essential lines

(:34).

(:44). Video of the Sepah, and KS spraying disinfecting the hospitals..

(:46).

If you are planning to come to Austria, please book your place. You can't just show up, you have to book. We have to keep room for scientists.

I would like to answer any question, second part we go into teaching.

Q: Which Gans's are they spraying in the hospital?

K- These are soft Gans CO2, second Cup. As it is effective with Corona. The results in the hospitals in Brazil has shown a massive drop in infections in the hospitals where ?? disinfectants by Gans has been done. So we have a track record from Brazil.

(:48).

(:50).

(:52).

(:54). Are there any questions.

Q: How to book for Austria?

K- On KF website ...

(:58). ..

now they are asking 72 hours before flights, Corona free tests from valid, credible laboratories. We know there no way to go to China, .. the rate of infection is so high. We have unraveled new Corona problems. We have seen the first brain and breast cancers of Corona. We have warned officials to be aware of what is happening. less than 6 months we start seeing the first cancers. We know they are Corona cancers, because they are like the ones we see in the arm, they are twins. It's very simple. We see two similar tumors on two side, maybe two breasts, two in the womb, two in the brain, ??? (1:00).

Any other question?

Q: Some KS keep spreading the news that for Covid-19 there is a cure called Hydroxy Chloriquine that the virus is mostly a hoax, and that president Trump is some kind of savior against the Deep State, these information's are very contradictory, can you share your thoughts on this ..?

K- We are counting the body bags in Iran. Let the Americans lie.

R- That pretty much answers that.

Q: Can I use low carbon steel, it's very hard to find pure iron?

K- You don't need pure iron, go around the block find the old rotten box with nails in it. I don't understand why people are doing this. ...

Why the head of the KF is not in the panelist. (1:02).

Just use .. I have seen people buying 99% pure Fe and the rest of it. Ah .. just walk on the street you'll find a nail. If it is rusted it's already N coated.

R- So should it have a red rusty coating, or a black ?

K- It doesn't make any difference on it. It depends on the carbon content, and the firing and the heat.

R- So it would be good to use the fire process on this?

K- If you can reach the temperature of pre-melting, yes, but it won't be easy for a lot of people.

R- Can one use caustic in this?

K- Yes, you can do, the secret in higher order metals is to add K to increase the temperature. This is what I have done for years. When it comes to gold and silver, you want to use N coating using caustic you just add a slight amount of K, which increases the heat, but because it is part of the salt it gives you a very ??of K salt in a way, if you understand how it works, it gives you a very high temperature, and a perfect N coating. Put it this way, I have done it for years, it must be good, for higher metals you put a bit of caustic, bit of (1:04). metal nail .. low caustic on top of it, use a very high temperature boiling water. I have N coated gold, and every other metal we have.

(1:08). I have 3 years in metallurgy.

(1:10).

(1:12). K- you can wash the Gans's in any shape or form you like.

R- In the One Drop process you don't wash the Gans's, is that correct, it's a straight one drop from the solution?

In a way, but you have to understand how to do it. .. How do you wash energy, have you asked yourself that question.

Next question.

K- Let me explain. the Cup of Soul you have created in that Cup .. we saw it done by Iranian scientists, a beautiful cup Persian tea cup, should have given you a sign, about what I was talking about, it's your emotion, which will carry in, not what is in the Cup, you just take it, and that becomes part of it. As we are learning the EU and as you know, one of the most peaceful women I know, and her life and style is to create peace through the T is the head of the KF. (1:14). And yesterday, I made 2 Cups, 2 systems, 2 jars of a specific combination, and I asked her to hold one in the back of the heart, and one in the front of the heart, to gather the essence of peace through the physicality of the man, the imprint, and then one to the soul, on the head, to transfer the wish of peace, and peacefulness in creating peace for humanity. And those who receive these, what we call Plasma Units, you already receive the soul, and the wish of peace by the head of the F. The same will be done with the Chinese part, Wang Lyn, 2 women, exactly the same in their wish for humanity. And so you will receive. . directly where it comes from the F. We carry the soul of the peace, we carry the essence of the peace, and in all the systems which will be manufactured by the KF worldwide, will carry that ethos of the soul, by 2 women. You'll learn very soon, very quick we give elevation to the soul of women in this message, because they love unconditionally, and they give unconditionally to the humanity, and the humanity belong their child. In that process we change the course. (1:16). We have to understand the totality of the knowledge, not fragmented the way we want to. We have the Cup of Soul, ?? cup underneath, it's to show you can't control it, you don't collect anything. But mankind is waiting for something, so we gave you the Cup. In essence what is in the middle of the Cup, is the essence of the totality of the STM. You have created it, with what intention you made the Cup. Many of you, make the units, and against the wall, in the cupboards, make cupboards, so you already deviated to the side of what's behind the wall. Try to make the Cup of Man as a free standing unit. Try to make this Cup of Soul, this Cup of Universe, as a free standing then like the sun, like the soul of the Creator, shines in all directions. You got to learn.

Any other question?

Q: Is rusted iron N coated?

K- Oxidized, it's not (1:18). It's a oxidized, there is a difference between oxidation and ?? N,

R- So you said to start with a rusty nail, but we would still do a N process. ?? end up with something different.

K- Yes.

R- Don't just put the rusty nail into the Cup .. and expect it to work

K- No, .. because the old nails are good, they are very good because they already gone through the process of rusting. ??? the cells are already open.

Q: How do we clean the Cups?

K- Why do we need to clean the Cup. ..

R- .. Cups are open to the atmosphere, what about all the dust, bacteria, things in the atmosphere?

K- Let them come in. They are part of the creation.

R- Some people have seen formations in Cups, I have never seen molds in my Cup. (1:20).

K- .. guy in Iran , Cup started making noise, he got frightened, and his wife puts the Cup on, and the noise stops. When they opened the box, they start ??

How come they are talking/

You are making MG fields, it's like 2 galaxies rubbing against each other. You will see new phenomena's, new understanding.

Q: Can we replace the N coils with Gans, same type and shape, for a better field for the Cups.

K- What?

K- If you replace it has to be in a dynamic solution .

K- Sphere shape.

Q: The chemical composition of the Sun, is H 75% and He 25%, (1:22). and smaller quantities of

Does the mean the

K- Stars have different combination, but are essentially mono in the center.

Q: Can we use the CS in any dimension ...

K- I don't know try and let us know.

Q: Can we use the nails that are galvanized .

K- No.

(1:24).

Q: Can I reproduced missing limbs ..

Play the recording of the Soul, because the next teaching will be very appropriate.

Video : Process of Creation ... (1:42:50).

K- We come to the point that in the whole life of humanity has been dependent from the second that the inception has taken place between the egg and the sperm, life has a one track dimension, to gather as much energy as possible, to grow, and to survive, be it from the environment, be it by attaching yourself to, be it by taking energy from the others, as you are not strong enough to do. In the womb of the mother we take the energy at the point of the inception from the liquids from the environment of the Gans, which is available in the layers of the womb of the mother. No attachment. At that point we have no connection, we are free, (1:44). but as we grow, as the division takes place, as more energies are absorbed in the field, then we attach ourselves to the body of the mother, a source of energy, "I cannot do it on my own, so I attach myself to." And then we go through the point of the birth. When we are born we go through the same process, I need to be given, I become a suckler, I suckle on the mother's breast, that I have been given again, so on ?? of the mother, we start taking from the others, we eat animals, we eat plants, we eat anything, we eat and we eat the creatures which are floating within the atmosphere, if there is a desert and with one rain the fish appears in the pond, how many fish has man absorbed by breathing in the cycle of his life and grown in different shape or form within his lung, within his stomach. Then we come to one important point, what about if, what about if, we go back to the first days, where we were taking the energies from the environment of the womb of the mother without killing, without destroying, without taking another life, without attaching ourselves to become the burden on the womb of the mother. Then stand still and look what happens in the womb, (1:46). the division of 2 to 4, and 6, doesn't come by accident, because when the 2 are created, they create a weaker 3, and that weak pulls in from the environment of the womb of the mother, and in pulling in, those 2 on either side, absorb and has a limitation, and divides. In fact the STM is created at that point of the inception, but has no energy, it's a weak, it's dependent, and in that essence if he can keep that in all structures of the man, man in becoming humble to be small, in compared to the others, to be a giver, to give of a higher, to receive, man becomes elevated. And man can live with the environment of the Universe without ever killing. One Drop One Life. In the essence when we are born to be able to live within the environment of the planet, we are born, we've done many things, we do many things. Parents for the first time they put a piece of another animal in our mouth, they call it meat, chicken, whatever. They pickup a vegetation, an apple, a herb. We are told it is easier to take, then the ask for. When you ask, you are given, (1:48). when you take you're committed. When you ask, "I need this energy." When you ask, I need this for my existence, who is there to give me? The whole Universe is there to give you. When you put your hand out to kill, you are limited to amount, and you committed a crime. In the space, and the Universe we cannot do this. There are no gardens, and there are no farms. Mankind has not understood the difference between the animal kingdom and the plant kingdom. In the teaching of the past, many times I have referred to it, as we call them, the Vertical People. What is vertical people. what is the animal kingdom. In the teaching of last months, with the Cups we introduced the animal kingdom, with a soul and physicality. Where the STM Cup sits on the top, and the Soul fo the Planet sits at the bottom, and in-between sits the Inertia. And then what it comes, the physicality of the man. And then the STP. Then man, to keep this soul moving and alive has to move and commit more crime. In the world of animal, it has to be moved, (1:50). to keep the soul

fed. To keep the soul in the dimension of its existence. Today I show you the soul of plants, the soul of a tree, and if you understand this, the STM in interaction with the soul of the plant will create a condition, that the plant gives what it needs by the soul without ever soul taking its life. You need this, because of the national food security, which is planned to destroy man, there will not be enough to eat, but a grain of rice can behave like a sun to absorb the energies of the Universe to give to all mankind. You can feed man from one grain, the whole of humanity. Not to eat it, but use is a source to absorb energies, which the man needs, at the strength of the grain. I am the creator, and I create the conditions for my existence, not by killing, but by creating conditions within my soul, that the whole soul of the Universe feeds me, if I need, when I need. In the structure of the STM, we saw that the Cup of Earth took its position at the bottom. We saw the Cup of Inertia, in the matter ?? state took its position. (1:52). In the plant kingdom the soul of the plants take position, on the soul. then with it, as with itself, the condition of the physical soul, and then you have the physicality. This sits across the 2 borders, the Soul of the Planet. and the ?? if in the physicality of the man, I cut your arms and legs, you do not die. So in the kingdom of the plants, you can cut what you like, the creation sits within ?? , then the plant dies. You can create ... breaks .. that process , so ?? .. to what it wants to take ?? arms we call the ?? (1:54). this is the reality, in ?? by sitting ?? as now as you said, by plant, now you understand what is the difference, now you understand mankind does not need to kill. many of you would like .. there is a difference, .. in a Cup of soul, and cup of physicality. Cup of soul of the plant.. in the present Cups which you use for the human body. you take a coil, another coil, and a plate, in the condition of the creation of the soul of the plant, for fixed point the plate moves to the center. and the coils take position. this is why the plants stay vertical, condition to fixed environment, because they have fixed themselves. .. Earth G field point of view. and ?? (1:56).

(breaking up .. can't hear clearly ...)

So when you make the Cups to do with the plants (draws a line from the center N plate to all 6 coils in the 2 Cups below) that you fix the strength of the ?? ?? it's fixed then you understand, the simple ?? with man ?? you put the limitation of material, gives you different vegetation, herbs, and everything else .. and energy.

R- Can't hear you. it's breaking yup

K- Now you understand what is the difference between ...

K- It means God doesn't want you to hear.

R- God needs better bandwidth.

(1:58).

K- It means God doesn't want you to hear any more. He wants to keep man a slave to his plant. The planet earth does not want to give man the freedom. You got to wait that I have to support different systems to be able to get to you.... you have to wait .. (2:00).

...

God doesn't want you to hear

(take a break ... (2:02). (2:07).

K- We'll go very fast .. where did I loose you.

R- We didn't get a lot about the plants, when you started with the flat plate in the middle.

K- Okay, let's see. You see, this planet doesn't want to let the man go, it even interferes with the teaching, it says, "I have kept them here for millions of billions of years, why should I let them go." (2:08). So, we will see.

In a structure of the STM and physicality of the man , we always use the plates on the side, because then it is always un-balanced, it can move, it can change it. The plants, they gave a compromise. In a way, as I said, the compromise was, we stay with you Earth, but you feed us. Earth condition was easy, you decide where I have in one place, you can have one ?? seed and no more. For that reason man, and the animal, and the plants made a compromise. So in the plant kingdom, stay your plate in the middle, and you allow the other conditions for what you want to create to be dictated by the others. And in that process, when you came to the STP and soul of the plant, and the physicality of the plant, you had a choice of flat plate, means I don't move, I stay, I fix myself in the center, and let the fields build around me, that I can collect. (2:10). In the process of what is available, in totality, a plant condition is primarily dictated by one element, Inertia. But what field at the point of inception is available. Is Inertia of the position, matter state availability which gives energy to the plant. This is why we are conditioned in (by) what soil we have, and what can grow. The position of the physicality strength, then in respect to Inertia, dictates what will grow above it. If the gravity is tight, you get herb. if gravity is loose you get a tree. If you have a gravity which is a compromise between Inertia and the MG field of the plant, and MG field of the planet, you get what we call, seeds, and onions, and what you call grows in this condition under the soil. Where the soul splits, you have a growth to absorb energy (above), and you have a growth to interact with the fields (below). This is the difference between the physicality of the plant world, and the physicality of the animal world. (2:12). Now that it is fixed, your life becomes very easy for man, now you have the Soul of the Plant, and you have the STM. How do you want to fix, and what you want to fix in the strength, to what. But in fact, you find a fixture between the 2 surface, which in fact, gives you the band width, which energy can be absorbed form this structure. When you get educated more in understanding it, you can use different combination of the structures, to develop different strengths of the materials. But in essence, the STM creation is in a floating condition above the earth, but the soul of the plant, is the soul of the entity, within contact restriction of the given boundary within the soul, within the ?? soul part. But then you have plants that grow on the trees without the soil, and everything else, which is a compromise between the two. But then the tree becomes the zero point, where the plant grows on the tree.

Why do ?/ some plants and trees do you take a piece from another one, and you put in (grafting) and you create fruits of different. Because you change the M field of it. Singularity does not create, (2:14). but when you put the skin of another one and you graft it, you create a field which ?? the two which creates condition for fruit, or whatever it grows. So If you understood this, you have the key not to kill. Not to destroy, exploit, but you just feel the strength of the plant and you tune into it. And depends what you need, if you don't need, "sorry the ?? position is full." The rest of chewing and the thing,

is to feed the physicality. Now KS run and feed yourself. Do you want the herb, do you want an apple .. a date, all bear the same. You have to decide what you are going to put on this side, for G, for Inertia, and everything else. But the beauty of it is, that the plants create a condition of cover, so everything is conditioned. (2:16). to a Zn and to a metal condition, liquid, which allows AA strength fields to come in, to create that AA strength of your body, we can feed you. Or you can do it yourself. Directly in doing this job, you can create a condition that you can absorb energy from the plants, on agreement from the plants, not on your. In a way, you make a connection with your soul, which you never had, with the soul of the plant, and the ??? soul ??

R- Loosing the voice again.

K- .. And in this process you start understanding how you can take with your soul from interaction with the soul of the plant, what the plant needs it takes from you, what you need, you take from the plant. You don't need kill, you don't need to destroy the plant. (2:18). This is how it is done. And once you get educated, once you develop understanding of, you put yourself within the reach of, that you can take the amino strength from the environment, and in that process, if you put yourself in this environment you don't need to touch the plant, you take from the fields that are in position of it, and pass through to it. In a way, if you make, as I said, a copy of the plant's structure, and put it in the middle of the room, as the food is going, as the energy is, the proteins are going to it, you're intermediary, you pick up what you need. You don't need to kill it. You can let it live. So in fact, if you look at it, you need a combination (draws a Cup with different coils and plates) that can give you anything you need. In a very simple way. (2:20).

Any questions?

R- ... what about the gas of Nitrogen, it seems to be important to plants, it's one of the 3 important elements, the NPK and so on?

K- No it's not, N comes by the process of the absorption of the energies. It's a byproduct.

R- So similar to the way N is created in the atmosphere through the interaction of the fields?

K- Yeah, you come, the user of the transfer.

R- So with the fields you are in effect creating a magnet for the fields of N?

K- No, the N which comes is the byproduct of the AA, the N itself ...

(2:22). You have to realize now with this knowledge you have a freedom not to kill. You have the freedom to be able to understand what is needed, that you can be, you can position yourself on the path of the fields which are on the way to the Cup. This is what you did with "One Drop, One Life." I think if you understood this, as you understand that different herbs can extract different fields, even the field of the protein which the body needs, one does not need to kill anymore animals. One does not need even to destroy a plant. The time of killing and destroying is over if you understood this ... This is how we are going to feed you in the space. Let me explain to you how you are going to be fed in the deep space. (2:24). This is Earth, you are here, and this is the center, in putting the weaker strength of the Earth atmospheric condition ?? in front of us here, in establishing a line of transfer for energy, we feed you without you doing anything. You feed by positioning, the same as I said, One Drop you put, by the energy trying to come to One

Drop, the body takes what it needs. The process of feeding man changes, it doesn't matter where you are, you receive what you left behind.
Any other question?

Q; . .that Cup you had in a previous drawing, with 3 spirals and plates, I assume that it is all N coated? (2:26).

K- I think you are all educated enough to know what you want to do. There are as many combinations as plants on this planet.

R- There are quite a few questions and confusions about ..

K- It's so easy to confuse the human race.

R- Well every time you introduce something new, there is a new variable in it, multiplies the confusion. .. Q: We have at home 2 Cups of Man, should we fit them into these 5 Cups. In my opinion I don't want to because they are alive and functioning, what is the interaction in this configuration, if we keep the CM while creating the 5 Cups?

K- You are still producing another cycle of life, huh. The bad thing about these pots they keep on going, you change house they don't touch the food for 10 months, they ?? still growing.

R- So would it be okay to create 2 or 3 of these structures of the 5 Cups, of does that indicate the Schizophrenic tendency?

K- We leave it on the people, let them grow, we need to have a time that people start thinking. We have been spoon feeding too much. We spoon fed for millions of years. (2:28). It's for humanity to make a stand, .. to structure itself to what it wants to do. .. you decide you like apple, and the other one ?? the other one likes a lotus fruit. Now this way we give you the freedom, before you had a few animals, now the plant kingdom is rich. What you decide for the Inertia, will dictate what is available in dimension of physical matter, energy level.

R- Even John Bliven is saying, I am lost, do we create 3 new Cups and sit next to them the 5 new Cups, and stand between?

K- The thing is John, you still have 5 Cups, your Inertia and the G field of the Earth doesn't change, now you have the Soul of the Plants, which have fixed themselves to the Inertia, then you have the Soul of the Plant in the physical dimension because when you cut a tree, it still feels, it still shows reaction, and then you got the physicality of the plant, which .. grows up. What strength that shows is important, and would it become a tree, and would it become a shrub, (2:30). why the height does, why do herbs have such a concentrated energy of one element, that you can use it if you got a headache, that you can use it for whatever else, which means the central plate is mono-energetic and is connected closely with the Inertia field in that position. Then you understand why some plants don't grow in alkaline and some plants grows on acidic, and all the games which is played. the Inertia of that point dictates what to create in conjunction with the strength of the central MG of the Earth. But you have to understand, when it comes to the Inertia and all the MG fields, you always have to have a condition where the CO2 is a factor. So you can never let go of your Zn and your plates of Cu. All of you always N coated the Cu and you put it in the middle, or opposite to, this time you have to N coat the Zn plate in the center. And in conjunction with ordinary Cu you create an umbrella of fields. Now you spread it, because the stronger one is in the middle, Cu is the weaker one. In the structure

of the man we always put the plate or whatever, on the side, because we hold on, we don't want to go, we don't want to create any more condition for the soul to run. With the plants, because now your factor is dictated by the Inertia MG fields, you can play that game. (2:32). And your umbrella is much bigger than when you were the humans. We will show you, we got machines, we will show you these things. What happened if you put the structure you made last week, near the structure you make this week.

And then what are you going to get next week, or the week after?

Now you have the freedom, but remember the principle of One Drop, One Life, do you need a stacker, or can you create a One Drop, that you are connected to that it can give you everything you need and you are fed, you are not hungry. As we say from now on in the teachings, in English we say, we separate the wheat from the chaff. You have to understand what is what. Understand exactly how it performs, what it is supposed to do. And then you go to the next step of understanding, what this thing is going to give me. And it will be very, very hard for some of you, (2:34). you go to go ?? all of you, you put the seed of this year down, for next year, putting some Gans's around it.

So in fact now you see, mankind can tune to a plant with all the energies he needs, without actually committing any crime. And he can put himself on the path of where energy is coming from, and it takes what it needs. Many plants have the AA strength of the meat, or whatever. Then you understand we are in a new ballgame. We are in a new beginning, now you don't need to go and get an orange, now you create the essence of the orange from this, anywhere in the Universe, You can give it to a man on planet Zeus and say this is what we call orange, and he tastes energy and ?? all made by the emotion of the man, and the confirmation of existence of the fields. (2:36).

Q: Is this what Alex did with the orange?

R- And it's a different process, is what you are saying

K- It's a different process

R- reverse almost.

K- It's a point of creation, where that thing was created.

....

Q: Ram .. what about eating fruits, that is not killing trees, so is that considered ok, I was thinking the fruit is the tree offering its interaction with the fields to us in a way?

K- Did you ask the tree, can I eat you?

R- What if it drops its apples on the ground and we pick it up.

K- Then we have to do what the other ?? guy did, huh, write everything about it, when the apple fell on his head.

R- Well from the trees point of view it is probably trying to spread its seeds, with that fruit, it has its use of dropping fruit, and the birds and animals will take the seeds and spread them around, (2:38). so perhaps as humans we use that fruit we should be actually using the seeds and paying the tree back for its ..

K- I think if mankind understood the teaching of today, up to now, the past 1 hour, we don't need to get together for about 100 years.

Any other point?

Q: I am having a hard time understanding this, it seems to me we are making a second set of 5 Cups, but the top 3 Cups are of the structure of the plants...

K- Yes

Q: of G and Inertia

K- Yes, they are feeding, do you know they want to grow.

Q: .. I am trying understand how we receive the energies. I know we have to create that point of weakness to absorb the fields we need, so do we take some of the Gans's of this second structure ..

K- You don't take any more Gans's .. you take the fields, it's a big difference.

Q: So we position ourselves?

K- yes , More or less. (2:40). you can create the positioning by understanding that the process of system, will adjust itself.

Q: Thank you, I need to grow a little bit.

K- No you just got to understand, that systems work in different way. You have to be very much, extend the knowledge, understanding of the knowledge, It's time for us to move to new levels of understanding, much more open minded. This has created a certain narrow mindedness because we are used to everything we like, to be there at the fingertip. This is part of the problem of humanity, ready made, give me, give me, now we have to wish it, we have to ask for it. (2:42). We have to make it part of our structure, which is continuously evolving to gain, and to give. The problem now, sits in fact, with us, with our behavior. Don't take, ask for. And if you are given, it's a gift. We asked for my soul, on this planet, is given to be looked after by the planet. And then you can live anywhere in the Universe. And many times I keep on emphasizing on this, because sooner or later, you'll find out that, it doesn't work for you. The sooner you find out it works for you because you did it the right way, and everything else gets fixed, it doesn't matter if you need vitamin A or B, or whatever. There is no field strength names in the U, it's the need of the satisfaction of the soul. That's where the problem sits. My soul to be satisfied, what it needs by my physicality, then you'll receive it, be it the food, be it the lover, be it the love of the Creator. Mankind has to become, and mankind has to understand this, otherwise you'll run into problem as you have done for centuries, millions of years. (2:44). Thy shall not steal, but you can please me. Give me what I need, provide me with the pleasures of the existence. you steal it, you pay for it.

Q: So it is seeming to me, that I need to feel in a way my position with some sense that is closer to my soul ... ?

K- In a way , you have to understand your soul, your creation with ?? We have to understand to become low enough, humble enough,

Q: Is that understanding accompanied with some sensation in our physicality?

K- You see we have to go through the transition. We taught you the Cup of the Universe, or the Earth, yesterday, because it is connected, last time. (2:46). And we taught you the essence of creation of fields of the plants, vertical people. And that is what it is, that's how it is. Now with this teaching we brought you to the first level of humbleness, where you can filled, where you can be fed, receive. This is the step man used to take. man did

not eat meat first. We took the vegetable. you can be in the process of need and receive, you don't need to kill,

The time of killing, if you understood,

even though the Earth interfered, it doesn't want to let you lot go. I hope you understood most of it. It makes you independent of this planet. Governments can put these on every square,, corner, (2:48).

.. put it on the satellite .. now you can create it.

Q; So our positioning is a state of bringing our minds in accordance with our soul?

K- What do you mean?

Q: I am just trying to understand our positioning better, you said it is understanding our humbleness, in where we need to bring ourselves to receive.

K- You see, let me explain something to you to become very clear, and it will become more clear. ... mankind has a huge problem, and that is, it has to go through transition, not to be dependent on any physicality, and goes according to the maturity, and how we receive it, how we perceive it. And this is in a way for you a bit strange, because you remember the dome we saw in the Caribbean island, (2:50). that the soul of .. was the giver, and the source of it is the totality of the energy available. So in fact, until we teach you the dome next time, the preservation of energy will come into operation, you need to eat very little to exist. Man loses very little, because it is like the womb of the mother, everything is held for you. You just tap into it. This teachings, this coming up teachings, it shows you gradually how to make a cluster for your soul, that you feed the soul, that the soul feeds the physicality. But you have to create a condition that the energies can be absorbed. You have to create a condition and a position that you can receive. (2:52). The knowledge to come is beyond comprehension of man. But we share that in time man will understand. This is what I say, you can take the horse to water but can't make it to drink. We can bring the knowledge but you don't have the background to it, to understand it. So in too many ways, we build it up, we bring it in, and teach you more, and in a way, if you look at it, between the two, if you understand, between last weeks teaching and this weeks teaching, and the teaching too come. You have no need to take any energy from outside, because the soul already receives it, now you cocoon it, you show it, what that thing could be from the earth to take, instead of eating it, you take the energy of it. So you feed your soul with it, to elevate the soul to feed the physicality. In a way. you plug yourself into the vegetation energy M field, that can continuously give what you want to run your physical dimension, it does not matter if the apple next door, or in the next continent. If you want an apple, you tap into the energy of what is available in the apple strength, you taste the apple, you feel the apple you want. Then it comes to understand, you have to be so humble, the energy in you has to be so low, that it still converts into lie, but it is such a giver, that it receives out of the love of the Creator. (2:54).

We have a lot to learn, and as I said, one of the KS said, the knowledge is complete, there is no need for Mr. Keshe, we got all of it. Shows lack of understanding of the creation, we have not even taught you anything, and the arrogance becomes the cause of it, ?? done. Be always humble, that the more you understand, that you understand, you have not even understood the totality. Then you are at a position humble enough to receive. As

I said, we even, I explained to scientists in Iran National Defense University, then we can go the speed of light.

Q: ... (2:56). .. The first question is I am not sure I understood how the STM works, when we have the 5 Cups for the STM, you drew ?/ with questions, and then you kind of summarized that in one Cup with 2 plates and 3 spirals ...?

K- You see, what we tried to do was to let you start maturing, we stopped this spoon feed. You become ?? ...

Q: Could you explain again the final Cup with 2 plates and 3 spirals? And then the second question, .. we argue that we have domesticated animals, plants etc. But at some level for me, I think it's the reverse, that plants have domesticated us, or animals have domesticated us, because we take care of them and feed them, and therefore, make them supply. In return they give us fruits, milk, or honey. So when we stop eating what is going to happen to their populations. For example cattle. are they going to survive on their own. how about plants that we actually grow in order to eat their fruits or their grains? (2:58).

K- .. this I always say, abuser always finds an excuse for his abuse. Did they domesticate us, or do we want to blame something else for. Or did we domesticate it, because it suited it us? There is a big difference, a massive difference in total understanding, why do we change it to suit us. Why do we change it to suit us? What gives us the right to do this? Why do we make ourselves blind to it. And secondly, it's us who wants to live, not the plant. We have to understand, we have to be in a position that we give to unconditionally at the level that the plants need, (3:00). that if it gives it will be the strength we need. It's a lot. Our body does most of this automatically. Now we become aware of it. The reason is if you become aware of it, and you can control it, you can become "Man of Space," otherwise you have a problem. Mankind will have a huge problem in the space. You run out food, out of energy, out of everything you imagine you have, because you haven't learned to take, your step, and mature to the next position. You have to learn to be humble enough.

I live that way, and one day mankind understands how I live. I never take, and I always ask and I emphasize on this more and more, because then you are given. I ask, can I have the pleasure of. And it's there if it available to be given, ?? it doesn't matter if it is a water, .. a person, it doesn't matter if it is even mankind itself. Can I have the pleasure of being part of this humanity. At that strength, I yearn for the past days, that I could be with the KF team in the hospital, they don't need to .. they go in there and get infected, they are still there but get infected more but they give so much that they want, (3:02). to give, to be there to be part of that they can give to make it better. When I look at the KS in Iran in the hospitals. They put themselves at risk everyday, they don't need to be there. They are there to serve humanity. Those souls will elevate beyond imagination of mankind. They are there that, "I take it," I put my soul on the line. You go to get fed by the plants. they go there to absorb, and be part of, that the others can survive. My life has no value, if I can help the others. When you see the teams in the hospital, especially the teams of the KF across the world what do you think they do? they put themselves, that they can be that humble , that they absorb it, and at the same time they can help. These are the souls which are matured. Always say, I relay on the greed of the man, and it is so good. If you

been around me, I always say, that I give you so much rope, that if you stay on the straight line, you elevate, you start playing around you hang yourself. Because have you seen the monkey jump up and down, in bungee jump, it connect himself. We have seen that recently .. (3:04). We gave to give, but in that position of freedom to give, they thought they have become above, and at that point they cut themselves. Because you got to stay humble to receive. Every Thursday I come here, I put myself lower than those who have no knowledge, as I can give, and with it comes what I receive and what I share. You look for the plant to feed you, and (I) look for the Creator to feed me, by humbleness, not arrogance of the knowledge which has been shared. We have seen very recently, those who became arrogant, are not there to be. And how many people have gone through the F in the past 15 years? The minute they thought they had a position, they learned something, they claimed they were everything. Where are they? When you claim the knowledge of Creator is complete, God cuts. As I said to doctor Asid in past days, the knowledge which can be transferred to man is, if you understand every star you look at, is a specific way which exists, and has a specific way which creates life that exists in that environment. When you understand the creation of every star in this Universe and the others, we might claim, we just start understanding. And when a little knowledge makes you arrogant, that you say the knowledge is complete, now I can take over, (3:06). you took over nothing, except the arrogance and the downfall. It's the same, it's not teaching you to take from a plant, it teaches you the way of living. And this is what all these teachings are about. A way to learn to give.

Q: .. but I still have a question about the transition, let's say I accept all that and I want to practice it. Taking from that Cup...?

K- You don't need to practice, this is the whole thing Dr. Guatua. You have to comprehend the essence, These are just a schematic to show.

(3:08). Very soon, in a short time you'll understand why these are there. And those who did not deliver have gone. Why? Arrogance of not receiving. When I hear they say, "knowledge is complete, now we have everything." I said, that's the end. I knew the soul has to depart. Knowledge is never complete. Even the Creator accepts His knowledge is not complete, because He is still learning. Why is He here. Because he saw the beauty of love on this planet, the beauty of the creation of what he never thought could create. The beauty of a partner in the soul of physicality. Couldn't you stay long. So if the Creator Himself accepts, that there is no end to His knowledge, what even himself is learning from, how one illiterate, confirm that the knowledge is complete, now we can go for a takeover. Where are they, how many people we have like this? When you confirm, when you understand that the knowledge I have, is not even the beginning, you are ready to receive. And then it's the same, I don't have the orange, but I like to taste an orange, if you wish it as a soul, the orange trees are ?? not a planet, you will receive. To please you, to elevate your soul. That's why we say, even a plant has a soul, even a stone has a soul. (3:10). If you strength of your desire, to be happy with an orange. There is a tree, a plant, it has a soul, it connects to you. You got realize that mankind has to go through this process of humbleness. And then be able to live with it. As some members of the KF said, you are the most arrogant person we know. I said, yes, because my arrogance comes out of my humbleness. Because I am so humble, that you see it as arrogance, because I

give unconditionally, it doesn't matter who it is, even to my enemies, even to those who betrayed me. It is for them to find balance in their life. Many of you who have been 7 years haggling with me, all these things, which everything else which is happening around the F. Have we given up? We taught more. have we stopped? We spend more time teaching. There is a very big problem in the F, that has to be understood. We have transferred the soul of "Elevation of Giving," to female, but those females who are here to serve, not those who are here to steal. (3:12). And those who are here to steal in the name of giving, will see their demise. Because they are taking what is not theirs. Mankind in essence of the soul is one. Because if you look at the bottom pot, it's the soul of the planet, which feeds your soul on top. You are part of it, you are in it. And when you put a line in it, you cut it, nobody else does. You don't need to wait 14 days, you already cut it from the first day. How planned coup de tas we have seen around the F. How many planned elevations we have seen around the F. Which one of them are still here? The time of all, the time for changing mankind has come. And before time that day comes, all what I call, those who have taken from the F deliberately, they will not be there to enjoy the time. Not in terms of physicality, but by the soul. "I was part of the KF, I betrayed the F, and I am just a stand-by." Because I put myself above everybody else to be. This is one of the problems that you have to learn. You've seen a lot of people, we allow very few people to come near us, and when they come close they see the humbleness, and think, oh, we can do this ourselves, the guy doesn't understand. But they don't understand our humbleness comes out of our strength. You go nowhere with it. (3:14). The same is with a plant, the same with a STM. But when that happens, because the other souls are there, they bring you the gift, they bring you there, that you don't suffer, it's what you need, we give you from us.

This education cycle, specially in the next few weeks will bring many of you to understanding of the truth about yourself. I give freely, but are you there to receive it freely, and give it freely. Not by words, but through the soul. This is why I say, when I teach, I teach the Universe, not just with the voice of the man, because the essence of the soul is given. You have to understand, these Cups or whatever, it's not there to give you, oh I took, these, why is this brown? You missed the point. It's for you to understand the essence of creation, essence of life, and you stick to a Cup, is this wire connected that way. I sit and I laugh, I say, "my god, we are still trapped in the physicality before we understand the essence of it." It's very, very difficult, (3:16). for teachers like me, who have the patience to see the mankind making the mistake again and again, and he leaves a gap for the others to come and abuse him. It's in the ?? abuse, but the closest people to the F, and they left very quickly in the last few weeks. The extent of the abuse is opening up left, right, and center. They were given freely with the love of the Creator, and they stole. They went to steal from the Creator. As the knowledge of the Creator is complete. And those who follow them will follow the same demise. You watch. Thieves go together, and the givers go together. You've got to understand, the whole essence of the teaching is a way of living in the Universe. It's not the Cups too pink, yellow, 2 springs, or 2 flat plates, and the rest of it. You play childish game, we teach you the childish way. You play the mature game in giving, you receive knowledge we don't, can't even teach in a hundred years this way. Stop looking at the Cups, go back to what I said in the past months. Look at the fields, the fields is not where the fields goes, it's where I can give

that the fields goes to save someone, to elevate someone. The greed of man, "me, me," is too big in mankind. Look at the essence of the teachings in the past 2 weeks, you elevate yourself to the others. Look at the Cups and connections, you stay a man, (3:18). and you suffer a life of ?? We have one of our dearest KS telling, now I learn how to be detached like you. I had to wait a long time for her to reach that point. Long time. But that time when you realize, you mature to the Soul of the Creator, to understand it, for the knowledge to be received. Don't look at the Cups, we show you a way how to tap into the energy of this planet, that through the strength of your soul, you can get that 20% and feed it when it's in the dimension of physicality, nothing else. I call it, remote control energy transfer, but apparently mankind wants to have all of it. ?? and I go back on it to learn, don't become arrogant. Just because we give you room to grow, we give you room to teach the others and not control and be the owner and claim it. And if it you learn that, you go to the next step. (3:20). And if you can step away from it, you have reached a point of maturity, the I live my life, you become that life. But ask if you need, and you'll be given, if it is sincere and you need. "I would love to have the pleasure of an orange, if I could receive it." Because you create that understanding at the strength of your need, for the pleasures of other parts, which ?/ yours. You will receive it. You go and steal an orange from the tree, you break your leg and you pay for it. We showed you ?? one. The harsh way with the broken leg, or go the other way. Don't take my teachings as a Cup, springs, and a plate. Understand the essence of the fields of it, what does it do, it's there. When I explain to you, this is the Inertia, have any of you stood still, "why is he talking about Inertia." Oh, you put this one there to get something, we can see something in our plate. You are just a bunch of teenagers who just learned what sex is, and get there as fast as you can. For your own pleasure. Take your time, give pleasure. Take your time enjoy the presence, then you always get there. You receive what you want. As long as man behaves like a teenager, "Wang bang, thank you Madame," you won't get anywhere. You never learned what is the essence of the creation. (3:22). You just want Cups, "make it, do it, oh, I don't receive it." Because the Cup was just schematic for you to understand the totality of the creation. You have to grow.

Some people say when I teach I insult them. You insult your self, by not understanding what was taught, so you find my word as an excuse to cover your weakness. I don't use the color, race, or nationality. I use it for you to understand, ?? for those who listen, to understand the weakness in the man. If it bothers you, it means that weakness is within you. You have to learn where your weakness is and make a strength of it to become positive. We don't need no one to deliver to us. We take what we want, when we want, because we ask for it to be given. You ?? ask for it, you don't steal. does not mean the restaurant guy has gone and brought the food, you have to come and take. There are no "Fish and Chip" shops or pizzerias anywhere in the Universe. And the whole of the Unicose exists, how come when it comes to man, everything is physical and we have to have the best thing, that's it. Understand the essence of the creation, and then learn how you convert it. (3:24). Go back to Book 1, God is creator of all, and man converter of some. That conversion of some, comes at the point of the need. "I am going through a harsh time, I need a love, somebody to love me, that I can go through the harsh time. The Creator delivers it to you that you don't suffer, be it a earthquake, be it a death, be it anything. You don't make a Cup, put a Cup there and I don't feel the earthquake. No. You

got to learn to ask. You got to learn to ask from your own soul, what can I give. Never ask what you want to receive. Stop looking at the windings, and the plates, and the coils and number of coils. This was to show you the essence of creation, how, what's the difference between the position of the structure of the STM and the planet. The Vertical People, the Horizontal People. The Vertical People and the Horizontal People stand on 2 ends, opposite. If you put the Soul of the Plant on top of the branch and somebody cuts the branch it's gone, dead. So the tree was clever he put it in the ground, as long as it is there, I am sticking to it, I am there to live. Simple as that. The earth, man, decided, "oh, I put it up there and I give it 2 legs to run if it comes to kill, and 2 hands to protect it." And if you put between the plant and the man, somewhere in the middle, (3:26). you have the soul of the animal, and the kingdom of the animals, and then you see how they behave. Why do animals, mono-feeders, specific, because of the position of the structure of the ?? understanding of their soul. You put a cow, donkey, horse, and a deer, in a field, none of them will die of hunger, because they each one eat part of the same thing that guarantees their survival. And man should not be that point, man to his soul has to be the collection of the fields of the Universe, that from it, as I said, when you become a star you can create. Now how many Cups, how many springs, how many turns, 9 turns, 10 turns. When I hear this I say, oh, we are back in teenager job. "get there as quick as you can." My teachings are very deep if you understand it, and the way I live, I give total freedom until you hang it. You hang yourself with it, or you become humble enough that you absorb, and observe the changes. And from it you give to bring more changes in a positive way.

Any other question. (3:28).

Q: .. you didn't let us anything to speak about.

K- What do you mean?

Q: Yes, all, even now if we speak in physicality this is a problem now. But you know Mr. Keshe, we are teachers and we are teaching outside the KF, so the people are still in the matter state, the physicality. So they want to see, feel, even take the energy in the matter state. So that is why we are asking to understand, although some of us really understand on the soul level, but we need to connect it to the matter state.

K- Ask your question.

Wait, are you going to go to every language, every broadcasting, every Television, every radio to teach everybody, and someone is asleep and didn't learn it, they won't learn it, and then you have to go and find them that are awake watching that TV program that they learn. Or you teach through the STM that it doesn't matter if you are awake or asleep, you're still here on earth.

Q: No I go to the second one.

K- So, how and what is the way to the second one.

Q: What we are doing .. but this because we are short of living in physicality, (3:30). we want to see it in physicality. ..

K- Can you imagine how hard it is for a man to wait 9 months to see his own creation. He must be suffering, huh. But we got used to it, oh we got to wait 9 months. Why can't you create that soul, that it is instantaneous and it decides to show itself in physicality. You don't need to wait 9 months, nowhere in the Universe anybody waits for the creation of the soul. The children of the soul of the universe are created that instant, then they decide

if they want to be part of physicality. But we still allow the cycle of physicality to go because you have to show something. Somebody comes out and says , hello mama, says hold on, where did this come from, was it me ?/ somewhere. Because we haven't learned about the soul of creation of the soul of children. We still have to put you through the 9 months. ?/ comes out, goes in, and then somebody comes out, go .. and that is your baby. Does the soul in the Universe carry 9 months, 10, 22 months. No way. So you like it, we give it to you the way you enjoy it. But in the creation of the soul. If I come to you today and say this is my son, you never had a child, how is it possible? It was soul born, from the soul yesterday, he decided to be there today. It doesn't make sense to you, but this is how creation is in the Universe. (3:32). As I said, we come to earth to enjoy the physicality, but this physicality is very ?? awesome, and very.. physical. Carry on.
Q: .. draw on whiteboard . that 5 Cups normally should be 3, and 3 connection in between. .. if I say there are 5 Cups.. !1, 3 and 5 . 5 should have partially nothing from #1, but #4 which gives in between ...

(3:34). Q: If we want to work with the world of plants, we need only to change the 2 above?

K- What do you mean?

Q: (3:36). Q: Draws 5 Cups

Q:

(3:38).

Q: 4 and 5 are the common denominator for all on the earth.

K- No they are not. This is exactly where you are wrong. The only common denominator is 5. The only Common denominator is 5. Nothing else.

Q: What is the Inertia then.

K- Inertia is in different part of the planet according to the material. This covers the same thing right across (from 5 upwards. this Inertia is from here (covers the top 3) , and that's it. If this Inertia changes you become a shorter man. So for you to exist you have to become a shorter man here. This becomes the position of your soul (between 2 and 3), because the Inertia change. In the world of plants, the Inertia ?? you can plant a herb and a tree next to each other. And the animal here always eat what is available here, because the plant produces. Their wish is to have ?? this created, by the central interaction of the material. So your proposition has, (3:40). needs a better understanding. We are not there to position us, we are there to enlighten us, so the common denominator is only the G field of the planet, even that at different points are different. Common denominator of the G of the Earth, or MaGrav of the Earth, on this side could be here, and through the composition of material, will be here. That's why we have mountains and valleys. Because it depends what this (Cup 5) composition of material has kept for itself that it absorbs the field. I tried to bring for you to look at the totality, not one line.

Q: .. all your Cups are like this .. triangle you are preparing a strong field as the soul of the Cup, here .

K- No, I don't see that, we haven't made Cups like that, all our Cups are like this. (3:42). Some fields above open them, and some below converge them .

Q: Yeah, due to the strength of what you are putting in.

K- Yeah well it's a choice.

Q: And if I want to go to the plants, and from our understanding that some of the plants the soul is down in earth, and they are here ... so in this way change the position of UCp 1.

K- What do you mean?

Q: This is the physicality of the man.

Soul of plants should be in this Cup 3 because it's in opposite position ..

.. (3:44).

Q; soul of the plant upside down from the man.

physicality would be on top here.

K- of course that's what we said. It's like putting the man on his head, but connecting it to the Inertia of the planet. You become a vertical, a herb.

Q: number 4 and 5 will not change.

K- Yes they will change, No, no, this is what I keep on saying, number 4 is all changeable, not number ?? 1 or 2, change but longer period of time.

Q: Do the same system for man go also for the plants, in the meaning? if we see 1 and 3 in what you gave us in the 5 cups. ...

if I go to this 3 ..

(3:46).

K- Yes you see you are still physicality, the fields go through. ..

The five Cups and five Cups .. it's the story of 2 Cup. The field flow with the man is this way (outward down and inward up) , that's the direction because it gives energy enough to the soul. With the plant it still is this way, with the direction still goes that way, but here the soul of the plant sits here (4th Cup) to be a giver. This is why if you eat a fruit or whatever, it adds to your energy. (3:48) and that energy is to be used for whatever reason possible. This is what the scientists can't understand, and create themselves. and what they do to understand, and we don't need to problem with it, a lot of things with KS. One takes from the plant, and it puts its physicality at the height of the thing, and that's it. The other one puts its physicality within the structure of the planet, and it is committed to it, it can't do anything with it. In a way, when you look at it, a tree or plant talks when it grows up. But the man doesn't. (3:50).

K- It's the way life has become

Q; I have a small question. I have a small residual in the soul Cup, in the first one. is that because I am in physicality.

K- too physical. yes. because it is soul to soul. ... I don't know where my cup is.

Q: All over the place.

K- In so many ways, yeah.

We are getting ready to release the document, as promised. Please when you receive it, share it with all the health authorities, and all the officials. And they can contact the KF or wherever they like ...

(3:52).

(3:54).

Size of 5 Cups:

Q: Does the size of the containers matter for the realization of the 5 Cups?

K- Um .. no, but the further distance you are there is more possibility of producing more.

Is Meditation Helpful :

Q: Is meditation an important part of this great service, (3:56). and would a group meditation to elevate our soul as a group, creating a group consciousness, would that be a good thing?

K- I am going to bring somebody in. I think she is the one who tell you because she is writing that part of the book. Wang Lyn, can you tell us, because you meditate a lot.

WL- Yes, Mr. Keshe

K- Answer the question please

WL- so the question is that meditation is important for elevate the consciousness. ..

the answer is yes, ..

(3:58).

(4:08). adding to it in a positive way, we progress.

if we become physical with it, then it becomes very painful. What we planned, what we think, is not necessarily what it needs to be, unless the other souls have decided it to be. In so many ways, when you make the soul of plants, vertical people,

becoming part of the Soul of the Universe, is going to be a very difficult time for man. Because you still look at the Cup, what color, why is it green , why is it blue. It will take a long time for mankind to switch. If they take the path, as they ?? have up to now.

(4:10). In the recent past we have seen a lot of people going through this ??

A lot of people give promises, we don't give promises, we teach you. It's you who has to elevate, and those who think, we have, we've done, we're doing this, there is nothing there for them. and they attract the souls, for what they call there cycle, and then those souls become in a lot of problems. Because what was promised was not there. In this teaching we never made promises, we showed you how to make things, that it is you who can promise your soul. And I always say, it depends on what you want, because it is your strength, it's your soul who decides what it wants to take with it.

Q: I would like to translate your 9th Book of the Soul, I am so touched by your teaching of the soul.

K- We come from the Soul of the Creator, nothing is a choice. (4:12). And we teach for the elevation, gradual, of the humanity, not the totality in one go. And this gradual, we put a term and condition on it. A lot of KS were eager to get, to do, but a lot of KS were not aware of what we could see in the soul of the Foundation. And when there is misconduct we correct, we give it time, until it corrects itself. And when there is the gain

for the F we encourage it, that it proceeds to the next level, fast. The teaching of the soul, is a teaching of the conduct of the man in the Universe, not the man on this planet, in a way, partially, this planet and the STM is what we call the sandbox. If we understand the operation of the soul of the others, we have matured maybe enough to understand the operation of our soul. We never can learn from our soul, as it is within us. We cannot look inward to see the light. We see our conduct in the behavior of other souls. And this is one of the biggest problems for humanity. Maybe in the future mankind elevates to reach the Soul of the Creator, then maybe he can look within. (4:14).

R- Looks like the report is ready.

K- I would like the head of the KF to read it.

(4:17). Ella, .. basically it's a lot of information we have approximately 187 pages. .

(4:22). various researches were we show the M fields ..

History about the Gans and viruses ..

Construction of Cup #1, and Cup #2 ..

how to use them .. Gans suits ..

Protocols of different mixtures .

Detection .. (4:24).

Disinfection of environment

Protocol A white tissue

Protocol B red tissue.

Mutations .. (4:26).

Cancer ..

Children

Environmental Corona infections.

(4:32).

lab tests ..

K- Can you go back to the statistic page. What do you see, the most important part of this report is this, where if you open up, you see as high as 94 - 95% success and reduction for specific parts, lung, fever or whatever. And this is exactly what WHO looks for. What we don't see is, (4:34). the effectiveness of ?? and how fast it is done, is within the guidelines of WHO, and 95% success, has not been reported anywhere in the world, with the T. We had to work with 156 out of the total numbers. And this part, this is actually what confirms the correctness of the T. If we look in detail, there should be no need for no one to die of Corona, even in the early or late stages, 95% reversal. It's part of what has to be considered by the WHO, and the Iranians ?? and the offices of the ... sitting on this because, they see no reason a water should be able to do such a thing.

Data to International Standard, 95% Success Rate:

The theoretical data, is to the standard international requirement. This is what all the governments will be looking for. We have shown the T, we have shown the things around it, but essentially this report is the compilation of a lot of knowledge to show 95% success rate. (4:36). It stays an open report that we can update and change. And we'll keep this report ongoing, until Corona is not a problem anymore. In a way, a simple \$1 cup can save one life. And we have seen man dying for \$1, why? So, what we, what you are interested in is the procedure. What to look for, and protocols. Many of you get Corona but are not aware of it, and later on, you see the cancers of it, and all other things of it. Read the Protocol, read what we call the cases. There are 23 to 26 identified ways that the Corona is effecting humanity. And of today, our successes are of 95% doesn't matter which one has been hit.

Any questions?

R- I was wondering what is meant by saying ... 95% success, what does that mean, (4:38). what happened to the other 5%, did they ..?

K- We allow 5%, statistically it's about 97 people out of 100 survive.

R- So that would mean 97 out of 100 that are already in pretty serious condition in the hospital?

K- In any condition, yes. The people who did this. There is a list of the patients, who they are, what they have been through. The 155 , the details have been given to the statistician, and they have come up with the figure after analyzing.

As a KS you have seen many parts of it, we had to put in this report as people who don't know nothing, (starting) from zero, to the point of conversion of the disease. The university wanted 2 halves, one to do with the Gans's and one to do with the illnesses, but have one after the other to be published. This way we kept everything together. You get a Corona, open the book, see what signs it is, we update all the time, what you have to do. (4:40). Any other question?

With this journal , with this publication everything how to do.
if in the future there is no one around to.

If there is no other question we'll close this session. Please send this around the world, the way it has to be, governments, officials, ...

R- Wonderful thank you, and congratulations.

K- You should thank the head of KF, she has been working day and night to get this done.

R- Yes, congratulation to Ella, definitely. (4:42).

K- We'll see where we can go with this ..

Your governments can ask questions directly to ..

(4:44).

(4:46).

K- .. we have to go as fast as we can .. how many lives to save. .

Teaching of the Soul of Solid Matter

KEY-PHRASES:

Celebrate the 3rd anniversary of Universal Council, They present their vision for future, Today we teach the Soul of the Matter, We need to carry animals and solid matter like stones into space with us, My job is to complete transportation, transmutation, and communication of human race into space by 21-3-21, The soul of solid state - it's an atom - an atom is a dynamic state it has to have a soul,

Need to translate paper on Coronavirus that was published last week into all languages, The peer review will be by people themselves who use it and confirm its validity and the document will be alive and continue to grow as more knowledge and experience is added, This means that no one can hijack the knowledge,

Universal Council makes their presentations, World Peace Treaty was signed on August 2/3, 2017, ...

As we hoped overall One Nation One Planet is taking shape, In September I hope to return to Iran and start the process of space flight - I have given the commitment to the Iranian nation - as they say all roads end up in Rome; so all roads of knowledge will end up in Iran,

There is one point we have to make very clear that is all this knowledge has to be used to for the elevation of all of living things on this planet and beyond, Those who break the code shall loose their soul which means their fields will be scattered throughout the Universe with no sing left of existence,

We'll bring in the ethos of universal marriage between man and other beings in the Universe, In the coming time there shall be no kingship and no leadership, New technology will make other visitors who were invisible to be visible - love them the way you love me,

Responsibilities of the Universal Council:

Raise the soul of the human race that it does not believe in anything but the Creator with no messengers in-between; Abolish the financial system so that wealth comes through knowledge; Be vigilant that no one can claim himself as anything but the servitude to mankind we have finished the prophets and prophecy; To bring, transfer, and translate the new knowledge so that all of humanity can fulfill their needs irrespective of culture, religious belief, or color, or nationality; Demolish borders on this planet; Not only man but other beings on this planet will also travel the Universe;

The future is bright and the time of transition will be short and sweet, I hope collectively the Universal Council will become as one soul that with it you make one soul of the human race - one soul of this planet- and one soul of the creation,

Questions:

Cup #4 Inertia is variable according to the position or the material which you want to produce, and only with the Fe N Coated (in Cup 5) in the center in shape of a coil is to be permanent and fixed,

By changing the fields in Cup 4 or Inertia Cup, you create the conditions to manifest what you want,

Q: If I put higher strength material in that Inertia Cup, does that carry more fields, that more is encompassed, so it's like an everything Cup?

K- Depends, compared to where and what you put more of, because you are not dealing with one Cup anymore, what you put in, in the Inertia Cup, will effect the soul in all levels.

The only common denominator is the Gravity Cup,

Q: What does Inertia mean?

K- Read physics book, Inertia is a MG field of the matter, of the atoms, collective atomic structure of the matters in that area.

K- In a way, you can build buildings with soul, as we put the foundation, you put the new Inertia.

K- .. The teaching is so deep, that as we explain more and more, you will understand what it means. It's not just to create the Inertia of the planet Earth, it's to create the Inertia of any position in the Universe,

This Inertia plate is one of the cornerstones of the teaching. You can create Inertia in the fields of the space,

You cannot get rid of Cup 4 and 5 - you are made of it,

Q: So you always have to have a gravitational field to interact with, and you always have to have some Inertia in order to manifest.

K- Of course, you create the environment, and a condition of the position.

What you imagine, you have to find the right field strengths of the fields

Teaching of the Cup of Soul of the Solid:

We have field forces which, their interaction dictates a new condition. We saw with what we call the vertical people, fixing of the fields in the center (flat N plate in center). We saw with the horizontal people the creation of the field that it can create motion (N coil in center). But this time there is no creation and there is no motion, (2:54). but the fields of the U have to gather in a form, that they can preserve the fields, which are created. In this process the soul has to sit in the center. And the surface, what we call manifestation, become the state of the physical manifestation. In fact, with the physical state of matter we stay solid on either end, but we create a condition of the soul, we create a condition of the soul for the state of the solid, but with the soul. I am here, I sit where I am, I don't need to move. I don't need to grow up, I stay fixed to my position. The Cup of Solid, the

Cup of Soul of the Solid, as was the Cup of the Vertical people and Horizontal people, will become the cornerstones of the creation of the elements of the physicality of the man, (2:56). or being in the Universe. Be it on Earth, be it on planet Zeus, or be it in the heart of the Creator.

Within the EU we have brought the 3 dimensions of horizontal, vertical and solid, all together. Where we can dictate everything, and in so many ways, we have repeated the process of creation,

Cup of Inertia is Like the Center of Sun >> Creates Planets:

R- So if the Inertia of this planet changes, will the same soul manifest itself as a different creature?

K- If you look in the depths of the ... if you look at the mono-energetic, mono-material systems like the stars, do they have creatures, do they create life? Does the fields of their strength leads to creation of other things? In a way, you have to open your eyes into something which is like this, we have the Inertia Cup and everything else, and the byproduct was this, whatever it could be. Now you have the Sun, the center of gravity, interacts with the matter state of its surface, and isn't its manifestation the Earth, Jupiter, Saturn and the rest? (3:08). Are we the residue of the Inertia, (of) the planet, or the star, and its G field, and with it, in transition, part of His souls depending on the point of manifestation

You see, change the Sun to the Center of the Universe, and look at the galaxies as the Inertia point, and then you see the manifestation of the stars and whatever else.

(?? so the G Cup is a copy of the center of Sun and then you have the I Cup and from it manifestation of physicality or planets and the rest, where does the soul and emotion fit in?)

Asking is the power of creation - not that it will fall in your lap by asking you create the knowledge of love and then it is a giving of your existence, , I want you to show me your beauty, that with seeing your beauty it makes, and elevates my soul to give more. And if that request is pure, it shall be answered yes, as by receiving you dedicate yourself to give more.

Careful What you Think -- Zoroaster

The Soul of the Universe will Elevate the Soul of the Man

Mankind will receive so much Love Knowledge from Universe - Enlightened

Let the game start, and see how much each individual will elevate his own soul to become part of the bigger but equal to the soul and knowledge of the Universal Community, The gates of heaven have opened - let's see who there is to cross and be enlightened.

SUMMARY:

ENGLISH TRANSCRIPTION:

(:06). ... Today we celebrate the 3rd anniversary of the Universal Council (UC), and the member of the UC will make their presentation, as they are an independent part of the KF, and they are kept that way deliberately, that they work as what we call, the logistic side of the F. Then this week we know there was some break up in the teaching part, we try to answer some questions in regards to the teaching of last week, if there was any misunderstanding. And then in the 2nd part, we enter the third part of the teaching, which completes what we call the Earth plasma field connections. We did the what you call the horizontal people, which includes the humans and animals - couple of weeks before. Last week we did the vertical people. And the 2 exist in conjunction with the matter state. Today we teach the Soul of the Matter, it is part of the Book 1, the completion of Book 1, and this allows us to move on, (:08). to carry the life of the humanity into the third dimension of the space travel. Which means we can create conditions in the spaceships, or for the Soul of the Man (STM), or in any shape of ?? our future transport, that we can not only carry the man, but the vegetation in the essence of their fields, but the entities, the stone, be it the stones, be it solid Cu, be it anything else. Because we need those, it does not matter where we land, we need to understand the field energy of the state of matter. This is the completion to the back of the book number 1.

In the future teachings we complete on the Book #2, the state of the transmission, and transportation of the light, which means plasma at high speed. That will teach us the upcoming speed of transportation, above the speed of light. We need to do that, and in a way to bring it into the line, how we carry the plasma of the matter, the plasma of the life, let's say human, and the plasma of the life of plants, then it allows us transportation, and transmutation of elements. We need to learn this to be ready for thousand times the speed of light. As the light is the structure of what we call the plasma, in transportation, then hopefully, somewhere about October November we reach the station ?? arriving at the plasma in the Universe and on a star system and the rest. As I said, (:10). my job is to complete transportation and transmutation, and communication of human race into space by 21-3-21. The promised date, where, hopefully, with the support of Iranian scientists and accumulation of other scientists, KF and outside, we start the structure and travel into space.

The knowledge in the last 3 weeks has been knowledge of the universe, and the creation. But it has been put in such a simple language that many can understand, that with it, mankind can even elevate the soul of the animals, and solid. If we go back to the writings of the promised ones, even a stone has a soul. Even a stone has a soul. So today we learn about the soul of solid state. It's an atom, an atom is a dynamic state, it has to have a soul. And in this process, as I said, the new knowledge into deep space travel, with life support with energy support, with dimensions of the transportation, transmutation that man has not known up to now. We move on to transmutation, and transportation. The speed of light by order of magnitude. So for example, Earth to Moon will be seconds,

milliseconds. This is needed if man is to ?? souls of the man, in his creation on this planet, to introduce themselves, and they bring in, (:12). the celebration of the 3rd year of the UC, and hopefully by the next time they report they'll truly report as a UC as a Universe, not on the level of human. We hope we can fulfill this, as you have seen, we have brought the new knowledge in very rapidly.

This new knowledge is already getting used, in some cases, and at the same, as we publish the paper on Corona last week, many of you would like to translate it. Documents version of this, for those who we know and trust will be given for translation to any languages. The Portuguese has been forwarded to Rafael, for the Farsi language has gone to Iran, In Iran it will be published as a book, and becomes part of the structure of the plasma T as a scientific approach to all viruses, and especially Corona. On the other hand we have achieved many new results with Corona, and it will be added to the Plasma Times as it is. The Plasma Times Coronavirus, which was published last week in Iran, will stay as a dynamic journal, which means everything discovered, added, noticed will be added to it. So it doesn't stay the structure it is today. We will add to it. There are new discoveries in the past 7 days, new tests which has done and completed by different groups. (:14).

We add a peer review to this paper, which means those of you who have tested it will put your testimonials at the end of it. .. so the scientists around the world who read it, so they can see the peer reviewing by individual persons. Not in a way, peer review, testing the validity of the text and confirming what they did, and how they achieved. We'll put in the name, the address, the email, that their review can be complete. And then you put your comments and then you might suggest a better way to do it, how you did it slightly different, we don't expect copycat ...

the new style of non-peer review articles
means no one can hijack ..
write it in your own language, put your feeling and emotion in it.

(:16).

(:20). We will announce next Thursday the presentation of the Enhancement Unit. ..

(:22). no one will be able to enter the Eu as they are active

(:24).

.. We'll use the knowledge to bring peace to mankind .. The knowledge is free and stays free at the point of delivery as long as I live, and KF operation will stay the same. (:26). On the other hand it's time to let the UC to celebrate their birthday, and then after the interim break we'll go into the teaching part, and maybe we can take some questions that we can move .. Thank you very much and I hand everything to UC .. to present their vision of what the KF is and will be.

>>>>

Universal Council makes presentation for 3 year Anniversary.

(:28).

The World Peace Treaty was signed on August 2, 3, 2017, members signed on behalf of countries ..

(:30).

(:34). .. Now we know the peace and love was always in us and we can understand,

(:36). the Creator has created us all in His image. And we can see the form of that us based ...

in the universal knowledge all is crystal clear and explainable ...

we are learning how to be as energy in the universal form ... In India we call this energy as shakti, the power of all .. .

(:38).

end of UC presentation ...

(1:19). Mr. Keshe: Thank you for all your kind words and support ... Coincidentally or whatever, my birthday falls on the date of the establishment of the UC. (1:20). And this will be every year as we celebrate the start of a new cycle for man. What we seen today, is a point of maturity for the UC, where in the past 2 years what they have achieved, and this year they have started taking the structure for governance. And as we have seen the first sections have been divided in such a way to bring peace for mankind. When you read the 5 ethos's, or 5 texts, or sections they have chosen to serve the humanity covers more or less the totality of the need of the man. In that process you have entered a new process, a new era...

We see as we hoped, overall One Nation taking shape.

(1:22). as we enter the second cycle, and as we see more youth with the ethos, join the F. I hope by next year we'll see a different approach ..

In so many ways, I don't have a vision, I have a certainty. In so many ways, the conclusion of one brings ?? out of the other. We have seen massive change and evolution, and compared to last, near at a conjunction, never any us could imagine possible.

In September I hope to return to Iran and start the process of .. space flight. I have given the commitment to the Iranian nation, (1:24). as we consider Iran as part of One Nation, in that way it becomes your nation ... As they say, all roads end up in Rome, all roads of knowledge will end up in Iran. We bring the new T in line with all the scientists across this planet , and make Iran the center of science as it was some 2 - 300 years ago, and it was for centuries. I hope mankind will not look for wealth anymore, but look for peace and knowledge. As I said, ..

My vision for next year is far reaching you can ever imagine, as I know the T and the knowledge which will be delivered will change the course of mankind. The new EU we'll endeavor to show mankind things it is not used to ..

(1:26). .. We set out to elevate the STM,

(1:30). or as collective scientists as their part of the world. Or in conjunction with the others. KF as a whole has started a new cycle. The KF as a structure will change very little, now the structure is set by the UC, on the ethos and work of the F, to create wealth and knowledge, create condition for peace, and keeping mankind occupied with new knowledge so much that mankind finds now superiority in anything, but gaining of the knowledge. From now on the credibility will come out of knowledge and not out of wealth, as every man can make everything, and as much gold as he needs. In the coming EU we have setup to create gold as plenty as possible. We have setup to create silver, in beyond the imagination of the man, at the point of teaching. We have setup to create wealth of knowledge, if one sees that as one of the cornerstones of his creation.

Those who Break the Code will Loose Their Soul:

There is one point, and we have to clear one point, and that is all this knowledge has to be used to for the elevation of all of living things on this planet, and beyond. Those who break the code, shall loose their soul. (1:32). Those who break the ethos of peace shall loose their soul. Those who break the Universal Peace, shall loose their soul. What does the loosing of the soul mean? Means that all the fields of their soul will spread across the U, then there will be no sign of its existence. And it's a shame that such a thing can happen, to a soul which has taken so long to develop.

We'll bring in the ethos of universal marriage, which means it does not need no Church, no Mosque, and no signing of the paper. We'll show you the way of the ethos of the marriage be it by soul or physicality, which has been the rule of Universe for millions of years. As the men learns to engage himself in the understanding of the creation and the creator. We bring in new systems which allows man to decide the condition and position of his existence according to his satisfaction.

In the coming time there shall be no kingship and no leadership. In a way, the souls ?? with the servitude of the physicality and the soul, will dictate how much more they can serve. and how much more they can service will elevate other souls. In a way, those who serve become the sun, (1:34). that those serve and learn to serve, be radiated and learn to elevate themselves to new positions. .. the teaching will carry on, .. mankind has started learning the knowledge of the Universe. I congratulate the UC in stepping up to their position and fulfilling /..

The new T will bring those who have been invisible to the man, visible. And those who have been in the shape of the man but not understood by the man ..

Greet them and love them the way you love me, then the Universe will be at peace. Thank you very much for all your work, and through the real work of the UC begins as they learn how to handle the new ways

(1:36).

Responsibilities of the Universal Council:

Raise the soul of the human race that it does not believe in anything but the Creator, with no messengers in-between. ??his soul hasn't been elevated to understand the totality. It is the responsibility of the UC to bring new ways for man to change his knowledge, and effort, elevation of the soul of physicality of others, now that financial means which is operational today. This has to be abolished from mankind. The monetary system has been one of the greatest demise of the humanity. Wealth has to come through knowledge, not through structure of materials. It is the responsibility of the UC to be vigilant that no one can claim himself as anything but the servitude to mankind. We have finished the prophets and prophecy, there should never be any claim on this level on any part of this planet and in the Universe. This is the responsibility of UC that those who know more about science of creation do not manifest themselves, (1:38). as anything but member of the U Community and no more. It's the responsibility of the UC to bring, transfer, and translate the new knowledge, to bring all the humanity can fulfill the needs by the new knowledge, irrespective of culture, religious belief, or color, or nationality. The UC has to demolish borders on this planet, this is your job, as part of negotiation with the nations. The UC has to see the end of what I call, financial operation. The UC has to see the opening of the space unconditionally, and equally to all men, and the living creatures on this planet. Do not understand that man will be the only one who will elevate to travel. As you raise the soul of the creation on this planet, expect others to be the travelers too. The future is bright for humanity, and we have entered the final phase of unification of man and the U Community, and we start taking man out of this village of Earth, I ?? all your souls, and I hope it will be a safe journey for all of you. Time of transition will be sweet and short, (1:40). but at the same time mankind will reach a new level of understanding, that this new level will bring the operation of the soul, and not the physicality. Thank you very much and I wish you all the best in the coming time, to all the members of UC and I hope collectively you become as one soul, that with it you make one soul of the human race, one soul of this planet, and one soul of the creation. Thank you.

BREAK >>>

R- Are we due for a commercial break, as they say,

K- Shall we have a break. (1:42). Video of KF products. (1:49).

K- All the products you see on this video will be available in Austria ..

(1:50). We are endeavoring .. that visitors can take with them . 7 years and the rest.

We'll try to make available, if possible, hard copies of what we call the Paper we published last week.

We have limitation on people who can attend this .. If the

Going back to the teaching, we try to recap. Those who have the questions to ask first, to cover ambiguities ...

Questions:

J- In regards to the U Community, I consider myself a Universal Council support member, (1:52). the work we are doing in AZ is part of the F work, .. time will be more and more a resource for people to support. .. I want to go back to last weeks teaching. I was a little confused. I want to focus on Cup #4, 4 is what you called, Inertia we have N Cu in 3 different configurations within the Cup ..

K- Cup #4 Inertia is variable according to the position or the material which you want to produce, and only with the Fe N Coated in the center in shape of a coil, to be permanent and fixed. Inertia according to different position, and according to central field forces of the matter state layer is dictated by the matter field. And this is where the difference comes with the G and M field, which you call Cup #5. So the Inertia, depending if you want to create a condition, (1:54). for producing watermelon, or you want to produce a condition to create apple, will change. It's the variable that exists, It's the same, when we showed the Inertia in the animal kingdom Cups, where you want to create a condition for the fish, or for a lion in Africa, you have to change the Inertia. The Inertia plate or Cup is the only part which will be staying variable, more or less. So you have to decide what field gravity you need. You cannot grow, let's say, a date tree, a palm, in the north pole, and you cannot grow, whatever you grow in the highest points of the mountain, in the valleys. This is what you got to consider and the field forces which create that Inertia. If you want to produce a Dill or Coriander, you use a different Inertia then when you want to produce a potato. And there is another point, which has to be understood, we draw the pictures for the simplicity, for the schematic. (1:56). When you have the condition of let's say, combination field forces, if you look at (from) the top, your Fe stays the same, you have a Zn and Cu, sorry your Cu stays the same, you have a Zn and Cu, here you might have Mg, here you might put Ca. That it allows you, let's say, to grow a cauliflower. If you want to grow an apple you remove this, and you put what is needed to create an apple condition environment. So the teaching has to be understood in its totality, not in its individual cases. Or the point of need.

Q: .. my question ..

(1:58). .. if I put higher strength material in that Inertia Cup, does that carry more fields, that more is encompassed, so it's like an everything Cup?

K- Depends, compared to where and what you put more of, because you are not dealing with one Cup anymore, what you put in, in the Inertia Cup, will effect the soul in all levels. If you put your Inertia Cup ... in a position of a different combination of Cups, according what you are expecting as a fruit, or are you expecting a herb. At the same time when you put your Inertia Cup with an animal, what are you expecting in the soul of the cow, or the man? And what is your expectation in respect to (2:00). STP and the physical life. The game is not anymore one, because the field created will go through all. And as you merge the man and the beast together, the interaction becomes more complicated. We are out of looking at one Cup, we are now looking at the totality. In every essence what does this give, together, does it give us an apple, or does it give us a herb. Does this collection (?? connection) give us an animal, or man, a fish, or a bird. In so many ways, when we go deeper and we understand more, would this soul, would this soul, will allow the field flow of manifestation of the creation and creator of, what we call, different entities? (2:02). The only common denominator in all your work, is here (gravity Cup). Because the G field of the planet cannot change. But the rest is dynamic by field flow,

even from here to here, by passing the center one. And how you want to see it. Do you see Inertia of a desert here, and you see Inertia of a North Pole here. This Inertia, what does it create that your animals in N Pole cannot receive the emotion and soul of it. And how many conditions have you considered in this (gravity Cup)? And how simple have you made this (Cup of Inertia), don't forget the MG field of the Earth is a combination M field, that's why we have matters, different matter, as if it would have been mono, it still would have been a different ball game.

J- thank you for that, it was helpful.

K- I know, I know what you are looking for John. (2:04). After 4 or 5 years I have got to know your way of thinking. Thank you very much.

Any other question? (2:06).

(question confused goes to 2:12) Q: in Cup Inertia we put the ocean .. the 5th ??

K- What, can you repeat .

Q: ...

K- What do you mean? (2:08).

Q: in Cup 4 you have ocean water, you have all the fields of this planet .. 5th Cup ???

K- I don't understand what you are trying to tell us ..

Q:

K- Cup 4 is Inertia, 5 is G field.

Q: (2:10). ...

Q: what decides what I need

.. (2:12).

Any other question?

Q; Marinath ... the creation of beings .. change their evolution on this planet . (2:14). what is the use of it. It doesn't pass the evolution time on this planet. like human beings start as small being... create by fields of Zn and Cu ...???

K- I don't understand

Q: with the Cups we are creating, animals vegetables. ???

K- You see some of you with the Cups you make you create new conditions. You create new conditions for new souls, new creatures, a new plant, a new vegetation. Now if you change. As now a days, say we have a red and white rose, and we mix them that we get a red and white, or genetically we change them that white sits in the middle of red, or whatever. Now with this new knowledge man has the ability to create, (2:16). New dimensions, even new beings, being plants, or an animal, even with the new T we'll show later on today, you can create new materials, give them shape, create application for them. Now once you understand this.

Q: I can see the result effect of the fields on me, materials, and things like that. but creating a matter being I think I need something else ..?? I think we have to have a lot of ethics to control it, it might be another ?? thing Are we ethical enough not to pass the boundaries of, "good of everybody?" or do we become again, (2:18). who think of what they want without respect of the whole thing? Maybe I understand later ..

R- You can look at the mandate of UC it's quite clear, how to proceed that way.

Q: **What does Inertia mean?** .. So we use 2 combination for the 5 Cups.

K- What do you mean?

Q: (2:20). Q: What does Inertia means , is it a balance of a fields, and then you draw, like you have different shades of Inertia. I am little bit confused about Inertia?

K- Read physics book, Inertia is a MG field of the matter, of the atoms, collective atomic structure of the matters in that area.

Q: And the G becomes like zero, or ?

K- No, no, it's the combination of the both.

Q: .. and different combinations we will create different things. That means also if we can do this with the Cups, we'll be able to do this with the soul level. So it will come to a point where we'll be able to do this, for example, visualize something, attract the fields of it, and materialize them as well? (2:22). We are going to get to that point, because as you showed in the past, what we can do with a Cup, we can then do without a Cup, because the Cups are just crutches, so we will reach the point where our knowledge will be, give us possibility to enter different dimensions where we will start to do things ... imagine a building they never built before... we'll enter into a different way of how the world will look like. Like we are we going to have houses that have never been seen before, because we'll be able to materialize them as we need. We'll be able to visualize something and make it happen?

K- In a way, **you can build buildings with soul**, as we put the foundation, you put the new Inertia. Yeah? So as you enter different areas, you can build using the Inertia field of Inertia to create conditions that allows you, to create different, what I call, in a way, now, (2:24). mankind has the ability, even by creating the Inertia conditions, that you might understand now why, and how I explained that I create a fish tank, that all creations according to what we want will manifest themselves for a given environment that man might like. This Inertial plate is part of that space T for manifestation, creating conditions, that entities of the other part of the U can manifest themselves on this planet. **The teaching is so deep**, that as we explain more and more, you will understand what it means. It's not just to create the Inertia of the planet Earth, it's to create the Inertia of any position in the U. That above it, you can create and see how man will react, how the creatures of other planets will manifest themselves in the true color of themselves, not when they manifested themselves in the shape of the man.

This Inertia plate is one of the cornerstones of the teaching. You can create Inertia in the fields of the space, that you can see what creatures exist in the between planetary systems, in-between galaxies. Nowhere in the U is devoid of life and creation. If you believe in that, that ?? race, as we say in Arabic, _____, God forbid. (2:26). Means you have limited the knowledge of the Creator. You have limited the understanding of the fields of the creation. This Inertia plate gives you the source at the point of manifestation. In the future we'll teach more, in the future we bring the elevation of the understanding.

Q; Wow, so it goes as far as our knowledge is ?

K- The man will take from these teachings according to his understanding and intellect, and no more. The detachment will bring the freedom of knowledge, the freedom of love, and the freedom of giving. ... (2:28).

Q: .. you've already answered part of it. Okay, I have the 5 Cups, once I link soul to soul to the structure, what if I get rid of Cup 5 and 4, completely, just detach form those?

K- You cannot, you **cannot. You are made of it.** Your creation depends on it, If they don't exist, you don't exist.

Q: Even the gravity, I can't detach from the gravity of this planet ?

K- It's a, you see this is a general teaching. You cannot escape, you can escape from the gravity of this planet, but you are in the space, you still connected to the G field force of the center of Universe. .. It's a openness of understanding, as I told you, you only see according to your, what I call, intelligence of the knowledge.

Q: So you **always have to have a gravitational field to interact** with, and you always have to **have some Inertia in order to manifest.**

K- Of course, you create the environment, and a condition of the position.

Q: So by, I guess it's beyond my level to start changing Cup 4 and 5?

K- Why? Who says? Why do you put limitations on your understanding.

Q: Just checking.

K- No need to check. The only thing is to become confident. (2:30).

You see, we don't tell you understand this much of it, we teach so open, and in an open manner, that your imagination will take you where your understanding takes you, What you can imagine with this new T, you can comprehend. There is no end to imagination, as there is no end to the creation of the Creator. **What you imagine, you have to find the right field strengths of the fields.** The right correction and you can manifest.

As I said, the head of the KF as she is writing the part about the creation of life, the soul in the Book #9, it's part of her teaching to explain this. How original ?? mean condition is created, how she envisages it. As I said, the writings of the other beautiful soul, Wang Lyn, is to do with the collectiveness of the souls. (2:32). One begins and one structures, and in that process mankind will become mature, then you see both extremes one the beginning, and one with collective interaction, and then you understand the totality, somewhere in-between where it applies to you.

Q: Is it possible to reverse aging through the plasma T to achieve everlasting life? (2:34).

K- Yes, ... but the beauty of existence is aging it, it shows its maturity. What you feel inside counts. what you feel in the soul. My biggest question is why man is afraid of shape outside changing.

R- I suppose we'd be down to 2 cells ..

K- ?? age brings a sign of maturity.

R- (2:36).

Q:

K-

Q:

K-

(2:38).

K- You have to understand, you have to start manipulating and testing. In the coming time, as the new organization

(2:40).

(2:44).

Ella: the more you try the more you ?? The more one is challenged to try and test .. the fear stops us from moving forward ... (2:46).

K- How do you see the creation of the soul, now we understand the power of Inertia and the gravity? How as you are writing the book, how do you see, how can we explain this teaching in the book, how ?

E: At the moment I don't think I can explain .

K-

E- I would not go into this right now.

K- WL what do you see ?

WL- I think this is really beautiful .. you really open a Pandora's Box, for humans to try to create .. (2:48).

Planet Earth was a child ..

K- So we had a test run on Earth .. and now we go mass production in Universe.

WL- this is more interesting ..

The Creator is not alone, he has millions and billions now to create with Him ..

.. more like to expanding the creation. (2:50).

K- But when do you think this expansion will end?

WL- No end, this work is no start, and no end. Because at the beginning the Creator, if there is only one Creator, He is too lonely, He cannot know Himself, He cannot see Himself, feel Himself. So He had to create 2, create the separation to, like ... ??? to separate part of himself, to manifest as the humanity and use that humanity to know who He is, and who , where and what He. And then during this creation He let ?? all understand that they come from the Creator. They are the Creator themselves, and that ?? the Creator to successfully repeat Himself, to create more Creators, and now this Universe became more interesting to play.

K- So we have entered the game of reproduction, do you think?

WL- The reproduction of the Creator, I think that is the most interesting part, from what you teach and what I understand now. (2:52).

K- We gradually hear the voices of the 2 heads of the KF, and the 2 souls which will be responsible for the elevation of the man, as they start learning how to teach the new knowledge their way, and they add to it in their time.

Teaching of the Cup of Soul of the Solid:

If you go back to the teaching. As we seen, they interaction of the field forces of the planet, in its inner sanctum, and the interaction of the fields of the layers of the planet, and matter states of it, in the field strength. We have field forces which, their interaction dictates a new condition. We saw with what we call the vertical people, fixing of the fields in the center (flat N plate in center). We saw with the horizontal people the creation of the field that it can create motion (N coil in center). But this time there is no creation and there is no motion, (2:54). but the fields of the U have to gather in a form, that they can preserve the fields, which are created. In this process the soul has to sit in the center.

And the surface, what we call manifestation, become the state of the physical manifestation. In fact, with the physical state of matter we stay solid on either end, but we create a condition of the soul, we create a condition of the soul for the state of the solid, but with the soul. I am here, I sit where I am, I don't need to move. I don't need to grow up, I stay fixed to my position. The Cup of Solid, the Cup of Soul of the Solid, as was the Cup of the Vertical people and the Horizontal people, will become the cornerstones of the creation of the elements of the physicality of the man, (2:56). or being in the Universe, be it on Earth, be it on planet Zeus, or be it in the heart of the Creator.

So simple. So simple is the life of the existence in the world of creation. When you enter the universal systems EU, you will see this. With differences that you do not understand for the time being. Now you understand how advanced the science and T of the EU are. There is a lot to learn, there is much, much more to learn. In time we teach you. (2:58). In time mankind will understand that within the EU we have brought the 3 dimensions of horizontal, vertical and solid, all together. Where we can dictate everything, and in so many ways, we have repeated the process of creation, but as I said, a master never shows all his hand.

(3:00).

Q: the plant soul is below the earth's surface. must be more humble to be fed., does this give us a hint to what field strength our souls must be, (3:02) to create the Cup of the Plant correctly, we have AA in the air above the ground let's say 43, so what is the next value in the layer below the dirt?

K- Dig it, analyze it and you will know.

Cup of Inertia is Like the Center of Sun >> Creates Planets>>

Q: Mr. Keshe just said that by changing the material inside the 4th Cup, the Inertia Cup we can create different vegetables, or say, life. Does this mean that the soul of all the creatures on this planet are all the same, (3:06). if the Inertia of this planet changes, the same soul will manifest itself as a different soul?

R- So if the Inertia of this planet changes, will the same soul manifest itself as a different creature?

K- If you look in the depths of the ... if you look at the mono-energetic, mono-material systems like the stars, do they have creatures, do they create life? Does the fields of their strength leads to creation of other things? In a way, you have to open your eyes into something which is like this, we have the Inertia Cup and everything else, and the byproduct was this, whatever it could be. Now you have the Sun, the center of gravity, interacts with the matter state of its surface, and isn't its manifestation the Earth, Jupiter, Saturn and the rest? (3:08). Are we the residue of the Inertia, of the planet, or the star, and its G field, and with it, in transition, part of his souls, depending on the point of manifestation.

(Silence)

You see, change the Sun to the Center of the Universe, and look at the galaxies as the Inertia point, and then you see the manifestation of the stars and whatever else.

(?? so the G Cup is a copy of the center of Sun and then you have the I Cup and from it manifestation of physicality or planets and the rest, where does the soul and emotion fit in?)

Asking is the Power of Creation:

This is why. (3:10). This is why when you understand, you don't need to remember. This is why when you comprehend the knowledge, the wisdom of creation becomes easy. The only criterion in the whole of this, is to ask. To ask for what you want, and if the asking is pure you shall receive. Ask what you want to create. You want to create the most beautiful flower. In understanding the process of creation, you'll be given, because you'll be given the knowledge to create it. Not that it will fall in your lap. By asking you create the knowledge of love, then it is a giving of your existence. If you go back to all the teachings I have done over the years, I always say, and I repeat again, (3:12). you ask, I want you to show me your beauty, that with seeing your beauty it makes, and elevates my soul to give more. And if that request is pure, it shall be answered yes, as by receiving you dedicate yourself to give more. That's why when you ask in that manner, for my pleasure to be able to elevate, you'll be given what you ask. Because the souls will decide in the process of creation of that love, and that giving. When the Creator creates that condition, the interaction of the fields of the U create that entity for Him to be able to give more. And that is one of the reasons and cornerstones of the expansion of the Unicose. The love of giving, to be able to give more. "I made you to have children, that they may love Me," is in the holy books. As I receive more from what you have created, that I can create more with the love I receive. (3:14). The knowledge is beautiful when the man understands its totality.
(silence ..) (3:16).

Now we understand, hopefully the totality of the ____ And now we understand how we will elevate our own understanding, and in so many ways, we will understand the totality of it. Maybe in the future mankind will come to understand the total process of creation, of being created, and becoming part of the Creator in the process of creation. (3:18). Maybe, maybe as the man's intelligence grows, and expands, mankind will become aware of his total existence. It is very, very hard that mankind will become mature in the process of understanding, to understand the creation, to understand the love of the Creator, to understand life is sweet, if man understand the sweetness of his existence. Life is part of the process of creation, and in process of creating mankind will understand the love and the patience of the Creator. Mankind will come to be part of, (3:20). in total understanding of what the Creator goes through, that in time when the man becomes the creator, he becomes just, he becomes the point of love and point of understanding, and maybe one day man will create as the Creator said, in the image of himself, those who carry the ethos of Him, of the understanding of Him, the process of creation of Him. And maybe then man understands one point, (silence ..) (3:23).
Any other question?

Careful What you Think -- Zoroaster:

Q: can we manifest by thought, we have to be careful what we think or not think at all until it is necessary?

K- Now we understand the teaching of Zoroaster, (3:24). think good, do good, and act good, which means everything has to be perfect from the beginning. Intention, emotion, and action have to be the same. This is what, if you go back to the beginning of the teachings, I always said, if you stand in front of the man from the deep of space, with the knowledge of reading your soul, you are nickered.

The Soul of the Universe will Elevate the Soul of the Man:

(3:26). The position of the creation from the point of view of the man is unfortunately is very simple. In time mankind. In time humanity will mature. In time mankind will become so kind, that the kindness of man will bring the kindness from the Creator, then mankind will understand what, and why he was born, to trigger the love of Creator, to become the creation of the Creator. (3:28). In so many ways, mankind has to mature to this point. Mankind has to become part of the structure of the creation and the Creator, not in the term of physicality, but in the term of the soul. Let's see now with this knowledge where the mankind goes. And where does the Soul of the Universe will come in to elevate the STM. At this moment in time the STM is weak, as has been the tradition, by the work of the plasma, the strongest which is the universal fields, from the Universal Community, will rapidly now that it has found and targeted the STM will elevate the soul of the mankind and this planet, (3:30). for it to become equal to the Creator, and this is why I promised when I take mankind to space, I'll take him as equal.

Mankind will receive so much Love Knowledge from Universe - Enlightened:

This is the process. This is the process of creation and the work of the plasma, You brought the love of Creator to the STM, and now it has found a match with the U Community. From now on the mankind will receive so much, that he will not even recognize himself as a man, and he'll be swamped by the kindness of the love of the Universe. As we said, birds fly with birds, and foxes with foxes, and deer with deer. Now that we have set the seed, and cultivated the seed of the Universal Community in knowledge in the STM, and the knowledge of the Soul of his Physicality, we have created a dimension and direction for the Soul of the Universe to enhance and reach the STM. It does not need to do much, when you know how to work it ?? We'll shower man with the knowledge from the U Community, that man will forget his physical dimension. All I needed to do was to sow the seed of the Universal Knowledge in the past weeks, in the soul and knowledge of the humanity. (3:32). Now the process starts enriching and fulfilling to bring it into the balance with the rest of the Knowledge of the Universe. As I said, I am the Creator, and I know how to create. I know how to bring the Soul of the Universe to love the STM, and with it elevates his soul and knowledge. As we say, let the game start, and see how much each individual will elevate his own soul to become part of. The bigger but equal to the soul and knowledge of the Universal Community, the gates of heaven have opened, let's see who there is to cross and be enlightened. Thank you for teaching today.

I wish the UC a good year. Bless the souls of the 2 heads of the KF and the souls they will bring to us, and to all the Knowledge Seekers, that through their teaching through their soul (3:34).

R- Thank you for today's teaching

Introduction of Cup of Soul of Liquid and Gases

Horizontal plate technology

KEY-PHRASES:

The KF will work together with Iranian Defense University on the flight systems, Support for the KF Holland was original and largest KF group, Enhancement Unit (EU) exhibition in Linz, Austria September 3rd, In the EU we'll use the real MaGrav unit for unlimited power supply, Introducing new flight systems which use plasma not electric current, Zero-Time communication by releasing new 3 dimensional Gans technology for computer systems, Space travel system control through the emotion, feeling, to the soul of the system, After September the price increases to 1 million Euro,

Teachings:

There are 3 basic systems - in horizontal people the Nano plate is to the side; in vertical people it's in the middle, in solid state the Nano plates are on both sides. There is a 4th state which is a state of liquid, as liquids convert to gases it is a combination state of both,

Where is the soul of the liquid? Where is the confirmation of existence of the fields of the planet, which leads to creation of this liquid? We need bring the understanding of the all 3 states together to be able to understand how to create the soul - a field conversion of the liquid and gases with no physical dimension - this brings a new phenomenon into the work of understanding the systems,

The soul of horizontal people is on top, vertical people at position of Cup 3, and the soul of the solid is at Cup 2.

The liquid and gaseous state have an Inertia effect, and they also carry a soul effect, because they can change for gas to liquid, and liquid to gas, and in some cases to the state of matter in the same position. We need a new setup, new understanding for liquids.

Since the liquid state have no state of matter it becomes the play of dynamic Gans, which can only be a mixture of CO₂ and CH₃. In this (5 Cup) system you still have the property

of the Inertia (Inertia Cup), and the MG field forces (Gravity Cup), the same as the other (5 Cup) systems.

In this system, it still has the soul in Cup 1 in dynamic spherical shape, for conversion of energy. You cannot use solid Nano materials inside it, as it has no manifestation of system, but you can still dictate the conditions of creation, which is the Cu and Zn, which gave you a Nano coated structure. You still follow the same process as with the solid matter, but this time the center is filled with the liquid Gans of CH₃ and CO₂, There is nothing in positions 2 and 3, the direction of flow of the system will create field forces to be set back and this opens up a new structure for work, Now for the first time we mix the Nano technology and the Gans technology together in combination for creation of the new materials and new conditions,

In the exhibition center in Linz in September by the KF team - will allow the transfer of the fields within the structure through the body of the man. And this will add to our knowledge in new ways,

In the coming time, we can replace the bottom (Cup), or what we call, MG field of the system, with a dynamic system, but a different mixture. This mixture we'll let you have, exactly what should be, in the coming time, when we introduce the communication line, and the structure of the communication between the 2 points. The we will use this technology for zero-time communication across the planet,

We'll join up with the upper atmosphere with matter state MG field sense of the center of planet and with this we cover the totality (of the planet). We'll use this in the future for the elevation of the soul of the human race, feeding of the human race, understanding and nurturing the planet world, and plants, and in so many ways, to feed those who work and live within the liquid state. In this liquid state in the space, can be a fish, or can be animals, which do not feed, but use the MG field of the universe and planet, This is rapid way to meet our commitments by March 21, 2021, so that we will all be able to eat, to reach condition of what man needs, for the point of survival as a liquid, as a human race uses water, all will be fulfilled.

If mankind understands this setup it will be the end of many things, there will be no more droughts, fresh clean water will be available at the point of demand, in a condition that man doesn't need to drink, but only takes the MG fields of the system to replenish the liquids of water in his body. I will change the course of humanity in one swing in the coming time, that man will never be dependent on anything in the Universe except his own knowledge and understanding of the totality of the knowledge of the creation.

Mr. Keshe clarified that all the systems are made of 5 Cups, but that in the new liquid/gas system, Cups 2 and 3, can be left empty. It is up to you to decide how to get the fields flowing.

This system is not just for Earth but is Universal, Fields that are liquid on Earth may be gas in other parts of the Universe,

KF will not create its own Church, but if invited in by other Churches can bring the Cup of Life to them,

Q: .. with CH3 it was previously not advised to use due to Corona, How do we do CH3. special procedures or is it okay now?

K- We introduce it this way in a Cup as, it will become part of the structure, and it is not for consumption.

Was asked how to build the new system ..

K- You have to remember that you have to connect these systems together, you have to find a way that the Gans in the system are connected to the plates and the rest of the system. Or you leave it to be done by itself. In a way you let the fields to connect. You connect the 2 side plates and you allow the units, the bowls, themselves to interact with the fields of the system. Or you decide to connect it directly in.

K- You fill up the core (Cup) with it.

Q: So you make a CO2 and CH3 and add it (to the Cup)?

K- yes, yeah

Q: .. on the screen, you say positions 2 and 3 you say are empty Cups, I didn't understand what that meant?

K- It doesn't need to be empty Cup, you leave an empty space. If you want to produce Gans's you put #2, if you want to produce liquids, you put a Cup in place #3. And then you decide what gases or what liquids is created by what materials, or which materials, or by the condition of the Inertia, because in the liquid and gas state, the condition of the interaction with the MG field will dictate the liquid, what it will be.

Horizontal Plate Technology:

There is a T, which we taught initially years ago and has been forgotten, what we call the horizontal plates, the horizontal plates was taught years ago. With most of the material you created you put the plates in this position (vertical). with the gaseous plates you can position your plates this way (horizontal). This was taught years ago. Where you decide by changing, how you change your position, with the what you call the liquid condition, is about the same, but with a liquid condition you have a 3 layer, and at this moment you can use those in these areas

The horizontal plate system, maybe if you haven't heard about it, is to be used for gaseous and liquid state. If you look at the Chinese flight system, we created the dynamic structure of this, very clearly, by dictating the Inertia, you can dictate the gas, and the condition you want to achieve it, in the liquid gas, or in a solid gas, or in a gas, what you call, non-dimension.

Production of water,

If you have, ... you make a space hole gap in your system, and then you see what effects you get.

Q: Does this space hole gap allow certain energies to come in, where as the position of your plates block from other directions.

K- Yes, because when you have a position space gap, you have corrugated, what do you call it? very much like corrugated paper, very much like the sheets with the holes stamped on it. if you put that on the base, or the top, or you put that on the base, if you can make it with a dynamic structure then you see, you create a flow of liquid. If you put it on the top, you create a flow of gases.

Q: ... (1:28). .. on this planet, our home planet is the Earth, and we're linked to this earth through the salts, and our body, the liquid planet and they connect us, so these Cups they're produced in the physical matter state, could we, would we then travel by using just taking the salts in physicality, a pinch of salt with us to connect us to the planet to be able to move freely? Or would the soul, do we have a signature as a soul based on this planet? ..

K- One of the best ways to cover both, is the use of human blood, if you understand it, it's both the liquid, it carries the salt, it's still partially AA, and partially in gaseous state. .. The best state of this, is to use the system of producing hemoglobin. Because human hemoglobin has a fingerprint of the Earth, because it's created by the interaction of the field of the Earth

When the planet blows up what happens to the souls?

The fingerprint of Earth is unique and cannot be replicated in the Universe.

New computers controlled by thoughts, We showed Gans computers years ago, but nobody understood so we put them away,

K- Not really but we go as a energy field, not as a matter or a Gans field. .. in a bigger dimension, the stars are this Nano points. If you look at it, these planets are these Pico points. (2:00). In a way we are changing the knowledge into universal knowledge. .. you will see the change, what you call Pico or Nano.. if you take the cosmic dust, how far below do you go? Now maybe you can see a micro in Macro. and how do the stars communicate. how do they interact

Q: It seems the Pico state was always present but we have no instruments to see it. As we go finer and finer, is this process, although only a transition, still a valid way to help us to the soul, and ultimately to the Creator?

K- We are not looking at a matter Pico, we are looking at a field interaction. Does the fields of our soul, reaches the fields of the Creator? That's the question. This is why I keep on saying, look at the fields not the matter state, you are still looking at the Gans, but where do the fields of the Gans go? Where do the fields of the STM go?

Salts forming in Cups

K- These Cups where you collect the salt, these salts are composition of all, the what we call, the Gans's, So if you understand your salt is not mono salt, it's a Gans salt of the all the materials you have. In the Cup of Man you have that position. When you make a Cup

of horizontal people and you get a salt, on the soul level, now you understand the strength of the matter state of the salt. There is a lot to learn.

The KF team is now embedded in one of the most important hospitals in Iran, Corrupt leaders will get jail sentences,

Q; .. when we the CuO and CO2 Gans inside our laboratory we can't cultivate the COVID virus, why?

K- This was done in, by Ayatollah University research labs and they, the existence of the fields showed, they never had such a clean lab of viruses. And this is due to the effect of the strength of the Cu and CO2 and the dynamic flow of the fields.

And the authorities have taken steps, and most probably these people will receive long prison sentences for coercion, and the death of many people by not allowing the T to come out. And as you heard on the BBC in the last 48 hours, many of these people, working with outside forces have been captured. And soon all these blockages in Iran will be opened up.

Ribs are an example of horizontal plates in the human body,
What we call, the spine and horizontal ribs, create a condition where gases can be handled, and the liquids of the heart can be handled.

Something about the Russian vaccine, it's not an answer, UAE of 100 men tested all had no sperm count, or sterile.

.. KFSSI on the work of the Iranian Defense University will come in and we collaborate with other governments to bring the flight system. ..

(:08).

Back the Dutch KF KS .. we support them.

Do we have the member of the KF Holland here to on us? (:10).

(:18). KF will hold the Enhancement Unit exhibition at Linz, in Austria... 3rd September

(:20).

Exhibition in Linz, for Enhancement Unit (EU).

(:22). From this exhibition we move rapidly to Tehran for the space development.

(:24).

the upcoming space development and space T of KF.

In so many ways, we show for the first time the power of KF space T, up to space unit. In the EU we'll show the real MaGrav Unit, unlimited power supply T. We have gone to the extent to use part of the T in the EU, what has eluded you as a power supply MaGrav unit. this T will be used intensely in this system, as a ?? which means we open.

We open at the same time the energy of the EU, and introducing new systems, flight systems which uses a plasma, (rather) then electric current. Heating system which uses plasma then electric current plasma, what we call heaters, and the rest of it. A total new T and foundation for a new cycle, what we call, (:26). wireless systems will be brought in to the following exhibition ?/ initially the power supply has been developed and used in this EU. .. we gave you the MaGrav units, none of you could bring it to power, the way it was supposed to, for the first time it used in this systems, and will be utilized as a plasma power unit, not as a electric current unit, and there is way, we'll teach you in the future a way to convert, some of you might already know, be able to convert plasma current of high voltages to electric current, which doesn't take much, it costs a few cents. .. we'll collaborate with all the national government to implement for Corona ... China will take their own step to .. work .. for production of new materials, and new systems.

There is one indication that the KF will move into in the coming weeks, (:28). into Zero-Time communication needed for space travel, which means upon my arrival in Iran in conjunction with Iranian scientists, we will release the new .. 3 dimensional Gans technology for computer systems. Which enhances, what we call, everything in present computers to peanuts. The power of T is instantaneous and the storage is unlimited. We can replace all the T which was developed in the past, and will be given as a gift to the Iranian nation, and through the Iran National Defense University we'll bring it to public. This is needed and has to be done as part of the space T development. We cannot travel into space without this new computer system, or system control through what we call, the emotion and the enhancement of the feeling, and the soul of the system. As I said, all facilities are getting setup for us to take this step. As it comes with the exhibition a lot of new things...

After September the price increases to 1 million Euro.

(:30).

Teachings:

K- Coming to the teachings, in the past days, past 3 - 4 weeks as we taught step by step. Every aspects of the T in respect to the animal kingdom, the vertical people, and the state of matters. Many of you are confused, many of you have a problem in how to setup, .. in what goes where, as some was distorted during the teaching, as some were put back in as part of the teaching, in so many ways, by different KS. What we need to do is understand

the totality of the T, in how things came in ... In the teaching of the past we spoke about the vertical people, horizontal p, the solid state, or what we call, the matter state. In the initial teaching, (:32). there were 3 clear points, and through the understanding of the .. systems. ... if you take the vertical P, and Horizontal P and matter state. There is a 4th state which we have never discussed. In the matter state, we placed a solid on the side. In the vegetation or vertical P we put it in the middle, in the solid state matter we put on both sides. There is a 4th state which is a state of liquid, which is a state of the gas and the liquid as a combination of the gases convert to liquid. Where is the soul of the liquid? (:34). Where is the confirmation of existence of the fields of the planet, which leads to creation of this liquid?

In so many ways, we need bring the understanding of the all 3 states together to be able to understand how to create the soul, a field conversion of the liquid. .. and gases. .. no physical dimension, this brings a new phenomenon into the work of understanding the systems. With the matter state we always worked in a very simple, we put the.. We have to understand, the system have to work. In understanding of totality of MG fields of the planet, the understanding of .. (:36). of the 3 GM fields, the Inertia, and the soul of what we call, the system, be it the vertical, be it horizontal, or be it as a solid. Some of you could not grasp the whole concept of the setup, and many of you ran into problems. In so many ways, you started working on, the structure of the vertical, the horizontal people in a unusual way, which will not create what you were expecting, What this means is we gave you, the MG field of the planet, we gave you what we call Inertia, we gave the understanding of the physical matter, we gave the understanding of the soul of the matter, then we gave you the soul of the entity. (:38).

The Position of the Souls;

In the human or vertical people we put the system on a very, what we call, direct way, we put the **soul of the horizontal people on the top**. In Cup 1 if you count from top to bottom. In the **vertical people, we brought the soul of the system, to the what we call, Cup #3**. In the solid state, we had to bring **the soul of the solid into the what we call, Cup #2**, And what are we going to do with the liquid? The liquid and gaseous state, in so many ways, have an Inertia effect, but they carry a soul effect, because they can change for gas to liquid. (:40). and liquid to gas, and in some cases in the state of matter in the same position. We need a new setup, new understanding for liquid and ?? , which has no state of matter, but it brings in a new game and play in the T, which you have not known before. In so many ways, as gases have no state of matter state in them as such, it becomes the play of dynamic Gans. Has to be only gases level, and liquid level, which is only can be, CO₂ and CH₃ which you have. So you need **a mixture of CO₂ and CH₃**. **That this system, it still has the property of the Inertia, and the MG field forces, the same as the others. In so many ways, your, the soul, for conversion of energy, sits in Cup #1, in dynamic spherical shape. You cannot use solid Nano materials inside it, as it has no manifestation of system, (:42). but what you do, you can dictate the condition of creation, which is the Cu, and ?? Zn, which gave you a Nano coated structure.** You still follow the same process as the solid matter, but this time the center is ?? with the liquid Gans of CH₃ and CO₂. There is nothing in position 2 and 3, the

direction of flow of the system will create field forces to be set back. And this opens a new structure for work, for, in so many ways, as you'll understand in the future for deep space travel. and understanding of T. Now for the first time we mix the Nano T, and the Gans T together in combination of creation of the new materials and new conditions.

In the exhibition center in Linz in September by the KF team that, (:44). will allow the transfer of the fields within the structure through the body of the man. And this will add to our knowledge in new ways, new understanding, and In so many ways, in the coming time, coming understanding, and as we develop the T further, **we can replace the bottom, or what we call, MG field of the system, with a dynamic system, but a different mixture. This mixture we'll let you have, exactly what should be, in the coming time, when we introduce the communication line,** and the structure of the communication between the 2 points. The we will use this T for zero-time communication across the planet, as this can be shown in the future, how it will be developed, and how it will be implemented in space T of the coming time. If you look and understand, we join up with the upper atmosphere with matter state MG field sense of the center of planet, and with this we cover totality. We use this in the future, this understanding and T for many applications. (:46). Elevation of the soul of the human race, feeding of the human race, understanding and nurturing the planet world, and plants, and in so many ways, to feed those who work and live within the liquid state. In this liquid state in the space, can be a fish, or can be animals, which do not feed, but use the MG field of the universe and planet. As I said, the new T, brings in new understanding, and as we heard, for space development, in a rapid way to meet our commitments by March 21, 21, that we all be able to eat, to reach condition of what man needs, for the point of survival as a liquid, as a human race uses water, all will be fulfilled.

In a way, if mankind understands this setup that will be the end of many things, that will be no more droughts, there will be a point of the fresh clean water, at the point of demand. In a condition that man doesn't need to drink, but takes MG field of the system to replenish what he calls, liquid of water in his body. I will change the course of humanity in 1 swing in the coming time, that man will never be dependent on anything in the U except his own knowledge and understanding of, (:48). the totality of the knowledge of the creation.

You got to remember, at this point, everything on the screen is considered to be of, what we call, Nano plates, and N material coated. If you understand this, in the coming time, you'll understand how you can create systems that will feed the mankind and all those of this planet, and beyond, and those who are our guests on this planet. In understanding this new T we'll breakthrough and make everything ready for March 21st. As I said, my return to Iran will be ?? parallel to new space T and understanding of the new era in human knowledge, science and T, and systems. In the coming time, we will do with the state of mater, we will do with solid food state and every man will be happy and satisfied to their own need and own understanding. (:50).

Are there any questions that we can clarify today that in the future we don't have more ambiguity.

R: ...

They are All 5 Cups -- clarification:

John: .. we hadn't seen this material before, the 3rd setup, are you recommending that we attempt to start that process with a 3 Cup arrangement, and 4th setup also with a 3 Cup arrangement, so it would be 5 Cup, 5 Cup, 3 Cup, 3 Cup?

K- No, everything is 5 Cup... with the difference with the liquid, you leave the empty space between, where the Cup 2 - 3 do not exist. Because the position 2 goes to gases, and position 3 goes to liquid. And a conversion of liquid to gas has to be kept in that state. In so many ways, (:52). you have a new, or different structure where you have the new one (Cup 1), empty (C 2), empty (C 3), Inertia, (C 4), gravity (C 5). Where the gases convert here (C 2), and the liquids convert here (C 3). and the same process, the soul of the physicality of the two, is reversible (double arrow between C2 and C3). This will give you the same thing. Where before, for example, for horizontal people, we had this setup (5 Cup setup). Your position 2 and 3 is vacant. Where with the Vertical and horizontal people you have the soul here (C1), you have the STP (C2), the physicality (C3), Inertia (C4), and then you have the MF field (C5). Here (new Cup) it still stays the same. If you look at this section here () , you will understand why in some places you even convert the liquid into gases. In some parts of the world what is liquid, or some parts of the U where it's liquid, is liquid on earth is gases in other position, this is due to this part (Inertia and Gravity). So **this system is not just for Earth application, this system is universal application**. As I said, (:54). our teaching has entered universal teaching, it's not a physical matter state, man condition.

Q: Thank you ..

K- How is your center coming up

Q: It's coming along good, we are going ?? to need systems quite.

K- Would we see you in Linz?

Q: I would like to but the flight and arrangements are not compatible ..

K- I think if KS would have been fast by now we would have had no limitation on travel. Any other question?

R- not related.

Q: (:56). It can be placed near the CM ...

??

Q: in Cup of Plants, can be plants be planted near by.

K- Yes, you can try this is why we teach this way to see how much you can add form your knowledge, and everything else you add over years.

Q: (:58). .. we can create a church on paper .. to be protected by law.

K- KF plasmology

No if that is that the way to go , we leave it. because we need to be in position to do so.

We prefer to stick

no Churches and no Temples and then we start the same process as the others.

If the Church invites you to do the T, this is what we do in Iran.

(1:00). If they invite you to do. of course you can ..
But we don't setup a church.

Q: .. CH₃ was previous not advised due to Corona, How do we do CH₃. special procedures or is it okay now?

K- We introduce it this way in a Cup as , it will become part of the structure, and it is not for consumption. (1:02).

Q: on the last system presented does the Cup 2 and 3 have the plates but no salty water, or no plates but water, or only empty Cups on their position?

K- What do you mean?

Q: .. how can we build the last system ... I don't know how to design #2 and 3,.. to leave the Cup empty... or have Cups as before without water or water without any wire inside?

K- You mean which Cup?

Q: the last Cup with the gases state? (1:04). The last system.

K- You have to remember that **you have to connect these systems together, you have to find a way that the Gans in the system are connected to the plates and the rest of the system. Or you leave it to be done by itself. In a way you let the fields to connect.** You connect the 2 side plates and you allow the units, the bowls, themselves to interact with the fields of the system. Or you decide to connect it directly in.

Q: Okay, thank you

Q: ... in your initial drawing you have a top Cup with CO₂ and CH₃ in the middle as a non-physical presence, is that ... produced by the 2 plates you had drawn or are they added and they end up forming, (1:06). because of the addition of them they create produce that non-physical presence between the plates.

K- You fill up the core with it.

Q: So you make a CO₂ and CH₃ and add it?

K- yes, yeah

Q: .. on the screen, you say positions 2 and 3 you say are empty Cups, I didn't understand what that meant?

K- It doesn't need to be empty Cup, you leave an empty space. If you want to produce Gans's you put #2, if you want to produce liquids, you put a Cup in place #3. And then you decide what gases or what liquids is created by what materials, or which materials, or by the condition of the Inertia, because in the liquid and gas state, the condition of the interaction with the MG field will dictate the liquid, what it will be.

Horizontal Plate Technology:

There is a T, which we taught initially years ago and has been forgotten, what we call the horizontal plates, the horizontal plates was taught years ago. (1:08). .. with most of the material you created you put the plates in this position (vertical). with **the gaseous plates you can position your plates this way (horizontal)**. This was taught years ago. Where

you decide by changing, how you change your position, with the what you call the liquid condition, is about the same, but with **a liquid condition you have a 3 layer**, and at this moment you can use those in these areas. If you take CO₂ and use the horizontal plates, see what you get here (between the horizontal plates), and what you create here. if you put Cu higher or Zn lower or reverse. This we .. the field difference is very much, it's very, very different then when you do the vertical plates. When you, (1:10). do vertical plates, Earth's MG fields interact. When you do horizontal plates, in totality you are confined within the plates, because these fields are blocked by the Nano plates. And it's only applicable in production of Gans's like gases like CO₂ and CH₃. We use this quite openly in many of the tests. So your Cup 2 or 3 comes from here. It depends you want a gaseous system or a liquid system. Because now you work on a zero plane condition, not on Earth's MG fields. The only thing you have is the Inertia, because now the Inertia plate underneath will interact with the matter state of the plates and dictates the material. (1:12). The horizontal plate system, maybe if you haven't heard about it, is to be used for gaseous and liquid state. If you look at the Chinese flight system, we created the dynamic structure of this, very clearly, by dictating the Inertia, you can dictate the gas, and the condition you want to achieve it, in the liquid gas, or in a solid gas, or in a gas, what you call, non-dimension. And you will see different characteristics when you, especially like CO₂, you will see a pressure on your plates, it depends on how you do your plates, and the plates moves out of the water, usually. If you get it right the pressure of the Gans of the plasma of the gas, lifts up the plate. And if you go further into like production of the water, you will see water flowing out. You create a container which continuously produces water. But you have to get energy thing precisely, the vertical plates are easy to make, horizontal plates are very volatile, you have to get everything precisely right, to be able to what we call, create the conditions, these are rivers of life, these are plates where, what we call, body achieves new understanding. So in the system if you look at it. You have this, then you don't want anything on the gaseous side. (1:14). On the liquid you want to create a water, you have to know what you do it. You have your Inertia, you have your MaGrav. And linking of these horizontal plates is a tricky job. But you create. this is how liquids are created on this planet. You block certain fields, and you open certain fields. And here (space between horizontal plates), itself becomes an environment for itself. this one (C4) is empty, or you decide that you want everything here (C3 & C4) to be empty, you don't put anything in. Your understanding will change and .. you got understand the new ways of interaction of the soul. (1:16). Because all these carry a soul with them, and in this process you have to comprehend the totality. Then you'll see how your systems work, how your interaction of the fields come in. This is why the new dynamic systems, and new dynamic balls will create a conjunction with the Gans's and materials, a new phenomenon which many of you are not familiar with. But again, if you go to the Chinese reactors, it was clearly shown there. We load up the system, the reactors, for the purpose of flight. We load up the system for specifically for producing certain materials, if you saw it, it creates water around the reactor. That's how it is done. Go back on the teachings and look at when we showed the Chinese reactors. How we start collecting water, because we created a way that the dynamic soul of the liquid and the gas, interacts and sits somewhere in-between the two, and it's dynamic, it is something you cannot change. (1:18). ... In so many ways, the understanding of the T comes from the understanding of the totality of conversion of systems.

Q: We are working with materials Cu, Zn, Fe, in our decision on which materials to use, I have a basic feeling of Cu N coated to interact with the physicality, Zn N coated, at the soul level, and Fe is in connected with the central forces soul. How do we use this to position, for instance the top Cup. (1:20). It comes from, you got to know it by experience. You got to remember O itself, as O₂, is MG magnet. So you have to realize when you create a liquid like water, or CO₂, you have 2, 2 MG field system on top of each other. If you look at it this way, you have this, and you have this, you have this plate. You have the Inertia and Gravitational plate, now the ?? gases, you are creating O, or water, you dealing with another dynamic soul system. in conjunction with the matter state. The same with the CO₂, you are dealing with a dynamic system plus a matter state. The plates, or your vertical position, and horizontal position goes this way. You change this with this. This is very, very clearly, to understood, by those who take the next step. (1:22). and you can create a continuous flow of water. Or you can produce continuous flow of CO₂, or O. The use of horizontal plates, or horizontal environments has many, many applications, we have tested the system years ago. And that is, if we use corrugated plates, be it Cu, be it Zn, or whatever. You have a combination of the Inertia and the gaseous condition M field together. As I said, now we enter the universal language of the T, still using the understanding of the man of the Gans's. We cannot find Gans's in the Universe, we cannot carry water with us in the Universe to make Gans's or whatever, we have to create condition of the field flows, and you got system, which is what you call dynamic, (1:24). you'll understand more how to operate it. If you have, ... you make a space hole gap in your system, and then you see what effects you get.

Q: Does this space hole gap allow certain energies to come in, where as the position of your plates block from other directions.

K- Yes, because when you have a position space gap, you have corrugated, what do you call it? very much like corrugated paper, very much like the sheets with the holes stamped on it. if you put that on the base, or the top, or you put that on the base, if you can make it with a dynamic structure then you see, you create a flow of liquid. If you put it on the top, you create a flow of gases.

Q: When you say corrugated, do you mean perforated, with holes in it?

R- Cardboard ..

K- Yeah, it's perforated as well. both can be used. Because when you use perforated, the ?? Carbon (cardboard) structure. .. (1:26). you have a field flow interaction, and this field flow interaction between the 2 plates and the space gap, we can do it perforated the same. But you have to understand how .. it works the same. So you have a space gap, or you have a hole, you can do the perforated the same.

Travel with a Pinch Salt Connect to Earth - Blood better:

Q: ... (1:28). .. on this planet, our home planet is the Earth, and we're linked to this earth through the salts, and our body, the liquid planet and they connect us, so these Cups they're produced in the physical matter state, could we, would we then travel by using just taking the salts in physicality, a pinch of salt with us to connect us to the planet to be able to move freely? Or would the soul, do we have a signature as a soul based on this planet? ..

K- One of the best ways to cover both, is the use of human blood, if you understand it, it's both the liquid, it carries the salt, it's still partially AA, and partially in gaseous state. .. The best state of this, is to use the system of producing hemoglobin. Because human hemoglobin has a fingerprint of the Earth, because it's created by the interaction of the field of the Earth.

Q: So the blood links us to the planet, (1:30). does it hold us to this planet, the soul, does once the soul is released, is there still a connection through the bloodline?

When the Planet Blows Up - What happens to Souls:

K- Yes, but we don't call about your blood, we talk about the blood as a human hemoglobin created by this planet. You got to consider what happens if, from when this planet blows up, and disappears. So are all the souls disappearing as well, because there is no more connection. Or are we in a way, in essence connected with different fields of it.

Q: So that's like going back to the beginning, all the fields created through the field forces of the sun and the earth come together, and the universal flow of those fields came together, and basically gave us our physicality, our soul, manifested as a physicality. So that connection is just going back, that whole process starts again?

K- What do you mean?

Q: So if it occurs what you just described, where the planet blows up, is no longer here in matter state, then the whole process for humanity would start again. Who knows how we would look or be, in a different .. well no 2 things happen twice, we would be completely different, consistency of our being?

K- It will be more or less impossibility to replicate the life on this planet anywhere in the Universe, an impossibility. (1:32). The fingerprint of life on this planet is unique, and it stays unique because it has been produced from the interaction of the fields of many, many conditions, over many, many millions of years.

Q: So obviously this is then so for all entities, whether they take this before or not, they all have a fingerprint of wherever they come from in the Universe, or reside in the U.

K- That's what we said from the beginning.

Q: So interaction from the gaseous friends, community, and whichever form they take, it goes back to the soul level, where it is in a human understanding. on a fault, a soul transfer?

K- Yes, In so many ways, yes.

Q:

K- The maturity of the man in the knowledge of the space and creation comes when the man understands his own ?? self creation. Not on the physical dimension, but understanding of his own soul.

Q: I think that understanding is gradually coming back, (1:34). to many people. Through the teachings we are starting to understand the beauty of creation, and of the Creator ...

Q: .. in the capturing .. to the Cup you use dynamic Gans's and can use different methods. in one of these methods can I do , capture field in the Nano to produce this effect, interaction between the plates?

K- If you can use the captured fields, yes. .. The captured fields in place, is a composition, where the field of the Gans in the bowl, (1:36). is mono. Or at least 2.

Q: But I can choose which plate to capture which fields? and in this way I'll make it dynamic, or you need this interaction between the ball and the plates?

K- The ball represents the Sun, how can you put it in a plastic. If you look at it, it's in the upper layers, which is the interaction between the field of the Earth and the solar system, and cosmos. That's why we put it in that, non-tangible or non-matter state Nano, or matter state.

Q: Ok and there are 2 ways to have this field, we can use motors or use balls?

K- ?? now you can use whatever you like. It depends on you.

Q: Is the CO2 what we do, or is it what you do? It's the slight of difference in processing.?

K- What do you mean my CO2 and your CO2?

Q: You use distilled water in producing CO2.

K- How do you know I use distilled water, Nobody uses distilled water. ?? Hot water is good enough. I am not aware of where these things have come? (1:38).

Q: It's from you, ancient teaching. The way you do everything is a little different. It's very effective. Just you the horizontal plates .to make Nitrogen?

K- Of course we do, that is the whole purpose of it. That if you use, I mean, .. go back to the Chinese system,. we used N coated Cu underneath the old system, to separate that we deal with our own field. Now we are on our own, when you put a N material on the bottom, you dictate a new condition, a new environment.

Q: Yes I understand now. It is always a distance gap you are working with, always?

K- Of course, distance gap, how you treat that distance gap, what materials you produce in that distance gap. You see if we use, perforated system. the field coming here, is different then the field coming through the hole, but on the other side they interact. (1:40). So now you are composite energies, you create the waters of the energies.

Q: This is the first point in producing materials?

K- We are talking about liquids and gases.

Q: Okay.

K- There is a composition a school of thought, that you have the Inertia, the MaGrav (Gravity), you have the combination, what about if you put a plate here (bottom C3), and a plate here (top of C2)? One to be Nano (C2) and one to be matter state (C3). That's what I said before, we haven't even start teaching you the essence of creation. (1:42). And now you enter into a universal knowledge, these are what's on your plate. What about the dictation of composite .. in interaction of the mixture of plates and Gans's? In a way, if I put it to you this way, The field flow is in that direction here. You got to realize the knowledge of Creation is limitless. It's the man who puts limits according to his understanding.

In the Linz exhibition you'll see systems which will puzzle you. We introduce many unknown knowledge's in the coming time. ... (1:44).

To be able to join the U Community the knowledge in the rough understanding, we have to be able to go through the basic steps, step by step, chapter by chapter. You all got excited you made the first 5 (Cups), and then you got another 5, and then another 5, and

then another 5, and then the next steps, is the line of communication of the fields. Line of interaction of the fields.

The New Computers - By Thoughts:

The present computers in the next few months will be obsolete. You spend on your computers, it will go into the bin, because you remember, I was standing yesterday at the cashier, 30 years ago the poor lady had to know all the numbers and prices. .. and now you pass it through by beam. .. these machines will be obsolete. Two reasons, one is it will be in your thoughts, what you bought, and it is in your thoughts what it is worth, when you come to the cashiers, it's already paid. Do we need a cashier, or you take what you like, (1:46). and it is deducted off your accounts by virtue of just picking. This is now possible. .. when we release this knowledge in totality, you'll be shocked. If we still stay with going to supermarkets to shop, whatever you take, you don't need someone to add it up for you. It's a level of part of your soul what I take, and what is given, and then what is paid for. .. we'll have to introduce these systems once we go into the flight system. There is a lot to come. And now we still have introduce systems which can handle tens of thousands, millions of links and connections, and never make a mistake between one and the other.

Q: Will the new computers interface with the old systems, or are they totally a new way, that will replace such systems.

K- It's totally a new way, the present systems cannot be accommodated in it. .. no room for it.

(1:48).

But what happens when the telephone is lost ... can we remember it ..

recovery memory is part of it, and we don't need to do much. The new .. Gans plasma computers, is beyond imagination of man ...

We showed a Gans computer years ago, but nobody understood it so we put it away. I showed the first plasmatic memory bank in Eindhoven, I opened the box, and called it an empty box of Universe. That was one of the first computers .. if you understand it

(1:50). .. you get the whole knowledge of the U in that box, but you wanted something else ...

Any other question. Would you like to go to a commercial break as we call it.

Videos .. (1:52). .. (1:58).

K- If there are any other questions that we can expand on.

Q: In the 319 KSW Dr. Assadi speaks of the Pico state, finer than Nano, is this .. part of the no time computer and other application?

K- **Not really but we go as a energy field, not as a matter or a Gans field. .. in a bigger dimension, the stars are this Nano points.** If you look at it, these planets are these Pico points. (2:00). In a way we are changing the knowledge into universal knowledge. .. you will see the change, what you call Pico or Nano.. if you take the cosmic dust, how far below do you go? Now maybe you can see a micro in Macro. and how do the stars communicate. how do they interact .. do the follows the same path with

the stars and moons, and come back to the same point, isn't that part of the memory system? Isn't that what we are aiming for? Now you understand where everything sits. Maybe now we see a bigger scale. (2:02).

Pico State as Field Interactions - Do they reach the Creator:

Q: It seems the Pico state was always present but we have no instruments to see it. As we go finer and finer, is this process, although only a transition, still a valid way to help us to the soul, and ultimately to the Creator?

K- We are not looking at a matter Pico, we are looking at a field interaction. Does the fields of our soul, reaches the fields of the Creator? That's the question. This is why I keep on saying, look at the fields not the matter state, you are still looking at the Gans, but where do the fields of the Gans go? Where do the fields of the STM go?

Q: How many souls fit on the head of a pin. How many N souls .. or are they Pico souls?

K- We can go further if you look at the dust, of cosmic dust, some of the cosmic dust are still in the field state, not a matter state. (2:04).

Q: You've confirmed how easy it is to confuse the man, like myself, is there a simpler way to teach these understanding, or is this the most basic way to grasp the new knowledge at our current level of comprehension. Or the teaching is already super simplified for us, we just have to dare to build and test, and see how we do?

K- What do you mean?

R:- .. he's apparently confused about these Cups ..

K- We give the information, we don't wait for all the people to understand, we teach that in due course people, some will understand part, and we develop. We can't wait until everybody understands, I will be here on Earth several billion years. I have a rendezvous to meet and to go. (2:06).

Salts Formed on Cups

Q: What to do with the salts that are formed on Cups 1 and 2. .. ?

K- These Cups where you collect the salt, these salts are composition of all, the what we call, the Gans's, So if you understand your salt is not mono salt, it's a Gans salt of the all the materials you have. In the Cup of Man you have that position. When you make a Cup of horizontal people and you get a salt, on the soul level, now you understand the strength of the matter state of the salt. There is a lot to learn. (2:08).

There are no more questions?

I think today we taught enough, and opened a new Pandora Box for you people, especially if you are not aware of the horizontal plates and create of the gases and liquids. And this will come to be part of, the most important part of upcoming teaching, combination of the cores, and Nano materials, in the way you have seen, and understanding of it. In the Linz exhibition we will show new dimensions in T. Dynamic memory banks, holding and sharing, at the same time they hold the knowledge.

Q:

(2:10).

K- the KF team is now embedded in one of the most ?? hospital in Iran ..

.. they will see long term prison terms..

(2:12).

Q; .. when we the CuO and CO2 Gans inside our laboratory we can't cultivate the COVID virus, why?

K- This was done in, by Ayatollah University research labs and they, the existence of the fields showed, they never had such a clean lab of viruses. And this is due to the effect of the strength of the Cu and CO2 and the dynamic flow of the fields.

R- And that's just bringing it into the lab, and not necessarily spraying and doing all that? and the whole Protocol.

K- It's just that being in the lab has created this condition. We know this from a major university in Iran. What has happened, we got to know yesterday by the Ayatollah University and hospital, which is dependent on the Sepah, they received a positive result on all of the tests. (2:14). And these people sit in, 3 of these people sit in the ministry of Health. And they were told, what happened, as I said, the Ayatollah is a leading hospital and university medical, the head of the Ministry was on the bribe from the President, and Minister to block any, not just KF, block any Covid solution. He was replaced on clearance of this, what we call, misconduct. And now his protégés in the universities have blocked the KF because they say, by you coming here and replacing the head, now they don't get their bribes, so they block. Now we are dealing with a bunch of another thieves in a lower level, which is the people who will certify. The KF T has proven 100% correct in a hospital, in a university, now on the back of the head of the university being replaced, have taken position. This will be dealt with by the authorities. We are in the process of getting the medical application and it goes nationally. Because we are dealing with a corrupt government, one of the most corrupt governments Iran has ever known. And this will in turn cost thousands of lives. This will be answered, they have to be answered, especially by people in Ayatollah University, those people who were sitting on the committee, and 3 of them are taking bribes from the Ministers to block. This will be dealt with. I have been very open about how the situation happened in Iran. We have passed the certification. Blocked signature only by 3 people who get paid, (2:16). by masters. And the authorities have taken steps, and most probably these people will receive long prison sentences for coercion, and the death of many people by not allowing the T to come out. And as you heard on the BBC in the last 48 hours, many of these people, working with outside forces have been captured. And soon all these blockages in Iran will be opened up. Blocking new T was paid by outside nations, to create with these people. But, we are not going to prove the T, the T has proven and passed the test. Clinical trials are completely positive, but 3 members of the group, because the boss was sacked, ministers have been told to block. They cannot block it, because now the legal authority instruction has come, they are responsible for the death of many people. The Corona 2 and 3 has made Iran hospitals full. And where the wards where KF works is emptied. cleared out all the patients, without death. And this is the process we shall see continued and we have been told in the next week, 10 days, and even this opposition in

Ayatollah will be handled by the other positions. As I explained, in the Tuesday teaching, once the medical certification is issued, it will go nationally in Iran, (2:18). and when we show a rapid drop in contamination, and death, and numbers, the rest of the world will follow. 3 or 4 people have taken the whole world to ransom and the authorities of the leadership will respond to the president. The only reason he is sitting there is because he carries the title of Ayatollah, and Ayatollah cannot be touched, and he is abusing his position. He has to be stripped of his title then ?? normal citizen, ?? that is part of what the clergy in Iran have to sort out. We are back in religious .. with passport of American under his turban. and the rest of the world is paying for it.

Any other question?

Q: .. I am interested in forming foundation in Kalli Columbia, (2:20). with the purpose of taking this T from Mr. Keshe to places where they do not have access to the Internet, and where people are of limited resources, who suffer because they do not have the necessary resources for medicine, food, energy, and they do not even have drinking water. I want to know if I have the approval and support of the KF, to carry out this project? .

K- I presume you are Canadian, the KF Canada is strong enough you don't need to setup another foundation. ...

R- I don't know if it is Canadian, it's in Columbia, not British Columbia...

K- in South America, w ho do we have in Columbia ...

You have to talk KF and setup in Columbia. ..

(2:22).

Ribs Example of Horizontal Plates to handle Gases:

Q: the holes in your diagrams remind me of the bones, is this why bones have holes?

K- I think you have to go to the medical teachings. Actually, I think the structure of the bones, and the tunnels, or the tubes in the bone is a very good example of the, what you call, horizontal plates. If you look at your ribs, are in a horizontal position, not vertical, where your bones are vertical, combination of the vertical, what we call, the spine and horizontal ribs, create a condition where gases can be handled, and the liquids of the heart can be handled. What we just taught today, you have a clear indication in the body of the man. Where the gases are handled you have the ribs, horizontal plates, where liquid of the heart and liquid of the .. lungs is handled, is on a horizontal plate. (2:24). What we teach in teachings is replication of the creation on this planet, nothing more, nothing less. That's why you can understand, the way you can understand. . and you see clearly the structure of the body, the man is set to handle gases, from the horizontal ribcage, and the separation you have in between with the non-bone structure, separates the both left and right, that the fields of the 2 work are operated but separately. And as you breath with the bigger rings of the ribs, bottom to the top, which is the shorter, smaller one, again dictates the composition of the energies you can take from the sir you are breathing. Knowledge is so simple if you understand it, and knowledge of the creation and Creator is much more simple, if you decide not to make it complicated. (2:26)

Any other question? or shall we call it a day.

K- Kasmer.. do you want to present the new products ...

Yes...

KF Store .. 5 different products. (2:28) .

Environmental balancer. .. ultrasonic ... also repels insects and pests ...
(2:30).

(2:48). K- .. As we said we'll try to increase the product range as we go on this path.
(2:50).

If there are no more question we can conclude today. I am sure many of you have already started setting your boxes and everything else.

R-

Q: Will the vaccines that is being made in other countries for the Corona, avoid contagion, avoid the contagion, avoid the virus?

K- We are not in that game, we don't know.

We know at the moment, Corona and people who have received the injections of the virus, because we have a data, we have been talking about this directly from database, has created a loss of libido, and total, 98% plus death of the sperm in men, and the female side we are looking into. So vaccination or Corona, are responsible for this situation, because the numbers are in hundreds, it's not coincidental, or has shown itself since the vaccination. (2:52).

We know countries like UAE who went for a full vaccination of citizens might not have no more citizens left if this carries on. As they have, could have created a condition, that none of the male, or maybe in the female, can produce a living sperm or an egg to create an offspring. This is a reality, because a 100 people have been tested and all 100 are zero.

R- The Russians have just announced they have a vaccine.

K- Yeah, Corona is not one way of Corona, now we have identified 20 other ones. The vaccine might work on 1, what about the rest. This is a very questionable thing.

R-

K- We will see through what .. generally speaking vaccine for the Corona is not a solution. How they will produce it, what about the mutations of it. We have to find a universal method to deal with all vaccines and ?? (2:54). It's not antibiotic and rubber bands.

R- People say there are no side-effects .

Q: .. with the use of the Cups we could learn several languages, could you share with us how to do that?

K- Yes in the future.

Q: how to use the Cups for the brain mutation ..

K- That has to be taught. there is a specific way where 2 and 1, in the brain .. you can do that yes, .. in the moment we don't teach it .. they can create a lot of problem for us..

(2:56).

Q: Will 5 Cup be available on KF Store.

K- Yes ...

Q: I have seen

how much more do we have to see to understand?

K- We keep on teaching until you become wise.

R- .. (2:58).

K- Because you are all looking at the matter state, look at the fields ..

R: ..

K- In Linz you will see a very typical system, I have asked the team to produce it. ..
the problem with the KF they just copy and not understand the knowledge.
no maturity to take it a step further.

K- We'll call it a day. (3:00).

Q; Will any of the programs in Linz be broadcasted ..

K- .. many of the health centers

(3:02). R- 341 KSW
